ORDINANCE NO. 203

AN ORDINANCE RELATING TO WAGE AND SALARY ADMINISTRATION FOR SALARIED EMPLOYEES: VACATIONS AND SICK LEAVE

Be it ordained by the governing body of the City of Leawood, Kansas:

I-1001 WAGE-AND SALARY COMMITTEE. Section 1. A wage and salary committee consisting of three councilmen shall be appointed by the mayor for purposes of assuring fair and equitable consideration of compensation for all employees. The wage and salary committee shall be charged with the responsibility of periodically reviewing wage and salary problems including wage and salary surveys, reviewing and making recommendations to the council concerning rate ranges, job classifications, merit increases and keeping abreast of and working on other matters pertaining to the direct or indirect compensation of employees.

I-1002 ESTABLISHMENT OF PAY RATES. Section 2. A minimum, midpoint, and maximum rate shall be established by the wage and salary committee, with council approval, for each job classification on the salaried payrolls based on a comparison with the responsibilities and requirements of the job and similar jobs in the area and other municipalities. Each minimum and maximum rate shall be established as the minimum and maximum worth of the job, and the spread between the minimum and maximum shall be referred to as the rate range.

I-1003 STARTING RATES. Section 3. All employees shall be hired at the minimum of the rate range of the job classification covering the work to which he is assigned, except when, in the opinion of the committee, an employee possesses training or experience considerably above the minimum required for the job so as to warrant a starting rate above the minimum.

I-1004 RATE CHANGES. Section 4. Increases in pay shall be made only in accordance with the provisions covering annual merit increases, merit increases for new employees and promotions. All such changes will be effective only after the execution of an Employee Status Form.

I-1005 MERIT INCREASES. Section 5. On November 15th of each year, the wage and salary committee shall provide each department head with a schedule containing the names and salary information of all salaried employees in his department.

Each department head shall review the schedule and make his merit recommendations as to the employees entitled to receive merit increases, the amount thereof, and the month in which the increase is to be effective. In addition to the merit increase recommendation, the department head shall prepare a short written comment about each employee he has selected for a merit increase and who is beyond the midpoint of the rate range, setting forth his general opinion of the employee and the basis for any merit increase recommendation. When the review has been made the department head shall submit the information to the wage and salary committee for
consideration and for its recommendations to the Mayor.

The following principles shall be followed by the department head and the wage and salary committee in determining the salary positions of employees within their rate ranges in all considerations for merit increase recommendations:

a. The minimum of the salary range generally shall reflect the salary of employees who are new with the city, new in the particular job, or who are meeting only the minimum requirements for the job.

b. The midpoint of the salary range shall be the average worth of the job to the city, representing the appropriate salary for an employee who has adequate development and seasoning and who is meeting the quality and quantity requirements for his job. (The department heads and the wage and salary committee shall expect an employee with average qualifications and proper experience and attitude to reach the midpoint of the range at some time during his employment with the city.)

c. The performance of an employee who progresses beyond the midpoint of the salary range shall be increasingly outstanding, he shall perform beyond the average requirements for the job in the quality and quantity produced, his time and effort devoted to the job, and his interest and attitude toward his work. The maximum of the salary range shall be reserved for those employees who are performing the maximum worth of the job.

d. Annual merit increases shall be not less than 4% of the salary nor more than $25.00.

On May 15th of each year, the department head shall review those employees on the previous November 15th schedule who were denied an annual merit increase and shall submit to the wage and salary committee for consideration and approval the information along with his recommendations as to the employees entitled to receive merit increases, the amount thereof, and the month in which the increase is to be effective.

1-1006 FIRST YEAR MERIT INCREASES. Section 6. New employees on salaried payrolls, and old employees transferred from hourly to salaried jobs may be considered for merit increases during their first year in such positions in accordance with the following policy:

a. New salaried employees and old employees transferred from hourly to salaried positions, may be considered for merit increases after the completion of their first 90 days in such positions.
b. Such increases shall not be considered as automatic, but shall be granted upon the basis of meritorious service by the employee. All such increases shall be in increments of $25.00 and shall not exceed $25.00.

I-1007 PROMOTIONS. Section 7. It shall be the general policy of the governing body to promote qualified employees from within the organization to higher rated job classifications as openings occur. Employees may be granted an appropriate increase at the time of promotion.

ORDINANCE NO. 197

AN ORDINANCE DEFINING THE MANNER AND PLACE OF CONSTRUCTION OF THE LINES OF THE SOUTHWESTERN BELL TELEPHONE COMPANY AND PROVIDING FOR AN ANNUAL PAYMENT TO BE MADE TO THE CITY OF LEAWOOD, KANSAS.

