The Bonds shall bear interest at the rates aforesaid (computed on the basis of a 360-day year composed of twelve 30-day months) from the date thereof or from the most recent interest payment date to which interest has been paid or duly provided for, payable semiannually on March 1 and September 1 in each year, beginning on March 1, 1993 (the "Interest Payment Dates"), to the registered owners whose names appear on the books maintained by the Bond Registrar at the close of business on the 15th day of the month immediately preceding the Interest Payment Dates (the "Record Dates").

20-1,767. **Section 204. Designation of Paying Agent and Bond Registrar.** The Treasurer of the State of Kansas in the City of Topeka, Kansas, is hereby designated as the City's paying agent for the payment of principal of, premium, if any, and interest on the Bonds and bond registrar with respect to the registration, transfer and exchange of Bonds (the "Paying Agent" and "Bond Registrar").

The Mayor of the City and the City Clerk of the City are hereby authorized and empowered to execute on behalf of the City an agreement with the Treasurer of the State of Kansas for said Treasurer to act as Bond Registrar and Paying Agent for the Bonds.

20-1,768. **Section 205. Method and Place of Payment of Bonds.** The principal of, premium, if any, and interest on the Bonds shall be payable in lawful money of the United States of America by check or draft of the Paying Agent.

The principal of and premium, if any, on the Bonds shall be payable at the office of the Paying Agent upon presentation and surrender of such Bonds as they respectively become due.
The interest on the Bonds shall be payable to the order of the registered owners thereof mailed by the Paying Agent to the addresses of such registered owners as they appear on the registration books maintained by the Bond Registrar or at such other address provided in writing by such registered owner to the Bond Registrar prior to the Record Dates.

The Paying Agent and Bond Registrar shall keep in its office a record of payment of principal of, premium, if any, and interest on the Bonds.

20-1,769. Section 206. Registration, Transfer and Exchange of Bonds. The City covenants that it will, as long as any of the Bonds herein authorized remain outstanding, cause to be kept at the office of the Bond Registrar books for the registration, transfer and exchange of Bonds as herein provided.

Upon presentation of the necessary documents as hereinafter described, the Bond Registrar shall transfer or exchange any Bond(s) for new Bond(s) in an authorized denomination of the same maturity and for the same aggregate principal amount as the Bond(s) presented for transfer or exchange.

All Bonds presented for transfer or exchange shall be accompanied by a written instrument or instruments of transfer or authorization for exchange, in a form and with guarantee of signature satisfactory to the Bond Registrar, duly executed by the registered owner thereof or by the registered owner's duly authorized agent. In addition, all Bonds presented for transfer or exchange shall be surrendered to the Bond Registrar for cancellation.

Prior to delivery of the new Bond(s) to the transferee, the Bond Registrar shall register the same in the registration books kept by the Bond Registrar for such purpose and shall authenticate each Bond.

The City shall provide for the payment out of the Bond proceeds of the fees of the Bond Registrar for registration and transfer of the Bonds and the cost of printing a reasonable supply of registered bond blanks. Any additional costs or fees that might be incurred in the secondary market, other than fees of the Bond Registrar, are the responsibility of the bondowners.

The City, the Bond Registrar and the Paying Agent may deem and treat the person in whose name any Bond shall be registered as the absolute owner of such Bond, whether such Bond shall be overdue or not, for the purpose of receiving payment of, or on account of, the principal of and redemption
premium, if any, and interest on said Bond and for all other purposes, and all such payments so made to any such registered owner or upon such registered owner's order shall be valid and effectual to satisfy and discharge the liability upon such Bond to the extent of the sum or sums so paid, and neither the City nor the Bond Registrar nor the Paying Agent shall be affected by any notice to the contrary, but such registration may be changed as herein provided.

The Bond Registrar shall not be required to register, transfer or exchange Bonds for a period extending from the Record Date to the immediately following Interest Payment Date for the Bonds or to register, transfer or exchange any Bonds selected for redemption in whole or in part subsequent to the date notice of such redemption is given.

20-1,770. Section 207. Surrender and Cancellation of Bonds. Whenever any outstanding Bond shall be delivered to the Bond Registrar for cancellation pursuant to this Ordinance, upon payment of the principal amount thereof and interest thereon or for replacement pursuant to this Ordinance, such Bond shall be cancelled by the Bond Registrar and the cancelled Bond shall be returned to the City.

20-1,771. Section 208. Mutilated, Lost, Stolen or Destroyed Bonds. In the event any Bond is mutilated, lost, stolen or destroyed, the City may execute and the Bond Registrar may authenticate a new Bond of like date, maturity, denomination and interest rate as that mutilated, lost, stolen or destroyed; provided, that in the case of any mutilated Bond, such mutilated Bond shall first be surrendered to the City or the Bond Registrar, and, in the case of any lost, stolen or destroyed Bond there shall be first furnished to the Bond Registrar and the City evidence of such loss, theft or destruction and an indemnity satisfactory to them. In the event any such Bond shall have matured, instead of issuing a duplicate Bond, the City and Bond Registrar may pay the same without surrender thereof. The City and Bond Registrar may charge to the registered owner of such Bond their reasonable fees and expenses in connection with replacing such Bond or Bonds mutilated, stolen, lost or destroyed.

20-1,772. Section 209. Execution, Registration and Delivery of the Bonds. Each of the Bonds, including any Bonds issued in exchange or as substitutions for the Bonds initially delivered, shall be signed by the manual or facsimile signature of the Mayor of the City and attested by the manual or facsimile signature of the City Clerk and shall have the corporate seal of the City affixed thereto or imprinted thereon. In case any officer whose signature or facsimile thereof appears on any Bonds shall cease to be such officer before the delivery of the Bonds, such signature or
facsimile thereof shall nevertheless be valid and sufficient for all purposes, the same as if such person had remained in office until delivery. Any Bond may be signed by such persons who at the actual time of the execution of such Bond shall be the proper officers to sign such Bond, although at the date of such Bond such persons may not have been such officers.

The Mayor of the City and the City Clerk are hereby authorized and directed to prepare and execute the Bonds in the manner hereinbefore specified, to cause the Bonds to be registered in the offices of the City Clerk and the State Treasurer as provided by law, and, when duly executed and registered, to deliver the Bonds to the Underwriters, upon receipt by the City of the purchase price of the Bonds, which purchase price shall be 100% of the principal amount of the Bonds plus accrued interest to the date of their delivery plus any premium thereon. The Mayor of the City and the City Clerk are also hereby further authorized to enter into an agreement with a depository trust company to have the executed, authenticated Bonds held in safe keeping prior to their delivery to the Underwriters.

The Bonds shall have endorsed thereon a Certificate of Authentication substantially in the form set forth in Exhibit A attached hereto, which shall be executed by the manual or facsimile signature of the Bond Registrar. No Bond shall be entitled to any security or benefit under the Ordinance nor shall it be valid or obligatory for any purpose unless and until such Certificate of Authentication shall have been duly executed by the Bond Registrar. Such executed Certificate of Authentication upon any Bond shall be conclusive evidence that such Bond has been duly authenticated and delivered under the Ordinance. The Certificate of Authentication on any Bond shall be deemed to have been duly executed if signed by any authorized officer or employee of the Bond Registrar, but it shall not be necessary that the same officer or employee sign the Certificate of Authentication on all of the Bonds that may be issued hereunder at any one time.

