The Bonds shall bear interest at the rates aforesaid (computed on the basis of a 360-day year composed of twelve 30-day months) from the date thereof or from the most recent date to which interest has been paid or duly provided for, payable semiannually on March 1 and September 1 in each year, beginning on March 1, 1999 (the "Interest Payment Dates"), to the persons in whose names the Bonds are registered on the books maintained by the Bond Registrar at the close of business on the 15th day of the month immediately preceding the Interest Payment Dates (the "Record Dates").

Section 204. **Designation of Paying Agent and Bond Registrar.** The State Treasurer of the State of Kansas in the City of Topeka, Kansas, is hereby designated as the City’s paying agent for the payment of principal of, premium, if any, and interest on the Bonds and bond registrar with respect to the registration, transfer and exchange of Bonds (the “Paying Agent” and “Bond Registrar”).

The Mayor of the City and the City Clerk of the City are hereby authorized and empowered to execute on behalf of the City an agreement with the State Treasurer of the State of Kansas to act as Bond Registrar and Paying Agent for the Bonds.

Section 205. **Method and Place of Payment of Bonds.** The principal of, premium, if any, and interest on the Bonds shall be payable in lawful money of the United States of America by check or draft of the Paying Agent.

The principal of and premium, if any, on the Bonds shall be payable at the office of the Paying Agent upon presentation and surrender of such Bonds as they respectively become due.

The interest on the Bonds shall be payable to the order of the registered owners thereof mailed by the Paying Agent to the addresses of such registered owners as they appear on the registration books maintained by the Bond Registrar or at such other address provided in writing by such registered owner to the Bond Registrar prior to the Record Dates.
The Paying Agent and Bond Registrar shall keep in its office a record of payment of principal of, premium, if any, and interest on the Bonds.

Section 206. Registration, Transfer and Exchange of Bonds. The City covenants that it will, as long as any of the Bonds herein authorized remain outstanding, cause to be kept at the office of the Bond Registrar books for the registration, transfer and exchange of Bonds as herein provided.

Upon presentation of the necessary documents as hereinafter described, the Bond Registrar shall transfer or exchange any Bond(s) for new Bond(s) in an authorized denomination of the same maturity and for the same aggregate principal amount as the Bond(s) presented for transfer or exchange.

All Bonds presented for transfer or exchange shall be accompanied by a written instrument or instruments of transfer or authorization for exchange, in a form and with guarantee of signature satisfactory to the Bond Registrar, duly executed by the registered owner thereof or by the registered owner's duly authorized agent. In addition, all Bonds presented for transfer or exchange shall be surrendered to the Bond Registrar for cancellation.

Prior to delivery of the new Bond(s) to the transferee, the Bond Registrar shall register the same in the registration books kept by the Bond Registrar for such purpose and shall authenticate each Bond.

The City shall provide for the payment out of the Bond proceeds of the fees of the Bond Registrar for registration and transfer of the Bonds and the cost of printing a reasonable supply of registered bond blanks. Any additional costs or fees that might be incurred in the secondary market, other than fees of the Bond Registrar, are the responsibility of the bondowners.

The City, the Bond Registrar and the Paying Agent may deem and treat the person in whose name any Bond shall be registered as the absolute owner of such Bond, whether such Bond shall be overdue or not, for the purpose of receiving payment of, or on account of, the principal of and redemption premium, if any, and interest on said Bond and for all other purposes, and all such payments so made to any such registered owner or upon such registered owner's order shall be valid and effectual to satisfy and discharge the liability upon such Bond to the extent of the sum or sums so paid, and neither the City nor the Bond Registrar nor the Paying Agent shall be affected by any notice to the contrary, but such registration may be changed as herein provided.

The Bond Registrar shall not be required to register, transfer or exchange Bonds for a period extending from the Record Date to the immediately following Interest Payment Date for the Bonds or to register, transfer or exchange any Bonds selected for redemption in whole or in part subsequent to the date notice of such redemption is given.

Section 207. Immobilization of Bonds by the Depository. (a) The Bonds shall be initially issued as separately authenticated fully registered bonds, and one Bond shall be issued in
the principal amount of each stated maturity of the Bonds. Upon such initial issuance, the
ownership of such Bonds shall be registered in the bond register in the name of Cede & Co., as
nominee of the Depository. The Paying Agent and Bond Registrar and the City may treat the
Depository (or its nominee) as the sole and exclusive owner of Bonds registered in its name for
the purposes of payment of the principal of or interest on the Bonds, selecting the Bonds or
portions thereof to be redeemed, giving any notice permitted or required to be given to registered
owners of Bonds under this Ordinance, registering the transfer of Bonds, and for all other
purposes whatsoever; and neither the Bond Registrar nor the City shall be affected by any notice
to the contrary. Neither the Bond Registrar nor the City shall have any responsibility or
obligation to any Participant, any person claiming a beneficial ownership interest in the Bonds
under or through the Depository or any Participant, with respect to the accuracy of the records
maintained by the Depository or any Participant, with respect to the payment by the Depository
or any Participant of any amount with respect to the principal of or interest on the Bonds, with
respect to any notice which is permitted or required to be given to owners of Bonds under this
Ordinance, with respect to the selection by the Depository or any Participant of any person to
receive payment in the event of a partial redemption of the Bonds, or with respect to any consent
given or other action taken by the Depository as registered owner of the Bonds. So long as any
Bond issued hereunder is registered in the name of Cede & Co., as nominee of the Depository,
the Bond Registrar shall pay all principal of and interest on such Bond, and shall give all notices
with respect to such Bond, only to Cede & Co. in accordance with the Representation Letter, and
all such payments shall be valid and effective to fully satisfy and discharge the City's obligations
with respect to the principal of and interest on the Bonds to the extent of the sum or sums so
paid. No person other than the Depository (or its duly authorized agent) shall receive an
authenticated bond for any separate stated maturity evidencing the obligation of the City to make
payments of principal and interest. Upon delivery by the Depository to the Bond Registrar of
written notice to the effect that the Depository has determined to substitute a new nominee in
place of Cede & Co., the Bonds will be transferable to such new nominee in accordance with
paragraph (d) below and Section 206 hereof.

(b) In the event the City determines that it is in the best interest of the Beneficial
Owners that they be able to obtain definitive bond certificates, the City may notify the
Depository and the Bond Registrar, whereupon the Depository shall notify the Participants of the
availability through the Depository of such certificates. In such event, the Bonds will be
transferable in accordance with paragraph (d) below and Section 206 hereof. The Depository
may determine to discontinue providing its services with respect to the Bonds at any time by
giving notice to the City and the Bond Registrar and discharging its responsibilities with respect
thereto under applicable law. In such event the Bonds will be transferable in accordance with
paragraph (d) below and Section 206 hereof.

(c) The Mayor and City Clerk are hereby authorized to execute and attest,
respectively, and deliver the Representation Letter to the Depository in the form attached hereto
as Exhibit B with such changes, omissions, insertions and revisions as the Mayor and the City
Clerk shall deem advisable, and such execution of the Representation Letter by the Mayor and
City Clerk shall be conclusive evidence of such approval. The Representation Letter sets forth
certain matters with respect to, among other things, notices, consents and approvals by registered owners of the Bonds and Beneficial Owners and payments on the Bonds. The Bond Registrar shall have the same rights with respect to its actions thereunder as it has with respect to its action under this Ordinance.

(d) In the event that any transfer or exchange of Bonds is permitted under paragraph (a) or (b) hereof, such transfer or exchange shall be accomplished upon receipt by the Bond Registrar of the Bonds to be transferred or exchanged and appropriate instruments of transfer to the permitted transferee in accordance with the provisions of Section 206 of this Ordinance. In the event definitive bond certificates are issued to holders other than Cede & Co., its successor as nominee for the Depository as holder of all the Bonds, or another securities depository as holder of all the Bonds, the provisions of this Ordinance shall also apply to all matters relating thereto, including, without limitation, the printing of such certificates and the method of payment of principal of and interest on such certificates.

Section 208. Surrender and Cancellation of Bonds. Whenever any outstanding Bond shall be delivered to the Bond Registrar for cancellation pursuant to this Ordinance, upon payment of the principal amount thereof and interest thereon or for replacement pursuant to this Ordinance, such Bond shall be cancelled by the Bond Registrar and the cancelled Bond shall be returned to the City.