Be it ordained by the governing body of the City of Leawood:

REPEAL OF SECTION. Section 1. All of Ordinance No. 139 is hereby repealed and the following enacted in lieu thereof:

10-117 FRANCHISE. Section 2. The Southwestern Bell Telephone Company, its successor and assigns (herein referred to as "Telephone Company") shall continue to operate its telephone system and all business incidental to or connected with the conducting of a telephone business and system in the City of Leawood, State of Kansas (herein referred to as "City"). The plant construction and appurtenances used in or incident to the giving of telephone service and to the maintenance of a telephone business and system by the Telephone Company in said City shall remain as now constructed, subject to such changes as may be considered necessary by the City in the exercise of its inherent powers and by the Telephone Company in the conduct of its business, and said Telephone Company shall continue to exercise its right to place, remove, construct and reconstruct, extend and maintain its said plant and appurtenances as the business and purposes for which it is or may be incorporated may from time to time require, along, across, on, over, through, above and under all the public streets, avenues, alleys, bridges, and the public grounds and places within the limits of said City as the same from time to time may be established.

10-118 PAYMENT. Section 3. The Telephone Company shall pay the City on the 15th day of September, 1961, for the period September 1, 1961 to August 31, 1962, a sum computed at the rate of 7 cents per month per main telephone station located within said City, and a similarly computed sum annually thereafter on the 15th days of September 1962 through 1965, being a term of five years ending August 31, 1966, and for successive terms of like duration, unless within four (4) months prior to the expiration of the initial term or of the successive terms ending on each five-year anniversary following the expiration of the initial term sixty (60) days' written notice is given by one party to the other of its intention to terminate the same at the expiration of the then current five-year term; it being expressly understood that each five-year term provides for five annual payments; this agreement may also be terminated forthwith by the Telephone Company if authority to collect the amounts of such payments from its customers within the City shall be removed, cancelled or withheld by legislative or regulatory act.

The number of main telephone stations upon which such payment shall be determined shall be the number of main telephone stations in service during the month of June preceding each such payment. The payments herein provided shall be in lieu of all other licenses, charges, fees or impositions (other than the usual general or special ad valorem taxes, street cutting or tunneling fees and deposits) which might be imposed by the City under authority conferred by law.
The Telephone Company shall have the privilege of crediting such sums payable hereunder with any unpaid balance due said Company for telephone service rendered or facilities furnished to said City.

10-119 SERVICE. Section 4. The Telephone Company on the request of any person shall remove or raise or lower its wires temporarily to permit the moving of houses or other structures. The expense of such temporary removal, raising or lowering of wires shall be paid by the party or parties requesting the same, and the Telephone Company may require such payment in advance. The Telephone Company shall be given not less than forty-eight hours' advance notice to arrange for such temporary wire changes.

Permission is hereby granted to the Telephone Company to trim trees upon and overhanging streets, alleys, sidewalks and public places of said City so as to prevent the branches of such trees from coming in contact with the wires and cables of the Telephone Company, all the said trimming to be done under the supervision and direction of any City official to whom said duties have been or may be delegated.

Nothing in this ordinance shall be construed to require or permit any telephone, electric light, or power wire attachments by either the City or the Telephone Company on the poles of the other. If such attachments are desired by the City or the Telephone Company, then a separate non-contingent agreement shall be a prerequisite to such attachments.

Nothing herein contained shall be construed as giving to the Telephone Company any exclusive privileges, nor shall it affect any prior or existing rights of the Telephone Company to maintain a telephone system within the City.

10-120 ACCEPTANCE. Section 5. The said Telephone Company shall have sixty (60) days from and after its passage and approval to file its written acceptance of this ordinance with the City Clerk, and upon such acceptance being filed, this ordinance shall be considered as taking effect and being in force from and after the date of its passage and approval by the Mayor.

TAKE EFFECT. Section 6. This ordinance shall take effect and be in force from and after its publication.

AN ORDINANCE PROVIDING FOR AN ELECTRIC TRAFFIC CONTROL SYSTEM IN THE CITY OF LEAWOOD, KANSAS, CONTRACTING WITH KANSAS CITY POWER & LIGHT COMPANY, ITS SUCCESSIONERS, ASSIGNS, AND GRANTEES TO FURNISH AN ELECTRIC TRAFFIC CONTROL SYSTEM FOR THE CITY OF LEAWOOD, KANSAS, FOR A TERM OF TEN (10) YEARS AND MAKING PROVISIONS FOR ADDITIONAL TRAFFIC CONTROL SYSTEMS.