ARTICLE III

20-1,773. Section 301. Optional Redemption. At the option of the City, Bonds maturing on September 1, 2000, and thereafter may be called for redemption and payment prior to maturity on September 1, 1999, and on any Interest Payment Date thereafter, in whole or in part in inverse order of maturity at the redemption price of 100% of the principal amount thereof, plus accrued interest thereon to the date fixed for redemption, without premium.
20-1,774. **Section 302. Notice of Redemption.** In the event the City shall elect to redeem and pay any of the Bonds prior to the maturity thereof, the City shall publish once in the *Kansas Register* and in a financial journal published in New York, New York, a notice of the intention of the City to redeem and pay said Bonds, the same being described by number and maturity, said notice in said financial journal to be published not less than 30 days prior to the date on which said Bonds are called for redemption and payment and said notice in the *Kansas Register* to be published not less than 15 days prior to said redemption date. The City shall also give written notice of its intention to redeem and pay said Bonds on a specified date, the same being described by number and maturity, said notice to be mailed by prepaid United States registered or certified mail addressed to the State Treasurer of the State of Kansas and to the Underwriters, said notice to be mailed not less than 45 days prior to the redemption date. The State Treasurer of Kansas will send notice of redemption by ordinary U.S. mail to the registered owners of said Bonds, said notices to be mailed not less than 30 days prior to the date fixed for redemption.

20-1,775. **Section 303. Selection of Bonds to Be Redeemed.** Bonds shall be redeemed only in the principal amount of $5,000 or any integral multiple thereof. When less than all of the outstanding Bonds are to be redeemed and paid prior to maturity, such Bonds shall be redeemed in inverse order of maturity, Bonds of less than a full maturity to be selected by the Paying Agent and Bond Registrar by lot in $5,000 units of face value in such equitable manner as the Paying Agent and Bond Registrar may determine.

In the case of a partial redemption of Bonds by lot when Bonds of denominations greater than $5,000 are then outstanding, then for all purposes in connection with such redemption each $5,000 of face value shall be treated as though it were a separate Bond of the denomination of $5,000. If it is determined that one or more, but not all, of the $5,000 units of face value represented by any fully registered Bond is selected for redemption, then upon notice of intention to redeem such $5,000 unit or units, the owner of such fully registered Bond or the owner's duly authorized agent shall forthwith present and surrender such Bond to the Paying Agent and Bond Registrar (1) for payment of the redemption price (including the interest to the date fixed for redemption) of the $5,000 unit or units of face value called for redemption, and (2) for exchange, without charge to the owner thereof, for a new Bond or Bonds of the aggregate principal amount of the unredeemed portion of the principal amount of such fully registered Bond. If the owner of any such fully registered Bond of a denomination greater than $5,000 shall fail to present such Bond to the Paying
Agent and Bond Registrar for payment and exchange as aforesaid, such Bond shall, nevertheless, become due and payable on the redemption date to the extent of the $5,000 unit or units of face value called for redemption (and to that extent only).

20-1,776. Section 304. Effect of Call for Redemption. Whenever any Bond is called for redemption and payment as provided in this Article, all interest on such Bond shall cease from and after the date for which such call is made, provided funds are available for its payment at the price hereinbefore specified.

ARTICLE IV
FORM OF THE BONDS

20-1,777. Section 401. Form of Bonds. The Bonds shall be printed in accordance with the format required by the Attorney General of the State of Kansas and shall contain information and recitals substantially as set forth in Exhibit A attached hereto or as may be required by the Attorney General pursuant to the Notice of Systems of Registration for Kansas Municipal Bonds, 2 Kan. Reg. 921 (1983) in accordance with the Kansas Bond Registration Law, K.S.A. 10-620 to 10-632, inclusive, as amended.

ARTICLE V
ESTABLISHMENT OF FUNDS

20-1,778. Section 501. Creation of Funds. There are hereby created and ordered to be established in the treasury of the City the following separate funds to be known respectively as follows:

(a) Principal and Interest Fund for the City of Leawood, Kansas General Obligation Improvement Bonds, Series 1991-A (the "Principal and Interest Fund");

(b) Series 1991-A Improvement Construction Fund (the "Construction Fund"); and

(c) Series 1991-A Cost of Issuance Fund (the "Cost of Issuance Fund").

20-1,779. Section 502. Administration of Funds. The funds established pursuant to the authority of Section 501 hereof shall be maintained and administered by the City solely for the purposes and in the manner as provided in this Ordinance so long as any of the Bonds remain outstanding and unpaid.
ARTICLE VI
APPLICATION OF BOND PROCEEDS

20-1,780. Section 601. Disposition of Bond Proceeds and Other Moneys. The proceeds received from the sale of the Bonds, including any premium and accrued interest thereon, shall be deposited simultaneously with the delivery of the Bonds, as follows:

(a) There shall be deposited in the Principal and Interest Fund any premium on the Bonds and any amount received on account of accrued interest on the Bonds.

(b) There shall be deposited in the Cost of Issuance Fund the sum of $83,300.00.

(c) The entire remaining balance of the proceeds shall be deposited in the Construction Fund.

20-1,781. Section 602. Application of Moneys in the Construction Fund. Moneys in the Construction Fund shall be separately accounted for and attributed to each of the individual Improvements and shall be used solely to pay the cost of such Improvements, including the retirement of temporary notes of the City previously issued to provide interim financing for the Improvements, and, in the event funds on deposit in the Cost of Issuance Fund shall be insufficient for the purpose, to pay costs of issuance of the Bonds. Upon completion of the Improvements and payment of all costs thereof, any moneys remaining in the Construction Fund shall be deposited into the Principal and Interest Fund.

20-1,782. Section 603. Application of Moneys in the Cost of Issuance Fund. Moneys in the Cost of Issuance Fund shall be used to pay the cost of issuing the Bonds, including all printing, signing and mailing expenses, legal fees, accounting expenses, fees for ratings received on the Bonds and any fiscal fees incurred in marketing the Bonds. Any moneys remaining in the Cost of Issuance Fund on January 15, 1992, shall be transferred to the Construction Fund.

ARTICLE VII
PAYMENT OF BONDS

20-1,783. Section 701. Levy of Taxes to Pay Bonds. The full faith, credit and resources of the City are hereby pledged to secure the payment of the principal of and interest on the Bonds as they severally become due and payable.
The governing body of the City shall make provision for the payment of said principal and interest on the Bonds by levying and collecting special assessments on property benefited by the Tomahawk Creek Parkway Improvement, and to the extent of the City's portion of the cost of said Improvements and to the extent such special assessments shall not be so collected, by levying and collecting an annual tax on all taxable tangible property within the territorial limits of the City in amounts sufficient to pay the installments of said principal and interest on the Bonds as the same accrue and become payable.

20-1,784. Section 702. Transfer of Funds to Paying Agent. The Treasurer of the City is hereby authorized and directed to withdraw from the Principal and Interest Fund and transfer to the Paying Agent sums sufficient to pay the principal of and interest on the Bonds and the fees of the Paying Agent and Bond Registrar when the same become due. If, through lapse of time or otherwise, the owners of Bonds shall no longer be entitled to enforce payment of their obligations, it shall be the duty of the Paying Agent forthwith to return said funds to the City. All moneys deposited with the Paying Agent shall be deemed to be deposited in accordance with and subject to all of the provisions contained in this Ordinance.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

20-1,785. Section 801. Official Statement. Distribution of the Official Statement relating to the Bonds in substantially the form presented to the governing body of the City and the use thereof by the Underwriters of the Bonds is hereby approved, and the Mayor of the City and the City Clerk are hereby authorized to execute such Official Statement on behalf of the City, with such corrections, omissions, insertions or changes as they may approve.

20-1,786. Section 802. Special Tax Covenants. The City covenants to comply with each and every provision of the Internal Revenue Code of 1986 and the rules and regulations promulgated thereunder (the "Code"), which is or may be applicable to the Bonds or state and local obligations of the same character as the Bonds authorized and issued hereunder; provided, that, the City shall not be required to comply with any such provision if the City shall be provided with an opinion of nationally recognized bond counsel to the effect that such compliance is not required and to the effect that the failure to comply with any such provision will not cause
interest on the Bonds to be subject to federal income taxation.

In particular, the City shall complete the construction of the Improvements that are financed with the proceeds of the Bonds not later than that day which is three years after the earlier of (i) the date of issue of the Bonds or (ii) the date construction of such Improvements began.

The City further covenants and agrees that no portion of the gross proceeds of the Bonds will be used (on a basis different from use by members of the general public of the Improvements) directly or indirectly in any trade or business carried on by any person (including exempt persons) other than the City, any other political subdivision of the State of Kansas or any governmental unit of the State of Kansas, or to make any loan to any such person.

The City will comply with all applicable information reporting requirements of the Code.

20-1,787. Section 803. Arbitrage Covenant. The City covenants and agrees that it will use the proceeds of the Bonds as soon as practicable and with all reasonable dispatch for the purpose for which the Bonds are issued as hereinbefore set forth, and that no part of the proceeds of the Bonds shall be invested in any securities or obligations except for the temporary period pending such use, nor used, at any time, directly or indirectly, in a manner which, if such use had been reasonably anticipated on the date of issuance of the Bonds, would have caused any of the Bonds to be or become "arbitrage bonds" within the meaning of Section 148 of the Code.

The City will abide by any applicable arbitrage rebate requirements of the Code; provided, that, the City shall not be required to abide by any such requirements if the City is provided with an opinion of nationally recognized bond counsel to the effect that such compliance is not required and to the effect that the failure of the City to abide by any such requirements will not cause the interest on the Bonds to be or become subject to federal income taxation.

20-1,788. Section 804. Covenants, Representations and Warranties Regarding Qualified Tax-Exempt Obligations. The governing body hereby finds, determines, represents and warrants, as follows:

(a) Since January 1, 1991, the City has not issued any bonds or obligations other than the Bonds and the following described obligations:

FURTHER TERMS AND CONDITIONS

This Bond is one of an authorized issue of bonds of the City designated "General Obligation Improvement Bonds, Series 1991-A," in the aggregate principal amount of $5,143,000 (the "Bonds") issued for the purpose of providing funds to finance the costs of certain improvements within the City as identified in the Ordinance. The Bonds are issued by the authority of and in full compliance with the provisions, restrictions and limitations of the Constitution and laws of the State of Kansas, including K.S.A. 12-6a01, et seq., and K.S.A. 12-685, et seq., each as amended, and all other provisions of the laws of the State of Kansas applicable thereto.

Bonds of the series of which this Bond is a part becoming due on September 1, 2000, and thereafter may be redeemed and paid prior to maturity, at the option of the City as a whole or in part, in inverse order of maturity (selection of Bonds within the same maturity to be by lot by the Paying Agent and Bond Registrar in such equitable manner as it may determine) on September 1, 1999, or on any Interest Payment Date thereafter, at the redemption price of 100% of the principal amount thereof, plus accrued interest thereon to the date fixed for redemption, without premium.

Whenever Bonds are to be selected for the purpose of redemption, the Paying Agent and Bond Registrar shall, in the case of Bonds in denominations greater than $5,000, if less than all of the Bonds then outstanding are to be called for redemption, treat each $5,000 of face value of each such
fully registered Bond as though it were a separate Bond of the denomination of $5,000.

If any Bonds are called for redemption and payment prior to maturity, the City shall publish once in the Kansas Register and in a financial journal published in New York, New York, a notice of the intention of the City to redeem and pay said Bonds, the same being described by number and maturity. The notice in said financial journal shall be published not less than 30 days prior to the date on which said Bonds are called for redemption and payment and the notice in the Kansas Register shall be published not less than 15 days prior to said redemption date. The City will also give written notice of its intention to redeem and pay such Bonds on a specified date, the same being described by number and maturity, said notice to be mailed by prepaid United States registered or certified mail addressed to the State Treasurer of Kansas and the Underwriters of the Bonds, said notice to be mailed not less than 45 days prior to the redemption date. The State Treasurer will send notice of redemption by ordinary mail to the registered owners of said Bonds, said notices to be mailed not less than 30 days prior to the date fixed for redemption. All Bonds so called for redemption and payment as aforesaid shall cease to bear interest from and after the date for which such call is made, provided funds are available for the payment of such Bonds at the price hereinbefore specified.

The Bonds are issued in fully registered form in the denomination of $5,000 or any integral multiple thereof, except that one Bond of the first maturity shall be issued in the denomination of $8,000. This Bond may be exchanged at the office of the Bond Registrar for a like aggregate principal amount of Bonds of the same maturity of other authorized denominations upon the terms provided in the Ordinance.

The City and the Bond Registrar may deem and treat the registered owner hereof as the absolute owner hereof for purposes of receiving payment of or on account of principal hereof and interest due hereon and for all other purposes and neither the City nor the Bond Registrar shall be affected by any notice to the contrary.

This Bond is transferable by the registered owner hereof in person or by the registered owner's agent duly authorized in writing, at the office of the Bond Registrar, but only in the manner, subject to the limitations and upon payment of the charges provided in the Ordinance and upon surrender and cancellation of this Bond. The City shall pay out of the proceeds of the Bonds all costs incurred in connection with
the issuance, payment and initial registration of the Bonds and the cost of a reasonable supply of bond blanks.

(B) The Easement Property consist of two narrow parcels of ground approximately seventeen feet in width which are adjacent to (i) the public street known as "Overbrook" (which street is dedicated on the plat of Hallbrook Farms Clubhouse, a subdivision located in Leawood, Johnson County, Kansas) and (ii) certain property presently owned by William Reinsch Davis (the Davis Property") and Fern Stultz (Stultz Property) and more particularly described on Exhibit B attached hereto and made a part hereof by this reference.

(D) The location of any future private drives or public street serving the Davis or Stultz property will of necessity be constructed from Overbrook to the Davis or Stultz property over a portion or portions of the property which is the subject of this easement agreement and which is described in Exhibit A.

(C) Grantor has agreed to as a part of and in consideration of plat approval of Hallbrook Farms Clubhouse to grant an easement to the City, said easement to be used by the City at a future date subject to the limitations of this agreement.

NOW, THEREFORE, in consideration of the covenants herein contained and for other good and valuable consideration, the receipt and legal sufficiency of which are hereby acknowledged, the parties agree as follows:

1. That for the consideration expressed, the undersigned, called Grantor, grants and conveys to the City of Leawood, its successors and assigns, an easement
for the purpose of constructing and maintaining a public street and/or private drive(s) from Overbrook to the Davis or Stultz Property, said street or drives to be constructed and maintained on the lands described in Exhibit A, attached hereto and incorporated by reference. This easement is granted upon the following conditions:

Any public street or private drives constructed or permitted by the City will be designed and constructed in accordance with the Leawood Public Improvement Construction Standards.

5. If at a future date the Grantor shall become the owner of the property described in Exhibit B as well as the property which is subject to this easement, then this easement will terminate.

6. If at a future date the Grantor agrees to dedicate permanent right of way over the property subject to this easement at a location acceptable to the city, then this easement will terminate on acceptance of the dedication of said right of way by the City.

7. Until such date as the City shall construct or permit construction of a public street or private drives over the subject property the Grantor will assume all responsibility for maintenance of the property described in Exhibit B. At such time as the city shall construct or permit construction of a public street or private drives the city or its assignee(s) will assume responsibility for maintenance of any street constructed over the property described in Exhibit A. In the event that it is determined that private drives should be constructed over the property subject to this easement then the City may assign this easement upon the agreement of the assignee to assume responsibility for maintenance of any private drives constructed over the property.

AN ORDINANCE AMENDING SECTION 3-15 (FLOOD HAZARD OVERLAY DISTRICT) OF THE LEAWOOD DEVELOPMENT ORDINANCE.

Be it ordained by the Governing Body of the City of Leawood:

Section 1. Leawood Development Ordinance Amended. That Section 3-15 of the Leawood Development Ordinance is hereby amended to read as follows:

3-15 FL FLOOD HAZARD OVERLAY DISTRICT

3-15.1 STATUTORY AUTHORIZATION, FINDINGS OF FACT AND PURPOSES

A. Statutory Authorization: The Legislature of the State of Kansas has in K.S.A. 12-701 et seq. delegated the responsibility to local governmental units to adopt zoning regulations designed to protect the health, safety, and general welfare. Therefore, the Governing Body of the City of Leawood, Kansas ordains as follows.

B. Findings of Fact:

1) Flood Losses Resulting from Periodic Inundation. The flood hazard areas of the City of Leawood, Kansas are subject to inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.

2) General Causes of these Flood Losses. These flood losses are caused by (1) The cumulative effect of obstruction in floodways causing increases in flood heights and velocities, (2) The occupancy of flood hazard areas by uses vulnerable to floods or hazardous to others, which are inadequately elevated or otherwise unprotected from flood damages.

3) Methods Used to Analyze Flood Hazards. This ordinance uses a reasonable method of analyzing flood hazards which consists of a series of interrelated steps.

(a) Selection of regulatory flood which is based upon engineering calculations which permit a consideration of such flood factors as its expected frequency of occurrence, the area inundated, and the depth of inundation. The regulatory flood selected for this ordinance is representative of large floods which are reasonably characteristic of what can be expected to occur on the particular streams.
subject to this ordinance. It is in the general order of a flood which could be expected to have a one percent (1%) chance of occurrence in any one year, as delineated on the Federal Insurance Administration's Flood Insurance Study, and illustrative materials of the most recent date, as amended, and any future revisions thereto.

(b) Calculation of water surface profiles based on a hydraulic engineering analysis of the capacity of the stream channel and over-bank areas to convey the regulatory flood.

(c) Computation of the floodway required to convey this flood without increasing flood heights more than 1 foot at any point.

(d) Delineation of floodway encroachment lines within which no obstruction is permitted which would cause any increase in flood height.

(e) Delineation of floodway fringe, i.e., that area outside the floodway encroachment lines but which still is subject to inundation by the regulatory flood.

C. Statement of Purpose. It is the purpose of this ordinance to promote the public health, safety, and general welfare and to minimize those losses described in Section 3-15.1 B(1) by applying the provisions of this ordinance to:

1) Restrict or prohibit uses which are dangerous to health, safety, or property in times of flooding or cause undue increases in flood heights or velocities.

2) Require that uses vulnerable to floods, including public facilities which serve such uses, be provided with flood protection at the time of initial construction.

3) Provide information to individuals buying lands which are unsuited for intended purposes because of flood hazard.

4) Assure that eligibility is maintained for property owners in the community to purchase flood insurance in the National Flood Insurance Program.

3-15.2 GENERAL PROVISIONS

A. Lands to which Ordinance Applies. This ordinance shall apply to all lands within the jurisdiction of the City of Leawood, Kansas, identified on the Flood Insurance Rate Map (FIRM) as numbered and unnumbered A Zones
(including AE, A0, and AH Zones) and within the Zoning Districts FW and FF established in Section 3-15.4 of this ordinance. In all areas covered by this ordinance, no development shall be permitted except upon a permit to develop granted by the Governing Body or its duly designated representative under such safeguards and restriction as the Governing Body or the designated representative may reasonably impose for the promotion and maintenance of the general welfare, health of the inhabitants of the community and where specifically noted in Sections 3-15.5 and 3-15.7.

B. The Enforcement Officer. The Director of Planning and Development of the City is hereby designated as the Governing Body's duly designated Enforcement Officer under this ordinance.

C. Rules for Interpretation of District Boundaries. The boundaries of the floodway and floodway fringe overlay districts shall be determined by scaling distances on the official zoning map or on the Flood Insurance Rate Map or Floodway Map. Where interpretation is needed to the exact location of the boundaries of the districts as shown on the official zoning may, as for example where there appears to be a conflict between a mapped boundary and actual field conditions, the Director of Planning and Development shall make the necessary interpretation. In such cases where the interpretation is contested, the Board of Zoning Appeals will resolve the dispute. The regulatory flood elevation for the point in question shall be the governing factor in locating the district boundary on the land. The person contesting the location of the district boundary shall be given a reasonable opportunity to present his case to the Board and to submit his own technical evidence, if he so desires.

D. Compliance. No development located within known flood hazard areas of this City shall be located, extended, converted or structurally altered without full compliance with the terms of this ordinance and other applicable regulations.

E. Abrogation and Greater Restrictions. It is not intended by this ordinance to repeal, abrogate or impair any existent easements, covenants, or deed restrictions. However, where this ordinance imposes greater restrictions, the provision of this ordinance shall prevail. All other ordinances inconsistent with this ordinance are hereby repealed to the extent of the inconsistency only.

F. Interpretation. In their interpretation and application, the provisions of this ordinance shall be held to be minimum requirements and shall be liberally construed in favor of the Governing Body and shall not be deemed a limitation or repeal of any other powers.
granted by state statutes.

G. Warning and Disclaimer of Liability. The degree of flood protection required by this ordinance is considered reasonable for regulatory purposes and is based on engineering and scientific methods of study. Larger floods may occur on rare occasions or the flood height may be increased by man made or natural causes, such as ice jams and bridge openings restricted by debris. This ordinance does not imply that areas outside floodway and floodway fringe district boundaries or land uses permitted within such districts will be free from flooding or flood damage. This ordinance shall not create liability on the part of the City of Leawood, Kansas, or any officer or employee thereof for any flood damages that may result from reliance on this ordinance or any administrative decision lawfully made thereunder.

H. Severability. If any section, clause, provision or portion of this ordinance is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this ordinance shall not be affected thereby.

I. Appeal. Where a request for a permit to develop or a variance is denied by the Director of Planning and Development, the applicant may apply for such permit or variance directly to the Board of Zoning Appeals.

3-15.3 DEVELOPMENT PERMIT

A. Permit Required. No person, firm or corporation shall initiate any development or substantial improvement or cause the same to be done without first obtaining a separate permit for development as defined in Section 3-4.4.12 of this ordinance.

B. Administration.

1) The Director of Planning and Development is hereby appointed to administer and implement the provisions of this ordinance.

2) Duties of the Director of Planning and Development shall include, but not be limited to:

   a) Review all development permits to assure that sites are reasonably safe from flooding and that the permit requirements of this ordinance have been satisfied.

   b) Review permits for proposed development to assure that all necessary permits have been obtained from those Federal, state or local governmental agencies from which prior approval is required.
c) Notify adjacent communities and the State Coordinating Office prior to any alteration or relocation of a watercourse, and submit evidence of such notification to the Federal Emergency Management Agency.

d) Assure that maintenance is provided within the altered or relocated portion of said watercourse so that the flood carrying capacity is not diminished.

e) Verify, record and maintain record of the actual elevation (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures.

f) Verify, record and maintain record of the actual elevation (in relation to mean sea level) to which the new or substantially improved structures have been floodproofed.

g) When floodproofing is utilized for a particular structure, the Director of Planning and Development shall be presented certification from a registered professional engineer or architect.

C. Application for Permit. To obtain a permit, the applicant shall first file an application in writing on a form furnished for that purpose. Every such application shall:

1) Identify and describe the work to be covered by the permit.

2) Describe the land on which the proposed work is to be done by lot, block, tract and house and street address, or similar description that will readily identify and definitely locate that proposed building or work.

3) Indicate the use or occupancy for which the proposed work is intended.

4) Be accompanied by plans and specifications for proposed construction.

5) Be signed by the permittee or his authorized agent who may be required to submit evidence to indicate such authority.

6) Give such other information as reasonably may be required by the Director of Planning and Development.

3-15.4 ESTABLISHMENT OF ZONING DISTRICTS

The mapped flood plain areas within the jurisdiction of this
ordinance are hereby divided into the two following districts: a floodway overlay district (FW) and a floodway fringe overlay district (FF) identified in the Flood Insurance Study [and accompanying map(s)]. Within these districts, all uses not meeting the standards of this ordinance district shall be prohibited. These zones shall be consistent with the numbered and unnumbered A Zones (including AE, AO and AH zones) as identified on the official FIRM and identified in the Flood Insurance Study provided by the Federal Emergency Management Agency.

3-15.5 STANDARDS FOR THE FLOODWAY OVERLAY DISTRICT AND THE FLOODWAY FRINGE OVERLAY DISTRICT.

A. No permit for development shall be granted for new construction, substantial improvements and other improvements within all numbered and unnumbered A zones (including AE, AO, and AH zones) unless the conditions of the section are satisfied.

B. All areas identified as unnumbered A zones on the FIRM are subject to inundation of the 100-year flood*; however, the water surface elevation was not provided. The unnumbered A zones shall be subject to all development provisions of this ordinance. If Flood Insurance Study data is not available, the community shall utilize any base flood elevation or floodway data currently available from Federal, state or other sources. (Note: * A "100 year flood" does not refer to a flood that occurs every 100 years, but refers to a flood level with a 1 percent or greater chance of being equalled or exceeded in any given year.)

C. New construction, subdivision proposals, substantial improvements and other developments shall require:

1. Design or anchorage to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.

2. New or replacement water supply systems and/or sanitary sewage systems be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and on-site waste disposal systems be located so as to avoid impairment or contamination.

3. Construction with materials resistant to flood damage, utilizing methods and practices that minimize flood damages, and with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.
4. All utility and sanitary facilities be elevated or floodproofed up to the regulatory flood protection elevation.

5. That until a floodway has been designated, no development may be permitted within Zones AI-30 and AE on the city’s FIRM unless the applicant for the land use has demonstrated that the proposed use, when combined with all other existing and reasonably anticipated uses, will not increase the water surface elevation of the 100-year flood* more than 1 foot on the average cross section of the reach in which the development or landfill is located as shown on the Flood Insurance Rate Study incorporated by reference: Section 3-15.1 B(3)(a) of this ordinance. *(Note: * A "100 year flood" does not refer to a flood that occurs every 100 years, but refers to a flood level with a 1 percent or greater change of being equalled or exceeded in any given year.)*

   a) The storage or processing of materials that are in time of flooding buoyant, flammable, explosive, or could be injurious to human, animal or plant life is prohibited.

   b) Storage of other material or equipment may be allowed if not subject to major damage by floods and firmly anchored to prevent flotation or if the readily removable from the area within the time available after flood warning.

7. Subdivision proposals and other proposed new development be required to assure that (a) all such proposals are consistent with the need to minimize flood damage, (b) all public utilities and facilities, such as sewer, gas, electrical, and water systems are located, elevated and constructed to minimize or eliminate flood damage, (c) adequate drainage is provided so as to reduce exposure to flood hazards, and (d) proposals for development of five (5) acres or fifty (50) lots, whichever is lesser, include within such proposals the regulatory flood elevation.

3-15.6 FLOODWAY FRINGE OVERLAY DISTRICT. (Including AO and AH Zones)

   A. Permitted Uses. Any use permitted in Section 3-15.7 shall be permitted in the Floodway Fringe Overlay District. No use shall be permitted in the district unless the standards of Section 3-15.5 are met.

   B. Standards for the Floodway Fringe Overlay District.
1. Require new construction or substantial improvements of residential structures to have the lowest floor, including basement, elevated to or above the base flood elevation.

2. Require new construction or substantial improvements of nonresidential structures to have the lowest floor, including basement, elevated to or above the base flood elevation or, together with attendant utility and sanitary facilities, to be floodproofed so that below such a level the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. A registered professional engineer or architect shall certify that the standards of this subsection are satisfied. Such certification shall be provided to the official as set forth in Section 3-15.3 B(2)(g) of this ordinance.

3. Require for all new construction and substantial improvements that fully enclosed areas below the lowest floor that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or meet or exceed the following minimum criteria: A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot above grade. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

4. Within AH zones adequate drainage paths around structures on slopes shall be required in order to guide floodwaters around and away from proposed structures.

5. Located within the areas of special flood hazard established in Section 3-15.2A are areas designed as AO Zones. These areas have special flood hazards associated with base flood depths of 1 to 3 feet where a clearly defined channel does not exist and where the path of flooding is unpredictable and indeterminate; therefore, the following provisions apply within AO Zones;

   a) All new construction and substantial improvements of residential structures have the lowest floor (including basement) elevated above the highest adjacent grade at least as high as the
depth number specified in feet on the community's FIRM (at least 2 feet if no depth number is specified).

b) All new construction and substantial improvements of nonresidential structures shall:

1) Have the lowest floor (including basement) elevated above the highest adjacent grade at least as high as the depth number specified in feet on the community's FIRM (at least 2 feet if no depth number is specified), or

2) Together with attendant utility and sanitary facilities be completely floodproofed to or above that level so that any space below that level is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. Such classification shall be provided to the official as set forth in Section 3-15.3 B(2)(g) of this ordinance.

c) Adequate drainage paths around structures on slopes shall be required in order to guide floodwaters around and away from proposed structures.

3-15.7 FLOODWAY OVERLAY DISTRICT

A. Permitted Uses. Only uses having a low flood-damage potential and not obstructing flood flows shall be permitted within the Floodway District to the extent that they are not prohibited by any other ordinance. All encroachments, including fill, new construction, substantial improvements and other developments must be prohibited unless certification by a professional registered engineer or architect is provided demonstrating that encroachments shall not result in any increase in flood levels during occurrence of the base flood discharge. No use shall increase the flood levels of the regulatory flood elevation. These uses are subject to the standards of Sections 3-15.5 and 3-15.6. The following are recommended uses for the Floodway District.

1) Agricultural uses such as general farming, pasture, nurseries, forestry.

2) Residential uses such as lawns, gardens, parking and play areas.

3) Nonresidential areas such as loading areas, parking, airport landing strips.
4) Public and private recreational uses such as golf courses, archery ranges, picnic grounds, parks, wildlife and nature preserves.

5) In Zone A unnumbered, obtain, review and reasonably utilize any floodway data available through Federal, State or other sources or Section 3-15.5 C(7)(d) of this ordinance, in meeting the standards of this section.

**3-15.8 CITY FLOOD HAZARD OVERLAY DISTRICT**

A. This section provides for the establishment of a city flood hazard overlay district. This district will include those areas subject to periodic inundation by 100 year flood but are not delineated on the most recent maps prepared by the Federal Insurance Administration.

B. Generally, residential structures in this area shall have the lowest floor (including basement) elevated at least one foot above the flood hazard elevation. If this entirely precludes the development of the lot the Director of Planning and Development shall decide another form of mitigation.

C. Structures having a use other than residential shall, in general, be held to the same criteria as otherwise provided in this ordinance. The enforcement of this section shall depend upon the determination of the Director of Planning and Development.

**3-15.9 VARIANCE PROCEDURES**

A. The Board of Zoning Appeals as established by the City of Leawood shall hear and decide appeals and requests for variances from the requirements of this ordinance.

B. The Board of Zoning Appeals shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Director of Planning and Development in the enforcement or administration of this ordinance.

C. Any person aggrieved by the decision of the Board of Zoning Appeals or any taxpayer may appeal such decision to the District Court of Johnson County, Kansas, as provided in K.S.A. 12-715.

D. In passing upon such applications, the Board of Zoning Appeals shall consider all technical evaluation, all relevant factors, standards specified in other sections of this ordinance, and:

1) The danger that materials may be swept onto other lands to the injury of others;

2) The danger to life and property due to flooding or
erosion damage;

3) The susceptibility of proposed facility and its contents to flood damage and the effect of such damage on the individual owner;

4) The importance of the services provided by the proposed facility to the community;

5) The necessity to the facility of a waterfront location, where applicable;

6) The availability of alternative locations, not subject to flooding or erosion damage, for the proposed use;

7) The compatibility of the proposed use with existing and anticipated development;

8) The relationship of the proposed use to the comprehensive plan and flood plain management program for that area;

9) The safety of access to the property in times of flood for ordinary and emergency vehicles;

10) The expected heights, velocity, duration, rate of rise and sediment transport of the flood waters and the effects of wave action, if applicable, expected at the site; and,

11) The costs of providing governmental services during and after flood conditions including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems, and streets and bridges.

E. Conditions for Variances.

1) Generally, variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing items 3-15.8E(2) through 3-15.8E(6) below having been fully considered. As the lot size increases beyond the one-half acre, the technical justification required for issuing the variance increases.

2) Variances may be issued for the reconstruction, rehabilitation or restoration of structures listed on the National Register of Historic Places or the State Inventory of Historic Places, without regard to the procedures set forth in the remainder of this section.

3) Variances shall not be issued within any designated
floodway if any increase in flood levels during the base flood discharge would result.

4) Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

5) Variances shall only be issued upon (i) a showing of good and sufficient cause, (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant, and (iii) a determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.

6) Any applicant to whom a variance is granted shall be given a written notice that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest flood elevation.

3-15.10 NONCONFORMING USE

A. A structure or the use of a structure or premises which was lawful before the passage or amendment of the ordinance but which is not in conformity with the provisions of this ordinance may be continued subject to the following conditions:

1) If such use is discontinued for 12 consecutive months, any future use of the building premises shall conform to this ordinance. The Utility Companies shall notify the Director of Planning and Development in writing of instances of nonconforming uses where utility services have been discontinued for a period of 12 months.

2) Uses or adjuncts thereof which are or become nuisances shall not be entitled to continue as nonconforming uses.

B. If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than 50% of the market value of the structure before the damage occurred except that if it is reconstructed in conformity with the provisions of this ordinance. This limitation does not include the cost of any alteration to comply with existing state or local health, sanitary, building, or safety codes or regulations or the cost of any alteration of a structure listed on the National Register of Historic Places or a State Inventory of Historic Places.
3-15.11 PENALTIES FOR VIOLATION.

Any person or other entity who violates this article shall be subject to the penalties provided in Article 5 of this ordinance.

3-15.12 AMENDMENTS.

The regulations, restrictions, and boundaries set forth in this ordinance may from time to time be amended, supplemented, changed, or repealed to reflect any and all changes in the National Flood Disaster Protection Act of 1973, provided, however, that no such action may be taken until after a public hearing in relation thereto, at which parties in interest and citizens shall have an opportunity to be heard. Notice of the time and place of such hearing shall be published in a newspaper of general circulation in the City of Leawood, Kansas. At least 20 days shall elapse between the date of this publication and the public hearing. A copy of such amendments will be provided to the Federal Emergency Management Agency. The regulations of this ordinance are in compliance with the National Flood Insurance Program Regulations.

3-15.13 DEFINITIONS.

Unless specifically defined below, words or phrases used in this ordinance shall be interpreted so as to give them the meaning they have in common usage and to give this ordinance its most reasonable application.

"Actuarial or Risk Premium Rates" mean those rates established by the Administrator pursuant to individual community studies and investigations which are undertaken to provide flood insurance in accordance with Section 1307 of the Act and the accepted actuarial principles. "Risk premium rates" include provisions for operating costs and allowances.

"Appeal" means a request for a review of the Chief Director of Planning and Development's interpretation of any provision of this ordinance or a request for a variance.

"Area of shallow flooding" means a designated AO or AH zone on a community's Flood Insurance Rate Map (FIRM) with a one percent or greater annual chance or flooding to an average depth of one to three feet where a clearly defined channel is unpredictable and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

"Area of special flood hazard" is the land in the flood plain within a community subject to one percent or greater chance of flooding in any given year.

"Base flood" means the flood having one percent chance of being equalled or exceeded in any given year.

"City flood hazard overlay district" means areas that are subject to periodic inundation by 100 year flood waters but are not delineated on the most current maps available from the Federal Insurance Administration.
"Development" means any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.

"Existing construction" means (for the purposes of determining rates) structures for which the "start of construction" commenced before the effective date of the FIRM or before January 1, 1975, for FIRMs effective before that date.

"Existing construction" may also be referred to as "existing structures."

"Flood" or "flooding" means a general and temporary condition of partial or complete inundation of normally dry land areas from:

- The overflow of inland or tidal waters.
- The unusual and rapid accumulation of runoff of surface waters from any source.

"Flood Insurance Rate Map" (FIRM) means an official map of a community, on which the Flood Insurance Study has delineated the Flood Hazard Boundaries and the zones establishing insurance rates applicable to the community.

"Flood Insurance Study" is the official report provided by the Federal Emergency Management Agency. The report contains flood profiles, as well as the Flood Boundary Floodway Map and the water surface elevation of the base flood.

"Floodway" or "Regulatory Floodway" means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot.

"Floodway Fringe" is that area of the flood plain, outside of the floodway, that on the average is likely to be flooded once every 100 years (i.e., that has a one percent chance of flood occurrence in any one year).

"Freeboard" means a factor of safety usually expressed in feet above a flood level for purposes of flood plain management. "Freeboard" tends to compensate for the many unknown factors that could contribute to flood heights greater than the height calculated for a selected size flood and floodway conditions, such as wave action, clogged bridge openings, and the hydrological effect of urbanization of the watershed.

"Highest adjacent grade" means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

"New Construction" means structures for which the "start of construction or substantial improvement is commenced on or after the effective date of the FIRM.
"Overlay District" is a district in which additional requirements act in conjunction with the underlying zoning district(s). The original zoning district designation does not change.

"Start of Construction" (for other than new construction or substantial improvements under the Coastal Barrier Resources Act Pub. L. 97-348 includes substantial improvement and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, placement, or other improvement was within 180 days of the permit date. The actual start means the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure.

"Structure" means a walled and roofed building that is principally above ground and a gas or liquid storage tank that is principally above ground.

"Substantial damage" means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

"Substantial improvement" means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the "start of construction" of the improvement. This term includes structures which have incurred "substantial damage", regardless of the actual repair work performed. The term does not, however, include either (1) any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions or (2) any alteration of a "historic structure", provided that the alteration will not preclude the structure's continued designation as a "historic structure".

"Variance" is a grant of relief to a person from the requirements of this ordinance which permits construction in a manner otherwise prohibited by this ordinance where specific enforcement would result in unnecessary hardship.

Section 2. Existing Section Repealed. That existing Section 3-15 of the Leawood Development Ordinance is hereby repealed.
Section 3. Take Effect. That this ordinance shall take effect and be in force from and after its publication in the official City newspaper.

Passed by the Council the 8th day of October, 1991.

Approved by the Mayor the 8th day of October, 1991.

Ord. 1249
ORD. 1249
ORDINANCE NO. 1249
Filing in The Legal Record, Tuesday, October 15, 1991.

AN AMENDING SECTION 3-15 (FLOOD HAZARD OVERLAY DISTRICT) OF THE LEWAS Development Ordinance.

Be it ordained by the Governing Body of the City of Lewas:

Section 3-15. LeWas Development Ordinance Amended. That Section 3-15 of the LeWas Development Ordinance is hereby amended to read as follows:

1-16 FL FLOOD HAZARD OVERLAY DISTRICT

2-16.1 STATUTORY AUTHORITY, FINDINGS OF FACT AND PURPOSES

A. General Authority. The Legislature of the State of Kansas in KAN. 31-1701 et seq., delegated the responsibility to local governmental units to adopt zoning regulations designed to protect the health, safety, and general welfare. Therefore, the Governing Body of the City of LeWas, Kansas ordains as follows.

B. Findings of Fact:

1) Flood Losses Resulting from Periodic Inundation. The flood hazard areas of the City of LeWas, Kansas are subject to inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base. This places a burden on which adversely affect the public health, safety and general welfare.

2) General Causes of these Flood Losses. These flood losses are caused by (1) the cumulative effect of observational mistakes, meteorologically-caused increases in flood heights and velocities, (2) the occupancy of flood hazard areas by uses vulnerable to floods or hazardous to others, which are inadequately elevated or otherwise unprotected from flood damages.

3) Methods Used to Analyze Flood Hazards. This ordinance uses a reasonable method of analyzing flood hazards which consists of a series of interrelated steps.

(a) Selection of regulatory flood which is based upon engineering calculations which permit a consideration of such flood factors as its expected frequency of occurrence, the area inundated, and the depth of inundation. The regulatory flood selected for this ordinance is representative of large floods which are reasonably characteristic of what can be expected to occur on the particular streams subject to this ordinance. It is the general order of a flood which could be expected to have a one percent chance of occurrence in any one year, as delineated on the Federal Insurance Administration's Flood Insurance Study, and illustrative materials of the most recent date, as amended, and any future revisions thereof.

(b) Determination of water surfaces profiles based on a hydraulic engineering analysis of the capacity of the stream channel and over-bank flood height in the regulatory flood.

(c) Determination of the floodway required to convey the flood without exceeding flood heights more than 1 foot at any point.

(d) Delemination of floodway encroachment lines within which no obstruction is permitted which would cause any increase in flood height.

(e) Delemination of floodway fringes, i.e., those areas outside the floodway encroachment lines but which are subject to inundation by the regulatory flood.

C. Statement of Purpose. It is the purpose of this ordinance to promote the public health, safety, and general welfare and to implement the purposes of Section 3-15.1 by applying the provisions of this ordinance to:

1) Require that uses vulnerable to floods, including publicly-owned facilities which are subject to flood protection at the time of initial construction, shall be

2) Provide information to individuals buying lands which are unsuitable for intended purposes because of flood hazard.

3) Assure that eligibility is maintained for property owners to sell their property in the national flood insurance program.

2-16.2 GENERAL PROVISIONS

A. Lands to Which Ordinance Applies. This ordinance shall apply to all lands within the jurisdiction of the City of LeWas, Kansas, identified on the Federal Flood Insurance Rate Maps (including AE, AO, and AH Zones) and within the Zoning Districts as established in Section 3-15.4 of this ordinance. In all areas covered by this ordinance, no development shall be permitted except upon a permit to develop as issued by the Director of Planning and Development. No development shall be permitted which adversely affects the public health, safety, and general welfare. Therefore, the Governing Body of the City of LeWas, Kansas ordains as follows.

B. The Enforcement Officer. The Director of Planning and Development of the City of LeWas, Kansas shall be the designated enforcement officer under this ordinance.

C. Rules for Interpretation of District Boundaries. The boundaries of the floodway and floodplain fringe overlay districts shall be determined by scaling the standards of the official zoning map or on the Flood Insurance Rate Map. Where inconsistencies exist, the direct boundaries of the expressions of the official zoning map or the Flood Insurance Rate Map shall have priority. Where inconsistencies exist, the Director of Planning and Development shall order the necessary interpretation. In such cases where the interpretation is contested, the Board of Zoning Appeals will resolve the dispute. The regulations and standards for the jurisdictional boundaries shall be the governing factor in locating the district boundary. Where inconsistencies exist, the development of the jurisdictional boundary shall be given a reasonable opportunity to present his case to the Board and to submit his own technical evidence, if he so desires.

D. Compliance. No development located within known flood hazard areas of this city shall be located, extended, converted, or otherwise modified with floodway, floodplain, or floodway fringe widths inconsistent with the terms of this ordinance and other codes and regulations.

E. Erosion and Washout Restrictions. It is not intended by this ordinance to regulate, control or modify any existing easements, covenants, or deed restrictions. However, the Director of Planning and Development and the Governing Body may impose greater restrictions, the provision of this ordinance shall prevail. No other ordinances inconsistent with this ordinance are hereby repealed to the extent of inconsistency only.

F. Interpretation and Application. The provisions of this ordinance shall be held to be minimum requirements and shall be liberally construed to favor the Governing Body of the City and shall not be deemed a denial of any right or appeal of any other power granted by state statute.

G. Variations and Disclaimer of Liability. The degree of flood protection required by this ordinance is considered reasonable for the intended purposes and is based upon engineering and scientific methods of study. Larger floods may occur in rare occasions or the flood heights may be increased by man-made or natural causes, such as ice jams and bridge openings restricted by debris. This ordinance does not imply that areas outside floodway and floodplain fringe districts boundaries or land uses do not require construction or flood damages will be free from flooding or flood damages. This ordinance shall not create liability on the part of the City of LeWas, Kansas, or any officer or employee thereof for flood damages that may result from reliance on this ordinance or for any act or omission thereof. No liability is hereby made.

H. Enforceability. If any section, clause, provision or portion of this ordinance is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this ordinance shall not be affected thereby.

I. Appeal. Where a request for a permit to develop or a variance is denied by the Director of Planning and Development and the applicant so requests, an appeal may apply for such permit or variance directly to the Board of Zoning Appeals.
ORD. 1249

B. Administration.

1. The Director of Planning and Development is hereby appointed to administer and implement the provisions of this ordinance.

2. Duties of the Director of Planning and Development shall include, but not be limited to:
   a) Review all development permits to assure that sites are properly zoned and that the permit requirements of this ordinance have been satisfied.
   b) Review permits for proposed development to assure that all necessary permits have been obtained from those governmental agencies from which prior approval is required.
   c) Notify adjacent communities and the State Coordinating Office prior to any alteration or removal of flood control facilities or issuance of a permit to construct or alter a new or substantially improved structure.
   d) Assure that maintenance is provided within the altered or relocated portion of said watercourse so that the flood carrying capacity is not diminished.
   e) Verify, record and maintain record of the actual elevation (in relation to mean sea level) of the lowest floor level (including all walkout basements) of all new or substantially improved structures.
   f) Verify, record and maintain record of the actual elevation (in relation to mean sea level) to which the new or substantially improved structures have been floodproofed.
   g) When floodproofing is utilized for a particular structure, the Director of Planning and Development shall be notified and provide certification to registered professional engineer or architect.

C. Application for Permit. To obtain a permit, the applicant shall first file an application in writing on a form furnished for that purpose. Every such application shall:
   1) Identify and describe the work to be covered by the permit.
   2) Describe the land on which the proposed work is to be done by lot, block, tract and house and street address, including that portion of the property to which the described structure will be attached.
   3) Identify and designate the location of the proposed building or work.
   4) Indicate the use or occupancy for which the proposed work is intended.
   5) Be accompanied by plans and specifications for proposed construction.
   6) Be signed by the permittee or his authorized agent who may be required to submit evidence to indicate such authority.
   7) Give such other information as reasonably may be required by the Director of Planning and Development.

2-15.6 ESTABLISHMENT OF ZONING DISTRICTS

The mapped flood plain areas within the jurisdiction of this ordinance are hereby divided into the following districts: a Floodway fringe overlay district and a Floodway fringe floodway district (FF) identified in the Flood Insurance Study report (and accompanying maps). Within these districts, all uses not meeting the standards of this ordinance district shall be prohibited. These zones shall be designated as unnumbered A zones (including AE, AO, and AH zones) as identified on the official FIRM and identified in the Flood Insurance Study report. All other floodplain districts are defined by the Federal Emergency Management Agency.

2-15.6 STANDARDS FOR THE FLOODWAY FRINGE DISTRICT AND THE FLOODWAY FRINGE OVERLAY DISTRICT.

A. No permit for development shall be granted for new construction, substantial improvements and other improvements in all numbered and unnumbered A zones (including AE, AO, and AH zones) unless the conditions of the section are satisfied.

B. All areas identified as unnumbered A zones on the FIRM are subject to inodation of the 100-year flood; however, the listed as floodprone districts and areas from floodway floodway data is not available from other sources. (Note: A "100 year flood" does not refer to a flood that occurs every 100 years, but refers to a flood level with a 1 percent chance of being exceeded in any given year.)

C. New construction, subdivision proposals, substantial improvements and other developments shall require:
   1. Design or anchorage to prevent flotation, collapse or lateral movement of the structure resulting from hydropneumatic and hydrostatic loads, including the effects of buoyancy.
   2. New or replacement water supply systems and sanitation systems be designed to minimize or eliminate the disposal of surface waters into the systems and discharges from the systems into flood waters, and on-site waste disposal systems be located as to avoid impairment or contamination.
   3. Construction with materials resistant to flood damage utilizing methods and procedures that minimize flood damage, and with electrical, heating, ventilation, plumbing, and sanitary equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.
   4. All utility and sanitary facilities be elevated or floodproofed up to the regulatory flood protection elevation.
   5. That until a Floodway has been designated, no development may be permitted within Zones AI-30 and AE on the city's FIRM unless the applicable Federal Emergency Management Agency has demonstrated that the proposed use, when combined with all other existing and reasonably anticipated uses, will not increase the 100-year flood elevation of the area by more than 1 foot on the average cross section of the reach in which the development is located as shown on the Flood Insurance Rate Study incorporated by reference. Section 15.6.1(c) of this ordinance. (Note: A "100 year flood" does not refer to a flood that occurs every 100 years, but refers to a flood level with a 1 percent chance of being equalled or exceeded in any given year.)

6. Storage and Material and Equipment:
   a) The storage or processing of materials that are in time of flooding buoyant, flammable, explosive, or could be injurious to human, animal or plant life is prohibited.
   b) Storage of other material or equipment may be allowed if not subject to major damage by floods and firmly anchored on sites that are easily removable from the area within the time available after flood warning.

7. Subdivision proposals and other proposed development shall be reviewed to assure that (a) all such proposals are consistent with the intent to minimize flood damage, (b) all public utilities and facilities, such as gas, sewer, water systems are located, elevated and constructed to minimize or eliminate flood damage, (c) adequate drainage is provided to prevent excessive exposure to flood hazards, and (d) proposals for development of five (5) acres or fifty (50) lots, whichever is larger, to be included within such proposals.

FLOODWAY FRINGE OVERLAY DISTRICT. (Including AO and AH Zones)

A. Permitted Uses. Any use permitted in Section 3-15.7 shall be permitted in the Floodway Fringe Overlay District. No use shall be permitted in the district unless the standards of Section 3-15.6 are met.

B. Standards for the Floodway Fringe Overlay District.

1. Require new construction or substantial improvements of residential structures to have the lowest floor, including basement, flat graded to or elevated above the 100-year flood level.

2. Require new construction or substantial improvements of nonresidential structures to have the lowest floor, including basement, elevated to or above the base floor elevation, with all attendant utility and sanitary facilities, to be floodproofed to within such elevated floor or platform so as to prevent water from entering or accumulating or having an elevation substantially impermeable to the passage of water and with structural components having the capability of withstanding hydrostatic and hydrodynamic loads and effects of buoyancy. A registered professional engineer or architect shall design and supervise the construction of the structure so that the section is satisfied. Such certification shall be provided to the director as set forth in Section 3-15.9.3(b)(2) of this ordinance.

3. Require for all new construction and substantial improvements that the lowest level of all areas that are subject to flooding shall be designed to automatically equalize hydrostatic flood loads on an exterior wall by allowing for the entry and exit of floodwaters. Designs for meeting this requirement shall be in accordance with the standards of the American Society of Civil Engineering or other sources provided that they meet the automatic entry and exit of floodwaters.

4. All adequate drainage paths around structures on slopes shall be required in order to guide floodwaters around and away from proposed

Zoning Appeals or any taxpayer may appeal such decision to the City Council of the City of Johnson County, Kansas, which Council is hereby provided to K.S.A. 12-715.

D. In passing upon such applications, the Board of Zoning Appeals shall consider all technical evaluation, all relevant factors and the recommendations specified in other sections of this ordinance, and:

1) The danger that materials may be swept onto other lands to the injury of others;
2) The danger to life and property due to flooding or erosion damage;
3) The susceptibility of proposed facility and its content to the effects of such damage on the individual owner;
4) The importance of the service provided by the proposed facility to the community;
5) The necessity to the facility of a waterfront or related use;
6) The availability of alternative locations, not subject to flooding or erosion damage, for the proposed use;
7) The compatibility of the proposed use with existing uses of the area and with the general plan of development of the area;
8) The relationship of the proposed use to the comprehensive plan and flood plain management of the area;
9) The safety of access to the property in times of flood for ordinary and emergency vehicles;
10) The expected heights, velocity, duration, rate of rise and sediment transport of the flood waters and the effects of wave action, if applicable, expected at the site; and,
11) The costs of providing governmental services during and after flood conditions including maintenance and repair of public utilities such as sewer, gas, electrical, and water systems, and streets and bridges.

E. Conditions for Variance.

1) Generally, variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or more, which are not located in a flood plain or whose foundations are not located in the 100 year flood plain discharge. No use shall increase the flood levels of the adjacent flood plain area. The proposed facility for any proposed use shall be subject to the standards of Sections 3-15.5 and 3-15.6. The following are recommended uses for the Floodway District:

1) Agricultural uses such as general farming, pasture, nurseries, forestry.
2) Residential uses such as lawns, gardens, parking and play areas.
3) Nonresidential areas such as loading areas, parking, airport landing strips.
4) Public or private recreational uses such as golf courses, archery ranges, picnic grounds, parks, wildlife and nature preserves.
5) In Zone A unbuilt, obtain, review and reasonably use any floodway data available through federal, state or other sources or Section 3-15.5 of this ordinance, in meeting the standards of this section.

2-15.6 CITY FLOOD HAZARD OVERTLY DISTRICT

A. This section provides for the establishment of a city flood hazard overlying district. This district will include those areas subject to periodic inundation by 100 year floodwaters not protected on the most recent maps prepared by the Federal Insurance Administration.

B. Generally, residential structures in this area shall have the following basements (including basement cellars) a foot above the flood hazard elevation. If this entirely precludes the development of the lot, the Director of Planning and Development shall decide another form of mitigation.

C. Structures having a use other than residential shall, in general, be held to the same criteria as otherwise provided in this section. The enforcement of this section shall depend upon the determination of the Director of Planning and Development.

2-15.3 VARIANCE PROCEDURES

A. The Board of Zoning Appeals as established by the City of Johnson County, Kansas, shall hear and decide appeals and requests for variances from the requirements of this ordinance.

B. The Board of Zoning Appeals shall hear and decide appeals when it has alleged that there is an error in any requirement of this ordinance, or by the Director of Planning and Development in the enforcement or administration of this ordinance.

C. Any person aggrieved by the decision of the Board of Zoning Appeals or any taxpayer may appeal such decision to the City Council of Johnson County, Kansas, which Council is hereby provided to K.S.A. 12-715.

2-15.10 NONCONFORMING USES

A. A structure or the use of a structure or premises which was lawful before the passage or amendment of this ordinance but which is not in conformity with the provisions of this ordinance may be continued subject to the following conditions:

1) If such use is discontinued for 12 consecutive months, any future use of the building premises must conform to this ordinance. The Utility Companies shall notify the Director of Planning and Development in writing of instances of nonconformance; and a public hearing shall be held to determine whether the nonconformity shall have been discontinued for a period of 12 months.
2) Uses or adjuncts thereof which are or become nonconforming shall not be entitled to continue as nonconforming uses.
8. If any nonconforming use or structure is destroyed by fire or flood, it shall not be reconstructed in the same or any similar manner. This limitation does not include the cost of any alteration to comply with existing state or local health, sanitary, building, or safety codes, or regulations or the cost of an alteration of a structure listed on the National Register of Historic Places or a State Inventory of Historic Places.

2-15.11 PENALTIES FOR VIOLATION.

Any person or other entity who violates this article shall be subject to the penalties provided in Article 5 of this ordinance.

2-15.12 AMENDMENTS.

The regulations, restrictions, and boundaries set forth in this ordinance may from time to time be amended, supplemented, changed, or repealed to reflect any and all changes in the National Flood Insurance Program, catastrophe protection, or the need expressed by any private persons in interest and citizens shall have an opportunity to be heard. Notice of the time, place, and manner of the hearing shall be published in a newspaper of general circulation in the City of Springfield, Kansas. At least 20 days notice is given to the date of this publication and the public hearing. A copy of such amendments will be provided to the Federal Emergency Management Agency. The regulations of this ordinance are in compliance with the National Flood Insurance Program Regulations.