Section 209. Mutilated, Lost, Stolen or Destroyed Bonds. In the event any Bond is mutilated, lost, stolen or destroyed, the City may execute and the Bond Registrar may authenticate a new Bond of like date, maturity, denomination and interest rate as that mutilated, lost, stolen or destroyed; provided, however, that in the case of any mutilated Bond, such mutilated Bond shall first be surrendered to the City or the Bond Registrar, and, in the case of any lost, stolen or destroyed Bond there shall be first furnished to the Bond Registrar and the City evidence of such loss, theft or destruction and an indemnity satisfactory to them. In the event any such Bond shall have matured, instead of issuing a duplicate Bond, the City and Bond Registrar may pay the same without surrender thereof. The City and Bond Registrar may charge to the registered owner of such Bond their reasonable fees and expenses in connection with replacing such Bond or Bonds mutilated, stolen, lost or destroyed.

Section 210. Execution, Registration and Delivery of the Bonds. Each of the Bonds, including any Bonds issued in exchange or as substitutions for the Bonds initially delivered, shall be signed by the manual or facsimile signature of the Mayor of the City and attested by the manual or facsimile signature of the City Clerk and shall have the corporate seal of the City affixed thereto or imprinted thereon. In case any officer whose signature or facsimile thereof appears on any Bonds shall cease to be such officer before the delivery of the Bonds, such signature or facsimile thereof shall nevertheless be valid and sufficient for all purposes, the same as if such person had remained in office until delivery. Any Bond may be signed by such persons who at the actual time of the execution of such Bond shall be the proper officers to sign such Bond, although at the date of such Bond such persons may not have been such officers.
The Mayor of the City and the City Clerk are hereby authorized and directed to prepare and execute the Bonds in the manner hereinbefore specified, to cause the Bonds to be registered in the office of the City Clerk and the Office of the State Treasurer of the State of Kansas as provided by law, and, when duly executed and registered, to deliver the Bonds to or upon the order of the Underwriters, upon receipt by the City of the purchase price of the Bonds determined in accordance with the contract established by the acceptance of the proposal of the Underwriters by the City. The Mayor of the City and the City Clerk are also hereby further authorized to enter into an agreement with a depository trust company to have the executed, authenticated Bonds held in safe keeping prior to their delivery to the Underwriters.

The Bonds shall have endorsed thereon a Certificate of Authentication substantially in the form set forth in Exhibit A attached hereto, which shall be executed by the manual or facsimile signature of the Bond Registrar. No Bond shall be entitled to any security or benefit under the Ordinance nor shall it be valid or obligatory for any purpose unless and until such Certificate of Authentication shall have been duly executed by the Bond Registrar. Such executed Certificate of Authentication upon any Bond shall be conclusive evidence that such Bond has been duly authenticated and delivered under the Ordinance. The Certificate of Authentication on any Bond shall be deemed to have been duly executed if signed by any authorized officer or employee of the Bond Registrar, but it shall not be necessary that the same officer or employee sign the Certificate of Authentication on all of the Bonds that may be issued hereunder at any one time.

**ARTICLE III**

**REDEMPTION**

Section 301. **Redemption of Bonds.** The Bonds shall be subject to redemption prior to maturity only as provided in this Section 301.

Bonds maturing on and after September 1, 2008, shall be subject to redemption and may be called for redemption and payment by the City prior to maturity on September 1, 2007 and thereafter, in whole on any date or in part on any Interest Payment Date at the redemption price of 100% of the principal amount thereof, plus accrued interest thereon to the date fixed for redemption, without premium.

In the case of a partial redemption of Bonds as aforesaid, the City may select Bonds of any particular maturity or maturities in such order and in such amounts as it shall determine in its sole discretion.

Section 302. **Notice of Redemption.** In the event the City shall elect to redeem and pay any of the Bonds prior to the maturity thereof pursuant to subparagraph (a) of Section 301 hereof, the City shall give written notice of its intention to redeem and pay said Bonds on a specified date, the same being described by number, series and maturity, said notice to be mailed by prepaid United States registered or certified mail addressed to the Paying Agent and Bond Registrar, the Depository and the Underwriters, said notice to be mailed not less than 45 days prior to the redemption date.
The Paying Agent and Bond Registrar will send notice of redemption of Bonds to be redeemed pursuant to Section 301 hereof by first class mail to the registered owners of such Bonds as are to be redeemed, said notices to be mailed not less than 30 days prior to the date fixed for redemption.

Section 303. Selection of Bonds to Be Redeemed. Bonds shall be redeemed only in the principal amount of $5,000 or any integral multiple thereof. When less than all of the outstanding Bonds are to be redeemed and paid prior to maturity, the particular maturities of such Bonds to be redeemed shall be determined by the City in its sole discretion, Bonds of less than a full maturity to be selected by the Paying Agent and Bond Registrar by lot in $5,000 units of face value in such equitable manner as the Paying Agent and Bond Registrar may determine.

In the case of a partial redemption of Bonds by lot when Bonds of denominations greater than $5,000 are then outstanding, then for all purposes in connection with such redemption each $5,000 of face value shall be treated as though it were a separate Bond of the denomination of $5,000. If it is determined that one or more, but not all, of the $5,000 units of face value represented by any fully registered Bond is selected for redemption, then upon notice of intention to redeem such $5,000 unit or units, the owner of such fully registered Bond or the owner’s duly authorized agent shall forthwith present and surrender such Bond to the Paying Agent and Bond Registrar (1) for payment of the redemption price (including the interest to the date fixed for redemption) of the $5,000 unit or units of face value called for redemption, and (2) for exchange, without charge to the owner thereof, for a new Bond or Bonds of the aggregate principal amount of the unredeemed portion of the principal amount of such fully registered Bond. If the owner of any such fully registered Bond of a denomination greater than $5,000 shall fail to present such Bond to the Paying Agent and Bond Registrar for payment and exchange as aforesaid, such Bond shall, nevertheless, become due and payable on the redemption date to the extent of the $5,000 unit or units of face value called for redemption (and to that extent only).

Section 304. Effect of Call for Redemption. Whenever any Bond is called for redemption and payment as provided in this Article, all interest on such Bond shall cease from and after the date for which such call is made, provided funds are available for its payment at the price hereinbefore specified.

Section 602. Application of Moneys in the Improvement Fund. Moneys in the Improvement Fund shall be separately accounted for and attributed to each of the individual Series 1998 Improvement Projects and shall be used solely to pay the cost of such Series 1998 Improvement Projects, including the retirement of temporary notes of the City previously issued to provide interim financing for the Series 1998 Improvement Projects, and, in the event funds on deposit in the Cost of Issuance Fund shall be insufficient for the purpose thereof, to pay costs of issuance of the Bonds. Upon completion of the Series 1998 Improvement Projects and payment of all costs thereof, any moneys remaining in the Improvement Fund shall be deposited into the Principal and Interest Fund.
Section 603. Application of Moneys in the Cost of Issuance Fund. Section 702. Transfer of Funds to Paying Agent. The Treasurer of the City is hereby authorized and directed to withdraw from the Principal and Interest Fund and transfer to the Paying Agent sums sufficient to pay the principal of and interest on the Bonds and the fees of the Paying Agent and Bond Registrar when the same become due. If, through lapse of time or otherwise, the owners of Bonds shall no longer be entitled to enforce payment of their obligations, it shall be the duty of the Paying Agent forthwith to return said funds to the City. All moneys deposited with the Paying Agent shall be deemed to be deposited in accordance with and subject to all of the provisions contained in this Ordinance.

ARTICLE VIII

MISCELLANEOUS PROVISIONS

Section 801. Sale of Bonds to the Underwriters; Approval of Official Statement; Continuing Disclosure. The sale of the Bonds to the Underwriters at a purchase price of 100% of the principal amount of the Bonds plus a premium of $5,972.60 and accrued interest thereon to the date of delivery thereof to the Underwriters in accordance with the proposal submitted by them for the Bonds is hereby ratified and approved.

Distribution of the final Official Statement relating to the Bonds in substantially the form presented to the governing body of the City and the use thereof by the Underwriters of the Bonds is hereby approved, and the Mayor of the City and the City Clerk are hereby authorized to
execute such Official Statement on behalf of the City, with such corrections, omissions, insertions or changes as they may approve.