WHEREAS, Kansas City Power & Light Company is a corporation duly created, organized, and existing by virtue of the laws of the State of Missouri and admitted to do business under the laws of the State of Kansas as a foreign corporation for the purpose of generating and distributing electric energy; and

WHEREAS, it is to the best interest of said City and its inhabitants that an electric traffic control system be installed and operated.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF LEAWOOD, KANSAS:

SECTION 1. In order to promote the welfare, comfort, convenience, and safety of said City, its inhabitants, and the public generally, and in consideration of the benefits to be derived by said City and the inhabitants thereof through the maintenance and operation of an electric traffic control system, there is hereby granted to Kansas City Power & Light Company for a term of ten (10) years from the date hereof, the right, authority, and power to maintain in the City of Leawood, Kansas, an electric traffic control system at the intersection of 95th Street and State Line consisting of a single-dial controller, ten (10) standard three-light signal units, flashing feature, wood pole suspension cable, and interconnecting cable and accessories.

The signal units in this traffic control system shall be mounted in vertical positions on posts or cable and shall be supplied with electricity through underground cable connecting the various signal units with the controller and shall operate 24 hours each day. The locations of the signal units and the controller shall be as shown on the blueprint attached to and made a part of this ordinance and further identified by the signature of the Mayor of the City.

Kansas City Power & Light Company agrees to install, maintain, and operate said traffic control system, part of which shall be located in the City of Kansas City, Missouri. The City of Leawood, Kansas, agrees to pay to said Company the sum of $76.60 per month as its portion of the total monthly rate of $76.60 for the construction, maintenance, operation, and service of said system. Such payment shall be made monthly, and if payment therefor is not made within ten (10) days after rendition of bills therefor, then five per cent shall be added to the amount of said bill.

The rates and charges specified in this section shall be subject to review and revision at the written request of either party five (5) years from the effective date hereof. If either party desires a review and revision of rates and charges at that time, it shall so notify the other party in writing not later than sixty (60) days prior to the review date, whereupon representatives of the parties will meet and in good faith attempt to reach an agreement with respect to the rates and charges sought to be revised. If no agreement is reached within such sixty (60) day period, each party may submit the matter of rates and charges to the State Corporation Commission of the State of Kansas, and both parties agree to be bound by the findings of said Commission with respect thereto, except that the right to seek judicial review thereof is hereby expressly reserved. Revised rates and charges determined by agreement, by said Commission, or upon judicial review shall be effective as of the date of scheduled review.

The rates and charges set forth herein are based on the existing weighted average hourly straight time rate of bargaining unit employees of the Company of $2.9158 per hour. In the event such average hourly rate of pay is increased or decreased five per cent or more, the charges for traffic signals shall be increased or decreased by 0.165 per cent for each full one per cent that such average hourly rate of pay is above or below $2.9158.

In the event any tax or taxes are imposed by any governmental authority (i) upon the Company measured by the amounts of electric service delivered hereunder or by the revenues to it therefrom or (ii) upon the electric service delivered
by it hereunder or upon the sale by it thereof in excess of those now imposed, and the Company is required to pay such tax or taxes, the City shall pay to the Company, in addition to the charges set forth herein, a sum equal to the aggregate amount of all such new or increased taxes so incurred by the Company.

SECTION 2. The Company shall not be required to relocate any traffic signal unit or equipment after it has once been installed at a location designated by the City unless the City agrees in writing to pay to the Company the actual cost of such relocation.

SECTION 3. All of the material and equipment which shall be installed and used in connection with said traffic control system shall be and remain the property of Kansas City Power & Light Company.

SECTION 4. Kansas City Power & Light Company shall use reasonable diligence in providing continuous service for said traffic control system, but if the same shall fail to operate, the liability of the Company shall be only for the service as stated herein for the period in which such traffic control system shall fail to operate.

SECTION 5. In the furnishing of the service herein provided for, said Kansas City Power & Light Company will not be held responsible for any failure in such service when such failure is due to an act of God, floods, strikes, or other occurrence of circumstance beyond its control.

SECTION 6. The electric traffic control system set forth in Section 1 of this ordinance shall constitute the basic traffic control system under this contract. However, it is now anticipated by the City of Leawood, Kansas, that it may desire to add additional signal systems or signal units or traffic control equipment other than that described in Section 1 hereof, and it is agreed by said City and Kansas City Power & Light Company that if additional signal systems or equipment as described above in this Section 6 should be desired by the City, the same shall be installed and supplied upon and for the following rates:
