COMMITTEE RECOMMENDATIONS
13. PUBLIC WORKS COMMITTEE
[from the October 1, 2014 Public Works Committee meeting]
Review of Street Fees
Committee recommendation: Developer would be assessed the Street Fee when undeveloped land that is adjacent to an unimproved thoroughfare. Developer would not be assessed the Street Fee for any undeveloped land adjacent to an improved thoroughfare, [where the road has already been improved upon]. - Discuss at November 3, 2014 Governing Body Work Session

Staff Comment: The implementation of the Public Works Committee recommendation would continue to result in an unfair financial situation by having some developments pay a fee for the street’s construction and others not pay at all. It is the City Administrator’s recommendation that developments that occur prior to the development of the street pay the Impact Fee and those developments subsequent to the street improvement pay the linear foot cost of the actual construction.