The City hereby covenants and agrees that it will comply with and carry out all of the provisions of the Continuing Disclosure Certificate, the form of which is attached hereto as Exhibit C. Notwithstanding any other provision of this Ordinance to the contrary, failure by the City to comply with the Continuing Disclosure Certificate shall not be considered a default or an event of default hereunder or on the Bonds; however, any registered owner of the Bonds or Participating Underwriter may take such actions as may be necessary and appropriate, including seeking mandamus or specific performance by court order, to cause the City to comply with its obligations under the Continuing Disclosure Certificate and this Section 801.

Section 802. Special Tax Covenants. The City covenants to comply with each and every provision of the Internal Revenue Code of 1986 and the rules and regulations promulgated thereunder (the “Code”), which is or may be applicable to the Bonds or state and local obligations of the same character as the Bonds authorized and issued hereunder; provided, that, the City shall not be required to comply with any such provision if the City shall be provided with an opinion of nationally recognized bond counsel to the effect that such compliance is not required and to the effect that the failure to comply with any such provision will not cause interest on the Bonds to be subject to federal income taxation.

In particular, the City shall complete the construction of the Series 1998 Improvement Projects that are financed with the proceeds of the Bonds not later than that day which is three years after the earlier of (i) the date of issue of the Bonds or (ii) the date construction of such Series 1998 Improvement Projects began.

The City further covenants and agrees that no portion of the gross proceeds of the Bonds will be used (on a basis different from use by members of the general public of the Series 1998 Improvement Projects) directly or indirectly in any trade or business carried on by any person (including exempt persons) other than the City, any other political subdivision of the State of Kansas or any governmental unit of the State of Kansas, or to make any loan to any such person.

The City will comply with all applicable information reporting requirements of the Code.

Section 803. Arbitrage Covenant. FURTHER TERMS AND CONDITIONS

This Bond is one of an authorized series of bonds of the City designated "General Obligation Improvement Bonds, Series 1998-A," in the aggregate principal amount of $12,340,000 (the "Bonds") issued for the purpose of providing funds to finance the costs of certain public improvements within the City as identified in the Ordinance. The Bonds are issued by the authority of and in full compliance with the provisions, restrictions and limitations of the Constitution and laws of the State of Kansas, including K.S.A. 12-685, et seq., and K.S.A. 12-6a01, et seq., each as amended, and all other provisions of the laws of the State of Kansas applicable thereto.

Bonds of the series of which this Bond is a part maturing by their stated terms on and after September 1, 2008, shall be subject to redemption and may be redeemed and paid prior to maturity, at the option of the City, on September 1, 2007 and thereafter, as a whole on any date or in part on any Interest Payment Date, and if in part chosen in such manner as the City in its sole discretion shall determine (selection of Bonds within the same maturity to be by lot chosen by the Paying Agent and Bond Registrar in such equitable manner as it may determine), at the redemption price of 100% of the principal amount thereof, plus accrued interest thereon to the date fixed for redemption, without premium.

Whenever Bonds are to be selected for the purpose of redemption, the Paying Agent and Bond Registrar shall, in the case of Bonds in denominations greater than $5,000, if less than all of the Bonds then outstanding are to be called for redemption, treat each $5,000 of face value of each such fully registered Bond as though it were a separate Bond of the denomination of $5,000.
If any Bonds are called for redemption and payment prior to maturity, the City shall give written notice of its intention to redeem and pay such Bonds on a specified date, the same being described by number, series and maturity, said notice to be mailed by prepaid United States registered or certified mail addressed to the Paying Agent and Bond Registrar, the Depository and the Underwriters of the Bonds, said notice to be mailed not less than 45 days prior to the redemption date. All Bonds so called for redemption and payment as aforesaid shall cease to bear interest from and after the date for which such call is made, provided funds are available for the payment of such Bonds at the price hereinbefore specified.

The Bonds are issued in fully registered form in the denomination of $5,000 or any integral multiple thereof. This Bond may be exchanged at the office of the Bond Registrar for a like aggregate principal amount of Bonds of the same maturity of other authorized denominations upon the terms provided in the Ordinance.

The City and the Bond Registrar may deem and treat the registered owner hereof as the absolute owner hereof for purposes of receiving payment of or on account of principal hereof and interest due hereon and for all other purposes and neither the City nor the Bond Registrar shall be affected by any notice to the contrary.

This Bond is transferable by the registered owner hereof in person or by the registered owner’s agent duly authorized in writing, at the office of the Bond Registrar, but only in the manner, subject to the limitations and upon payment of the charges provided in the Ordinance and upon surrender and cancellation of this Bond. The City shall pay out of the proceeds of the Bonds all costs incurred in connection with the issuance, payment and initial registration of the Bonds and the cost of a reasonable supply of bond blanks.

Re: $12,340,000 City of Leawood, Kansas General Obligation

Improvement Bonds, Series 1998-A

[Issue Description]

Ladies and Gentlemen:

This letter sets forth our understanding with respect to certain matters relating to the above-referenced issue (the “Bonds”). Agent will act as trustee, paying agent, fiscal agent, or other agent of Issuer with respect to the Bonds. The Bonds will be issued pursuant to a trust indenture, bond resolution, or other such document authorizing the issuance of the Bonds dated November 23, 1998 (the “Document”). Prudential-Securities Incorporated ["Underwriter"] is distributing the Bonds through The Depository Trust Company (“DTC”).

To induce DTC to accept the Bonds as eligible for deposit at DTC, and to act in accordance with its Rules with respect to the Bonds, Issuer and Agent, if any, make the following representations to DTC:

1. Prior to closing on the Bonds on December 3, 1998, there shall be deposited with DTC one Bond certificate registered in the name of DTC’s nominee, Cede & Co., for each stated maturity of the Bonds in the face amounts set forth on Schedule A hereto, the total of which represents 100% of the principal amount of such Bonds. If, however, the aggregate principal amount of any maturity exceeds $200 million, one certificate will be issued with respect to each $200 million of principal amount and an additional certificate will be issued with respect to any remaining principal amount. Each Bond certificate shall bear the following legend:
Unless this certificate is presented by an authorized representative of The Depository Trust Company, a New York corporation ("DTC"), to Issuer or its agent for registration of transfer, exchange, or payment, and any certificate issued is registered in the name of Cede & Co. or in such other name as is requested by an authorized representative of DTC (and any payment is made to Cede & Co. or to such other entity as is requested by an authorized representative of DTC), ANY TRANSFER, PLEDGE, OR OTHER USE HEREOF FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL inasmuch as the registered owner hereof, Cede & Co., has an interest herein.

2. In the event of any solicitation of consents from or voting by holders of the Bonds, Issuer or Agent shall establish a record date for such purposes (with no provision for revocation of consents or votes by subsequent holders) and shall, to the extent possible, send notice of such record date to DTC not less than 15 calendar days in advance of such record date.

3. In the event of a full or partial redemption or an advance refunding of part of the outstanding Bonds, Issuer or Agent shall send a notice to DTC specifying: (a) the amount of the redemption or refunding; (b) in the case of a refunding, the maturity date(s) established under the refunding; and (c) the date such notice is to be mailed to beneficial owners or published (the "Publication Date"). Such notice shall be sent to DTC by a secure means (e.g., legible telecopy, registered or certified mail, overnight delivery) in a timely manner designed to assure that such notice is in DTC's possession no later than the close of business on the business day before the Publication Date. Issuer or Agent shall forward such notice either in a separate secure transmission for each CUSIP number or in a secure transmission for multiple CUSIP numbers (if applicable) which includes a manifest or list of each CUSIP submitted in that transmission. (The party sending such notice shall have a method to verify subsequently the use of such means and the timeliness of such notice.) The Publication Date shall be not less than 30 days nor more than 60 days prior to the redemption date or, in the case of an advance refunding, the date that the proceeds are deposited in escrow.

4. In the event of an invitation to tender the Bonds, notice by Issuer or Agent to Bondholders specifying the terms of the tender and the Publication Date of such notice shall be sent to DTC by a secure means in the manner set forth in the preceding Paragraph.

5. All notices and payment advices sent to DTC shall contain the CUSIP number of the Bonds.

6. Notices to DTC pursuant to Paragraph 2 by telecopy shall be sent to DTC's Reorganization Department at (212) 709-6896 or (212) 709-6897, and receipt of such notices shall be confirmed by telephoning (212) 709-6870. Notices to DTC pursuant to Paragraph 2 by mail or by any other means shall be sent to:

   Supervisor, Proxy
   Reorganization Department
   The Depository Trust Company
   7 Hanover Square, 23rd Floor
   New York, NY 10004-2696

7. Notices to DTC pursuant to Paragraph 3 by telecopy shall be sent to DTC's Call Notification Department at (516) 227-4164 or (516) 227-4190. If the party sending the notice does not receive a telecopy receipt from DTC confirming that the notice has been received, such party shall telephone (516) 227-4070. Notices to DTC pursuant to Paragraph 3 by mail or by any other means shall be sent to:

   Call Notification Department
   The Depository Trust Company
   711 Stewart Avenue
   Garden City, NY 11530-4719
8. Notices to DTC pursuant to Paragraph 4 and notices of other actions (including mandatory tenders, exchanges, and capital changes) by telecopy shall be sent to DTC's Reorganization Department at (212) 709-1093 or (212) 709-1094, and receipt of such notices shall be confirmed by telephoning (212) 709-6884. Notices to DTC pursuant to the above by mail or by any other means shall be sent to:

Manager, Reorganization Department
Reorganization Window
The Depository Trust Company
7 Hanover Square; 23rd Floor
New York, NY 10004-2695

9. Agent must provide DTC, no later than noon (Eastern Time) on the payment date, CUSIP numbers for each issue for which payment is being sent, as well as the dollar amount of the payment for each issue. Notification of payment details should be sent using automated communications.

10. Interest payments and principal payments that are part of periodic principal-and-interest payments shall be received by Cede & Co., as nominee of DTC, or its registered assigns in same-day funds no later than 2:30 p.m. (Eastern Time) on each payment date (in accordance with existing arrangements between Issuer or Agent and DTC). Absent any other arrangements between Issuer or Agent and DTC, such funds shall be wired as follows:

The Chase Manhattan Bank
ABA 021000021
For credit to A/C The Depository Trust Company
Dividend Deposit Account 066-02676

Issuer or Agent shall provide interest payment information to a standard announcement service subscribed to by DTC. In the unlikely event that no such service exists, Issuer agrees that it or Agent shall provide this information directly to DTC in advance of the interest record date as soon as the information is available. This information should be conveyed directly to DTC electronically. If electronic transmission is not available, absent any other arrangements between Issuer or Agent and DTC, such information should be sent by telecopy to DTC's Dividend Department at (212) 709-1723 or (212) 709-1686, and receipt of such notices shall be confirmed by telephoning (212) 709-1270. Notices to DTC pursuant to the above by mail or by any other means shall be sent to:

Manager, Announcements
Dividend Department
The Depository Trust Company
7 Hanover Square; 22nd Floor
New York, NY 10004-2695

11. DTC shall receive maturity and redemption payments allocated with respect to each CUSIP number on the payable date in same-day funds by 2:30 p.m. (Eastern Time). Absent any other arrangements between Issuer or Agent and DTC, such funds shall be wired as follows:

The Chase Manhattan Bank
ABA 021000021
For credit to A/C The Depository Trust Company
Redemption Account 066-027306

12. DTC shall receive all reorganization payments and CUSIP-level detail resulting from corporate actions (such as tender offers, remarketings, or mergers) on the first payable date in
same-day funds by 2:30 p.m. (Eastern Time). Absent any other arrangements between Issuer or Agent and DTC, such funds shall be wired as follows:

The Chase Manhattan Bank
ABA 021000021
For credit to A/C The Depository Trust Company
Reorganization Account: 066-027608

13. DTC may direct Issuer or Agent to use any other telephone number or address as the number or address to which notices or payments of interest or principal may be sent.

14. In the event of a redemption, acceleration, or any other similar transaction (e.g., tender made and accepted in response to Issuer’s or Agent’s invitation) necessitating a reduction in the aggregate principal amount of Bonds outstanding or an advance refunding of part of the Bonds outstanding, DTC, in its discretion: (a) may request Issuer or Agent to issue and authenticate a new Bond certificate, or (b) may make an appropriate notation on the Bond certificate indicating the date and amount of such reduction in principal except in the case of final maturity, in which case the certificate will be presented to Issuer or Agent prior to payment if required.

15. In the event that Issuer determines that beneficial owners of Bonds shall be able to obtain certificated Bonds, Issuer or Agent shall notify DTC of the availability of Bond certificates. In such event, Issuer or Agent shall issue, transfer, and exchange Bond certificates in appropriate amounts, as required by DTC and others.

16. DTC may discontinue providing its services as securities depository with respect to the Bonds at any time by giving reasonable notice to Issuer or Agent (at which time DTC will confirm with Issuer or Agent the aggregate principal amount of Bonds outstanding). Under such circumstances, at DTC’s request Issuer and Agent shall cooperate fully with DTC by taking appropriate action to make available one or more separate certificates evidencing Bonds to any DTC Participant having Bonds credited to its DTC accounts.

17. Issuer: (a) understands that DTC has no obligation to, and will not, communicate to its Participants or to any person having an interest in the Bonds any information contained in the Bond certificate(s); and (b) acknowledges that neither DTC’s Participants nor any person having an interest in the Bonds shall be deemed to have notice of the provisions of the Bond certificate(s) by virtue of submission of such certificate(s) to DTC.

18. Nothing herein shall be deemed to require Agent to advance funds on behalf of Issuer.
A. If there is an Agent (as defined in this Letter of Representations), Agent, as well as Issuer, must sign this Letter. If there is no Agent, in signing this Letter Issuer itself undertakes to perform all of the obligations set forth herein.

B. Under Rules of the Municipal Securities Rulemaking Board relating to "good delivery," a municipal securities dealer must be able to determine the date that a notice of a partial call or of an advance refunding of a part of an issue is published (the "publication date"). The establishment of such a publication date is addressed in Paragraph 3 of the Letter.

C. Schedule B contains statements that DTC believes accurately describe DTC, the method of effecting book-entry transfers of securities distributed through DTC, and certain related matters.

Very truly yours,

City of Leawood, Kansas

SAMPLE OFFICIAL STATEMENT LANGUAGE
DESCRIBING BOOK-ENTRY-ONLY ISSUANCE
(Prepared by DTC—bracketed material may be applicable only to certain issues)

1. The Depository Trust Company ("DTC"), New York, NY, will act as securities depository for the
securities (the "Securities"). The Securities will be issued as fully-registered securities registered in the name
of Cede & Co. (DTC's partnership nominee). One fully-registered Security certificate will be issued for [each
issue of] the Securities, [each] in the aggregate principal amount of such issue, and will be deposited with
DTC. [If, however, the aggregate principal amount of [any] issue exceeds $200 million, one certificate will be
issued with respect to each $200 million of principal amount and an additional certificate will be issued with
respect to any remaining principal amount of such issue.]

2. DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking
organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a
"clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing
agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC
holds securities that its participants ("Participants") deposit with DTC. DTC also facilitates the settlement
among Participants of securities transactions, such as transfers and pledges, in deposited securities through
electronic computerized book-entry changes in Participants' accounts, thereby eliminating the need for
physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks,
trust companies, clearing corporations, and certain other organizations. DTC is owned by a number of its
Direct Participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc., and the
National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as
securities brokers and dealers, banks, and trust companies that clear through or maintain a custodial
relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). The Rules
applicable to DTC and its Participants are on file with the Securities and Exchange Commission.

3. Purchases of Securities under the DTC system must be made by or through Direct Participants, which
will receive a credit for the Securities on DTC's records. The ownership interest of each actual purchaser of
each Security ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records.
Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners
are expected to receive written confirmations providing details of the transaction, as well as periodic
statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner
entered into the transaction. Transfers of ownership interests in the Securities are to be accomplished by
entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not
receive certificates representing their ownership interests in Securities, except in the event that use of the
book-entry system for the Securities is discontinued.

4. To facilitate subsequent transfers, all Securities deposited by Participants with DTC are registered in the
name of DTC's partnership nominee, Cede & Co. The deposit of Securities with DTC and their registration in
the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual
Beneficial Owners of the Securities; DTC's records reflect only the identity of the Direct Participants to whose
accounts such Securities are credited, which may or may not be the Beneficial Owners. The Participants will
remain responsible for keeping account of their holdings on behalf of their customers.

5. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants
to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be
governed by arrangements among them, subject to any statutory or regulatory requirements as may be in
effect from time to time.
6. Redemption notices shall be sent to Cede & Co. If less than all of the Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

7. Neither DTC nor Cede & Co. will consent or vote with respect to Securities. Under its usual procedures, DTC mails an Omnibus Proxy to Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).

8. Principal and interest payments on the Securities will be made to DTC. DTC's practice is to credit Direct Participants' accounts on payable date in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on payable date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, Agent, or Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of Issuer or Agent, disbursement of such payments to Direct Participants shall be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct and Indirect Participants.

9. A Beneficial Owner shall give notice to elect to have its Securities purchased or tendered, through its Participant, to [Tender/Remarketing] Agent, and shall effect delivery of such Securities by causing the Direct Participant to transfer the Participant's interest in the Securities, on DTC's records, to [Tender/Remarketing] Agent. The requirement for physical delivery of Securities in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the Securities are transferred by Direct Participants on DTC's records and followed by a book-entry credit of tendered Securities to [Tender/Remarketing] Agent's DTC account.

10. DTC may discontinue providing its services as securities depository with respect to the Securities at any time by giving reasonable notice to Issuer or Agent. Under such circumstances, in the event that a successor securities depository is not obtained, Security certificates are required to be printed and delivered.

11. Issuer may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, Security certificates will be printed and delivered.

12. The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that Issuer believes to be reliable, but Issuer takes no responsibility for the accuracy thereof.

CONTINUING DISCLOSURE CERTIFICATE
This Continuing Disclosure Certificate (the "Disclosure Certificate") is executed and delivered by the City of Leawood, Kansas (the "Issuer") in connection with the issuance of $12,340,000 General Obligation Improvement Bonds, Series 1998-A (the "Bonds"). The Bonds are being issued pursuant to Ordinance No. 1767 adopted by the Governing Body of the Issuer on November 23, 1998 (the "Ordinance"). The Issuer covenants and agrees as follows:

WHEREAS, the Project has commenced and the City has incurred or expects to incur costs payable within the next six months in the amount of $300,000; and

WHEREAS, the City is authorized by law and in particular K.S.A. 10-123, as amended, to issue temporary notes of the City to pay the costs of the Project as the same become due and payable.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF LEAWOOD, KANSAS, AS FOLLOWS:

Section One. Authorization of Notes. The amount of the Notes together with other temporary notes heretofore issued to finance the Project which remain outstanding does not exceed the total estimated costs of said Project.

Section Two. Terms of the Notes. Said issue of Notes shall consist of bearer notes numbered 1 through 3, inclusive, in the denomination of $100,000 each, dated November 15, 1998, and shall mature by the stated terms thereof and become due and payable on August 12, 1999. The Notes shall bear interest from their dated date, payable at maturity or upon redemption prior thereto as herein provided, at a rate of interest of 3.125% per annum (computed on the basis of actual days elapsed and a 360-day year composed of twelve 30-day months). The Notes shall be subject to redemption at the option of the City as hereinafter provided and shall be
redeemed and cancelled contemporaneously with the issuance of general obligation improvement bonds of the City issued in lieu thereof to provide permanent financing of the Project.

Both principal of and interest on said Notes shall be payable in lawful money of the United States of America by check or draft at the office of the City Treasurer of the City upon presentation and surrender of said Notes.

The City reserves the right to redeem and pay said Notes, in whole or in part (and if in part in denominations of $100,000 selected by the City in its sole discretion), at any time on or after May 15, 1999, at a redemption price of 100% of the principal amount thereof so redeemed plus accrued interest thereon to the redemption date, without premium. In the event the City elects to redeem any of such Notes as aforesaid, the City shall give notice thereof in writing by first class mail to the original purchaser of the Notes and to any known holder of the Notes or by the publication of such notice at least one time in a newspaper published or of general circulation in the metropolitan Kansas City area, such publication of such notice or mailing of written notification of redemption to the original purchaser and the known holder to be at least ten days prior to the redemption date fixed in such notice. Notice of such redemption having been given as aforesaid, interest shall cease to accrue on said Notes from and after the redemption date.

Section Three. Security for the Notes. The full faith, credit and resources of the City of Leawood, Kansas, shall be and the same are hereby irrevocably pledged for the prompt payment of the principal of and interest on the Notes.

The Governing Body of the City shall make provisions for the payment of said Notes by the issuance of renewal notes or general obligations bonds of the City to provide permanent financing of the Project upon the completion thereof. If said bonds shall not be so issued and the Notes shall not be so paid, the Governing Body shall levy and collect a tax upon all taxable tangible property within the territorial limits of the City in an amount sufficient to pay the principal of and interest on said Notes as the same become due and payable.

Section Four. Form of Notes. Each of said Notes shall be in customary form as provided by law, shall be signed by the Mayor and attested by the City Clerk of the City and shall have the seal of said City affixed thereto.

Section Five. Execution and Delivery. The Mayor and City Clerk of the City are hereby authorized and directed to prepare and execute the Notes herein authorized in the form and substance hereinbefore described and as provided by law and to procure the proper registration in the office of the City Clerk and in the office of the Treasurer of the State of Kansas, and when so executed and registered, said Notes shall be countersigned by the City Clerk and delivered to Country Club Bank, the original purchaser thereof, upon payment of the purchase price therefor which shall not be less than 99.885% of the principal amount thereof plus accrued interest to the date of delivery thereof to the original purchaser thereof.
Section Six. Disposition of Proceeds. The proceeds of the sale of said Notes shall be deposited with the City Treasurer in a special fund created for the purpose of paying the costs and expenses of the Project.

Section Seven. Tax Covenants. The City covenants and agrees that (1) it will comply with each and every provision of Section 103 and Sections 141 through 150 of the Internal Revenue Code of 1986, as amended (the "Code"), that is or may become applicable to the Notes, necessary to maintain the exclusion from gross income for federal income tax purposes of the interest on the Notes, including but not limited to any provisions requiring the rebate of earnings on amounts held in funds or accounts created with respect to the Notes and (2) it will not use or permit the use of any of the proceeds of the Notes or other funds of the City nor take or permit any other action, or fail to take any action, if any such action or failure to act would adversely affect the exclusion from gross income for federal income tax purposes of the interest on the Notes; provided, however, the foregoing provision in (1) above shall be and come null and void if and to the extent that the City shall receive an opinion from nationally recognized bond counsel which concludes that compliance with the foregoing covenant and the provisions of the Code as provided in this section shall not be required to maintain and continue the tax-exempt status of the interest income on the Notes.

Section Eight. Designation of Notes as Qualified Tax-Exempt Obligations. The Governing Body hereby finds, determines, represents and warrants, as follows:

1. The City is a duly created and validly existing municipal corporation of the State of Kansas in existence since 1948;

Section Nine. Findings and Representation as to Use: The Governing Body hereby finds, determines, represents and warrants that no portion of the proceeds of the sale of the Notes will be loaned to or will such proceeds or the Project be in any manner used on a basis different from the general public in the trade or business of any person, firm or corporation other than a governmental entity.

Section Ten. Further Authority. The duly elected and appointed officers of the City, including the Mayor, the City Clerk and the Finance Director, are hereby further authorized and directed to execute all documents and take such actions as they may deem necessary or advisable in order to carry out and perform the purposes of this Ordinance and to make ministerial alterations, changes or additions in the foregoing agreements, statements, instruments and other documents herein approved, authorized and confirmed which they may approve, and the execution or taking of such action shall be conclusive evidence of such necessity or advisability.

Section Eleven. Effective Date. That this Ordinance shall take effect and be in force after its publication as provided by law.

ORDINANCE NO. 1743

AN ORDINANCE TO EXTEND ORDINANCE NO. 813 WHICH GRANTS A TELEPHONE FRANCHISE TO SOUTHWESTERN BELL TELEPHONE COMPANY AND TO AMEND THE FRANCHISE FEE AUTHORIZED BY THE FRANCHISE.

WHEREAS, the City of Leawood (“City”), Kansas and Southwestern Bell Telephone Company (“SWB”) have a franchise ordinance as authorized by Ordinance No. 813 (“Franchise Ordinance”); and

WHEREAS, the Franchise Ordinance granted to SWB expires on August 31, 1998; and

WHEREAS, the parties hereto intend to negotiate a new franchise ordinance, but there is insufficient time for the parties to negotiate a new franchise ordinance to become effective on the expiration date of the existing Franchise Ordinance; and

WHEREAS, the parties hereto desire the existing Franchise Ordinance to continue in force and effect subject to the amendments below until a new franchise ordinance is negotiated, adopted and in force; and

WHEREAS, the parties hereto have entered the Extension Agreement executed on August 17, 1998, whereby the parties have agreed to extend and continue the term of the current Franchise Ordinance term subject to the amendments cited below through this ordinance (“Extension Ordinance”).

NOW, THEREFORE BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF LEAWOOD, KANSAS:

SECTION ONE: Extension. It is mutually agreed and understood by and between the parties hereto that the terms of the existing Franchise Ordinance shall be incorporated into this Extension Ordinance subject to the amendments cited below, and that these terms shall remain in full force and effect until December 31, or until a new franchise ordinance between the parties hereto takes effect, whichever comes first. If necessary to allow for further negotiation, upon joint agreement between the parties in writing, this Extension Ordinance can be renewed for up to three months (March 31, 1999) as long as the parties are actively negotiating in good faith.

SECTION TWO: Amendment. The language of Section 2 of the Franchise Ordinance shall be not be incorporated into the Extension Ordinance and the following language shall instead be adopted:

Section 2. PAYMENT. That for the period September 1, 1998 to October 1, payment shall be made in the same manner dictated by the terms of the existing Franchise Ordinance. For the period October 2 to December 31, 1998 and any period rightfully extended in accordance to the terms of the Extension Ordinance, the telephone company shall pay the City a sum equal to five (5%) percent of gross revenues derived by the telephone company from telecommunication services within the City. Payments shall be made on a monthly basis. The telephone company shall pay the applicable fee to the City within 45 days after the last day of the applicable month. For the purpose of this section “gross revenues” shall include all revenues derived from local exchange telecommunication service rendered wholly within the corporate limits of the City. For purposes of the Ordinance, “gross revenue from local exchange telecommunication service” shall mean those revenues less uncollectible, derived from the following: (1) recurring local exchange service for business and residence which includes basic exchange service, touch tone, optional calling features, and measured local calls; (2)
recurring local exchange access line services for pay phone lines provided the Telephone Company to all pay phone service providers; (3) local directory assistance revenue; (4) line status verification/busy interrupt revenue; (5) local operator assistance revenue; (6) nonrecurring local exchange service revenue which shall include customer service for installation of lines, reconnection of service and charge for duplicate bills. The telephone company and the City agree that all other revenues, including but not limited to revenues from extended area service, unbundled loops, nonregulated services, carrier and end user access, long distance, and all other services not wholly local in nature are excluded from "gross revenues from local exchange telecommunications services." The telephone company and the City agree that "Gross revenues from local exchange telecommunication services" shall be reduced by bad debt expenses and uncollectible and further agree that late charges shall not be included within "gross revenues from local exchange telecommunication services." If during the term of this ordinance the telephone company offers additional services of a wholly local nature which if in existence at the effective date of this Ordinance would have been included with the definition of gross revenues from local exchange telecommunications services" such services shall be included from the date of the offering of such services in the City for the remaining term of the Ordinance.

SECTION THREE: Amendment. The following language shall be added and adopted into the terms of this Extension Ordinance:

Section 9. USE OF RIGHT-OF-WAY. The telephone company shall be subject to all rules, regulations, policies, resolutions and ordinances now or hereafter adopted or promulgated by the City in the reasonable exercise of its police powers and is subject to all applicable laws, orders, rules and regulations adopted by governmental bodies now or hereafter having jurisdiction, and shall comply with the following:

(a) The telephone company's use of the right-of-way shall in all matters be subordinate to the City's use of the right-of-way. The telephone company shall coordinate the placement of its facilities in a manner that minimizes adverse impact on public improvements, as reasonably determined by the City.

(b) All earth, materials, sidewalks, paving, crossings, utilities, public improvements or improvements of any kind damaged or removed by the telephone company in its activities under this Ordinance shall be fully repaired or replaced promptly by the telephone company at its sole expense and to the reasonable satisfaction of the City.

(c) All facilities constructed, reconstructed or relocated in the right-of-way shall be placed underground or on existing poles, unless otherwise agreed to by the City.

(d) The telephone company shall keep and maintain accurate records and as-built drawings depicting accurate horizontal locations of all facilities constructed, reconstructed or relocated in the right-of-way. Within ten (10) days after request by the City, the telephone company will provide to the City such information regarding such location as may be reasonably requested.

(e) Prior to construction, reconstruction or relocation of any facilities in the right-
of-way, the telephone company shall submit to the Public Works Director for approval, plans and specifications of the proposed installation. Such approval shall not be unreasonably withheld, delayed or conditioned.

(f) The telephone company shall relocate or adjust any facilities in the right-of-way for any public funded improvement or public funded project. Such relocation or adjustment shall be performed by the telephone company at its sole expense without expense to the City, its employees agents, or authorized contractors and shall be specifically subject to rules and regulations of the City. Such relocation or adjustment shall be completed as soon as reasonably possible and within the time set forth in any request by the City for such relocation or adjustment. Any damages suffered by the City or its contractors as a result of the telephone company’s failure to timely relocate or adjust its facilities shall be borne by the telephone company.

(g) It shall be solely the responsibility of the telephone company to protect and defend its facilities in the right-of-way from harm or damage. If the telephone company fails to accurately or timely locate facilities when requested, it shall have no claim for costs or damages against the City and its authorized contractors or any other party authorized to be in the right-of-way unless such party is solely responsible for the harm or damage by its negligent or intentional conduct.

(h) The telephone company shall notify the City not less than three (3) working days in advance of any construction, reconstruction, repair or relocation of facilities which would require any street closure which reduces traffic flow to less than two lanes of moving traffic. Except in the event of any emergency, as reasonably determined by the telephone company, no such closure shall take place without such notice and prior authorization from the City. The City shall follow its policies in the grant or denial of such authority, which shall not be unreasonably delayed. In addition, all work performed in the traveled way or in which in any manner impacts vehicular or pedestrian traffic shall be properly signed, barricaded, and otherwise protected at the telephone company’s expense. Such signing shall be in conformance with the latest edition of the Federal Highway Administration’s standards and Guidelines for Work Zone Traffic Control, unless otherwise agreed to by the City.

SECTION FOUR: This ordinance shall not take effect and be in force until after the expiration of 60 days from the date of final passage.

WHEREAS, in the judgment of the Governing Body it is expedient to make improvements to existing City parks; and

WHEREAS, the City is authorized by K.S.A. 12-1402 to issue general obligation bonds for such purposes provided that no bonds shall be issued for the purpose of making improvements to City parks until the Governing Body shall be instructed to do so by the majority of the votes cast on the proposition at any general or special election.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF LEAWOOD, KANSAS:

Section 1. An election for the purpose of submitting a special question to authorize the City to issue its general obligation bonds in an amount not to exceed $12,500,000 for the purpose of paying for the costs of improvements to existing City parks is hereby called to be held on the 3rd day of November, 1998 during the same hours and the same manner as the general election held on that day as is provided by law.

Section 2. The following question shall be at the election as above provided for:
ORDINANCE NO. 1741

AN ORDINANCE AUTHORIZING AND PROVIDING FOR THE ISSUANCE AND DELIVERY OF TEMPORARY NOTES, SERIES 171 (MUNICIPAL POOL BATHHOUSE), OF THE CITY OF LEAWOOD, KANSAS, IN THE PRINCIPAL AMOUNT OF $100,000 TO PROVIDE TEMPORARY FINANCING OF THE COST OF RECONSTRUCTION, REMODELLING AND REPLACEMENT OF THE BATHHOUSE AT THE MUNICIPAL POOL COMPLEX IN THE CITY OF LEAWOOD.

WHEREAS, pursuant to K.S.A. 12-1736, et seq., as amended, and Ordinance No. 1735, the Governing Body of the City of Leawood, Kansas (the "City") has heretofore authorized the following described improvement project within the City, to wit:

reconstruct, remodel and replace the bathhouse at the municipal pool complex located at the city park at 10601 Lee Boulevard within the City (the "Project") at an estimated cost of $500,000; and

WHEREAS, the Project has commenced and the City has incurred or expects to incur costs payable within the next six months in the amount of $100,000; and

WHEREAS, the City is authorized by law and in particular K.S.A. 10-123, as amended, to issue temporary notes of the City to pay the costs of the Project as the same become due and payable.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF LEAWOOD, KANSAS, AS FOLLOWS:

Section One. Authorization of Notes. That in order to provide funds to pay the costs of the Project now due or to become due in the immediate future, including necessary engineering, legal and incidental costs, there shall be issued and the City is hereby authorized to issue temporary notes of the City, designated City of Leawood, Kansas, Temporary Notes, Series 171 (Municipal Pool Bathhouse), in the aggregate principal amount of One Hundred Thousand Dollars ($100,000) (the "Notes"). The amount of the Notes together with other temporary notes heretofore issued to finance the Project which remain outstanding does not exceed the total estimated costs of said Project.
Section Two. Terms of the Notes. Said issue of Notes shall consist of a single bearer note numbered 1, in the denomination of $100,000, dated July 15, 1998, and shall mature by the stated terms thereof and become due and payable on March 15, 1999. The Notes shall bear interest from their dated date, payable at maturity or upon redemption prior thereto as herein provided, at a rate of interest of 3.90% per annum (computed on the basis of actual days elapsed and a 360-day year composed of twelve 30-day months). The Notes shall be subject to redemption at the option of the City upon notice as hereinafter provided and shall be redeemed and cancelled contemporaneously with the issuance of general obligation improvement bonds of the City issued in lieu thereof to provide permanent financing of the Project.

Both principal of and interest on said Notes shall be payable in lawful money of the United States of America by check or draft at the office of the City Treasurer of the City upon presentation and surrender of said Notes.

The City reserves the right to redeem and pay said Notes, in whole or in part (and if in part in denominations of $100,000 selected by the City in its sole discretion), at any time on or after November 15, 1998, at a redemption price of 100% of the principal amount thereof so redeemed plus accrued interest thereon to the redemption date, without premium. In the event the City elects to redeem any of such Notes as aforesaid, the City shall give notice thereof in writing by first class mail to the original purchaser of the Notes and to any known holder of the Notes or by the publication of such notice at least one time in a newspaper published or of general circulation in the metropolitan Kansas City area, such publication of such notice or mailing of written notification of redemption to the original purchaser and the known holder to be at least ten days prior to the redemption date fixed in such notice. Notice of such redemption having been given as aforesaid, interest shall cease to accrue on said Notes from and after the redemption date.

Section Three. Security for the Notes. The full faith, credit and resources of the City of Leawood, Kansas, shall be and the same are hereby irrevocably pledged for the prompt payment of the principal of and interest on the Notes.
The Governing Body of the City shall make provisions for the payment of said Notes by the issuance of renewal notes or general obligations bonds of the City to provide permanent financing of the Project upon the completion thereof. If said bonds shall not be so issued and the Notes shall not be so paid, the Governing Body shall levy and collect a tax upon all taxable tangible property within the territorial limits of the City in an amount sufficient to pay the principal of and interest on said Notes as the same become due and payable.

Section Four. Form of Notes. Each of said Notes shall be in customary form as provided by law, shall be signed by the Mayor and attested by the City Clerk of the City and shall have the seal of said City affixed thereto.

Section Five. Execution and Delivery. The Mayor and City Clerk of the City are hereby authorized and directed to prepare and execute the Notes herein authorized in the form and substance hereinbefore described and as provided by law and to procure the proper registration in the office of the City Clerk and in the office of the Treasurer of the State of Kansas, and when so executed and registered, said Notes shall be countersigned by the City Clerk and delivered to United Missouri Bank, the original purchaser thereof, upon payment of the purchase price therefor which shall not be less than 99.79% of the principal amount thereof plus accrued interest to the date of delivery thereof to the original purchaser thereof.

Section Six. Disposition of Proceeds. The proceeds of the sale of said Notes shall be deposited with the City Treasurer in a special fund created for the purpose of paying the costs and expenses of the Project.

Section Seven. Tax Covenants. The City covenants and agrees that (1) it will comply with each and every provision of Section 103 and Sections 141 through 150 of the Internal Revenue Code of 1986, as amended (the "Code"), that is or may become applicable to the Notes, necessary to maintain the exclusion from gross income for federal income tax purposes of the interest on the Notes, including but not limited to any provisions requiring the rebate of earnings on amounts held in funds or accounts created with respect to the Notes and (2) it will not use or permit the use of any of the proceeds of the Notes or other funds of
the City nor take or permit any other action, or fail to take any action, if any such action or failure to act would adversely affect the exclusion from gross income for federal income tax purposes of the interest on the Notes; provided, however, the foregoing provision in (1) above shall be and come null and void if and to the extent that the City shall receive an opinion from nationally recognized bond counsel which concludes that compliance with the foregoing covenant and the provisions of the Code as provided in this section shall not be required to maintain and continue the tax-exempt status of the interest income on the Notes.

Section Eight. Designation of Notes as Qualified Tax-Exempt Obligations. The Governing Body hereby finds, determines, represents and warrants, as follows:

1. The City is a duly created and validly existing municipal corporation of the State of Kansas in existence since 1948;

2. Since January 1, 1998, the City, any related issuer on behalf of the City and any subordinate issuing entity to the City have not issued bonds or notes or other tax-exempt obligations taken into account under Section 265(b)(3)(D) of an aggregate amount in excess of $10,000,000.

3. The City does not reasonably anticipate issuing tax-exempt obligations taken into account under Section 265(b)(3)(D) during calendar year 1998 in an aggregate amount in excess of $10,000,000.

4. No portion of the proceeds of the sale of the Notes will be loaned to or will such proceeds or the Project be in any manner used on a basis different from the general public in the trade or business of any person, firm or corporation other than a governmental entity.

The Governing Body of the City hereby designates the Notes to be "qualified tax-exempt obligations" within the meaning and for the purposes of Section 265 of the Code, for calendar year 1998.

Section Nine. Findings and Representation as to Use: The Governing Body hereby finds, determines, represents and warrants that no portion of the proceeds of the sale of the
Notes will be loaned to or will such proceeds or the Project be in any manner used on a basis different from the general public in the trade or business of any person, firm or corporation other than a governmental entity.

Section Ten. Further Authority. The duly elected and appointed officers of the City, including the Mayor, the City Clerk and the Finance Director, are hereby further authorized and directed to execute all documents and take such actions as they may deem necessary or advisable in order to carry out and perform the purposes of this Ordinance and to make ministerial alterations, changes or additions in the foregoing agreements, statements, instruments and other documents herein approved, authorized and confirmed which they may approve, and the execution or taking of such action shall be conclusive evidence of such necessity or advisability.

Section Eleven. Effective Date. That this Ordinance shall take effect and be in force after its publication as provided by law.

PASSED by the Council the 6th day of July, 1998.

The Notes shall be subject to redemption at the option of the City upon notice as hereinafter provided and shall be redeemed and cancelled contemporaneously with the issuance of general obligation improvement bonds of the City issued in lieu thereof to provide permanent financing of the Project.

Both principal of and interest on said Notes shall be payable in lawful money of the United States of America by check or draft at the office of the City Treasurer of the City upon presentation and surrender of said Notes.

The City reserves the right to redeem and pay said Notes, in whole or in part (and if in part in denominations of $100,000 selected by the City in its sole discretion), at any time on or after November 15, 1998, at a redemption price of 100% of the principal amount thereof so redeemed plus accrued interest thereon to the redemption date, without premium. In the event the City elects to redeem any of such Notes as aforesaid, the City shall give notice thereof in writing by first class mail to the original purchaser of the Notes and to any known holder of the Notes or by the publication of such notice at least one time in a newspaper published or of general circulation in the metropolitan Kansas City area, such publication of such notice or mailing of written notification of redemption to the original purchaser and the known holder to be at least ten days prior to the redemption date fixed in such notice. Notice
of such redemption having been given as aforesaid, interest shall cease to accrue on said Notes from and after the redemption date.

Section Three. Security for the Notes. The full faith, credit and resources of the City of Leawood, Kansas, shall be and the same are hereby irrevocably pledged for the prompt payment of the principal of and interest on the Notes.

The Governing Body of the City shall make provisions for the payment of said Notes by the issuance of renewal notes or general obligations bonds of the City to provide permanent financing of the Project upon the completion thereof. If said bonds shall not be so issued and the Notes shall not be so paid, the Governing Body shall levy and collect a tax upon all taxable tangible property within the territorial limits of the City in an amount sufficient to pay the principal of and interest on said Notes as the same become due and payable.

Section Four. Form of Notes. Each of said Notes shall be in customary form as provided by law, shall be signed by the Mayor and attested by the City Clerk of the City and shall have the seal of said City affixed thereto.

Section Five. Execution and Delivery. Section Eight. Designation of Notes as Qualified Tax-Exempt Obligations. The Governing Body hereby finds, determines, represents and warrants, as follows:

1. The City is a duly created and validly existing municipal corporation of the State of Kansas in existence since 1948;

2. Since January 1, 1998, the City, any related issuer on behalf of the City and any subordinate issuing entity to the City have not issued bonds or notes or other tax-exempt obligations taken into account under Section 265(b)(3)(D) of an aggregate amount in excess of $10,000,000.

3. The City does not reasonably anticipate issuing tax-exempt obligations taken into account under Section 265(b)(3)(D) during calendar year 1998 in an aggregate amount in excess of $10,000,000.

Section Nine. Findings and Representation as to Use. The Governing Body hereby finds, determines, represents and warrants that no portion of the proceeds of the sale of the Notes will be loaned to or will such proceeds or the Project be in any manner used on a basis different from the general public in the trade or business of any person, firm or corporation other than a governmental entity.

foregoing covenant and the provisions of the Code as provided in this section shall not be required to maintain and continue the tax-exempt status of the interest income on the Notes.

Section Eight. Designation of Notes as Qualified Tax-Exempt Obligations. The Governing Body hereby finds, determines, represents and warrants, as follows:

1. The City is a duly created and validly existing municipal corporation of the State of Kansas in existence since 1948;

2. Since January 1, 1998, the City, any related issuer on behalf of the City and any subordinate issuing entity to the City have not issued bonds or notes or other tax-exempt obligations taken into account under Section 265(b)(3)(D) of an aggregate amount in excess of $10,000,000.

The Governing Body of the City hereby designates the Notes to be "qualified tax-exempt obligations" within the meaning and for the purposes of Section 265 of the Code, for calendar year 1998.

Section Nine. Findings and Representation as to Use. The Governing Body hereby finds, determines, represents and warrants that no portion of the proceeds of the sale of the Notes will be loaned to or will such proceeds or the Project be in any manner used on a basis different from the general public in the trade or business of any person, firm or corporation other than a governmental entity.
Section Ten. Further Authority. The duly elected and appointed officers of the City, including the Mayor, the City Clerk and the Finance Director, are hereby further authorized and directed to execute all documents and take such actions as they may deem necessary or advisable in order to carry out and perform the purposes of this Ordinance and to make ministerial alterations, changes or additions in the foregoing agreements, statements, instruments and other documents herein approved, authorized and confirmed which they may approve, and the execution or taking of such action shall be conclusive evidence of such necessity or advisability.

WHEREAS, K.S.A. 12-1736, et seq., provides that any city may procure a necessary site for and acquire or construct and alter, repair, reconstruct, remodel, replace or make additions to a public building or buildings and furnish and equip the same and issue bonds of such city to provide funds for such purpose; and

WHEREAS, the Governing Body of the City hereby finds and determines that it is necessary and advisable to undertake and proceed with the Project and to provide for the issuance of general obligation bonds of the City to the amount of $500,000, for the purpose of financing the costs of the Project and for the issuance of temporary notes of the City pending the issuance of said bonds; and

WHEREAS, Section 1.103-18 of the Income Tax Regulations issued by the Internal Revenue Service (the "Regulations") requires that the City make a prior declaration of its intent to reimburse itself for project expenditures made by the City prior to the date of issuance of notes or bonds, and the City desires to comply with the requirements of the Regulations with respect to this Project.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF LEAWOOD, KANSAS:

Section 1. That the Governing Body hereby finds and determines that it is necessary and desirable to undertake and hereby authorizes and approves the Project. The City Engineer is hereby authorized and directed to proceed with development of definitive plans for and construction of the Project.

Section 2. That the City hereby authorizes the issuance of general obligation bonds of the City not to exceed an amount of $500,000 to pay the costs of the Project. Pending issuance of such bonds and in order to provide funds to pay the costs of the
Project, the City is hereby authorized to issue from time to time temporary notes of the City as provided by law.

Section 3. That to the extent the City shall pay all or any portion of the costs of the Project from available funds on hand prior to the issuance of temporary notes or bonds, the City hereby declares that it reasonably expects to reimburse such expenditures out of the proceeds of such temporary notes and such general obligation bonds. All such expenditures so reimbursed shall be capital expenditures with the meaning of Section 1.150-1(h) of the Income Tax Regulations (the "Regulations").

Section 4. This declaration is a declaration of official intent adopted pursuant to Section 1.103-18 of the Regulations.

Section 5. ORDINANCE NO. 1734

AN ORDINANCE AMENDING SECTION 4-3 OF THE "AMENDMENT TO LEAWOOD DEVELOPMENT ORDINANCE", SPECIFICALLY PROVIDING FOR CHANGES IN THE SPECIAL USE PROVISIONS FOR ADMINISTRATIVE SPECIAL USE PERMITS; AND REPEALING EXISTING SECTION.

Be it ordained by the Governing Body of the City of Leawood:

Section 1. "Amendment to Leawood Development Ordinance" Amended. That Section 4-3 of the "Amendment to Leawood Development Ordinance", is hereby amended to read as follows:

4-3 SPECIAL USE PROVISIONS

4-3.1 Special Uses Designated

Any of the following uses may be located in any district by Special Use Permit of the Governing Body after notification of adjacent and abutting property owners, public hearing, and after recommendation of the Plan Commission, under such conditions as to operation, site development, signs, and time limit as may be deemed necessary in order that such use will not seriously injure the appropriate use of the neighboring property, and will conform to the general intent and purpose of this Ordinance and shall comply with the height and area regulations of the district in which they may be located unless a variance is specifically granted by the Board of Zoning Appeals.

1) Amusement parks, privately-owned baseball or athletic fields, race tracks;
2) Aviation fields or airports, under such restrictions as may be imposed to control noise, promote safety, and prevent undue danger to aircraft or to surrounding property;
3) Cemeteries, mausoleums, or crematories for the disposal of the dead;
4) Public and private schools;
5) Churches, synagogues and other places of worship;
6) Clubs, including those where alcoholic beverages are consumed;
7) Drive-in theaters;
8) Golf driving ranges, commercial or illuminated;
9) Gun clubs, skeet shoots, or target ranges;
10) Tennis courts and paved play areas, commonly referred to as "Sport Courts", hereinafter referred to as courts, may be approved as a special use. In order to prevent a negative influence on the neighborhood and creation of a potential nuisance use the following conditions shall be considered minimum requirements to be met.

a) Courts will only be considered as a special use if said court is accessory to the principal use it is intended to serve. Courts on separate lots will not be considered as stand alone structures.

b) Plans shall be submitted for approval and shall be based upon compliance with the following standards: 1) The need for screening to protect the privacy of adjoining properties, including noise and lighting, if proposed, and 2) surface runoff. These standards are to be considered minimums and other factors may be considerations for approval by the Plan Commission and/or Governing Body.

c) Courts shall not be constructed within a required front yard and shall be located a minimum of 10 feet from any rear or side lot line. Screen plantings of a height necessary to muffle noise and block lights may be required as a condition to the special use approval.

d) Fences for courts may be up to 12 feet in height and shall be of a green or black PVC coated chain link fabric. Said fences shall be located a minimum of 10 feet from any rear or interior side lot line.

e) Courts shall be designed so that the surface water will be carried to the street or storm drainage system on the owner's property, or by underground pipe to the public street or storm drainage system, or if across other ownership's, easements must be obtained. A statement along with a detailed drawing from a professional engineer, P.E., shall be submitted showing and stating that these drainage requirements have been or will be met.
f) All court lighting shall be subject to approval as a special use either in conjunction with the application for a sport court or separately as an addition at a later date. Existing courts requesting lighting must apply for same as a separate special use. A lighting plan shall be submitted which indicates the lumins (footcandles) at the property line and distance to the nearest structures. Footcandles shall not exceed 1.5 measured anywhere along the adjacent property lines. Illumination levels shall be measured with a photoelectric photometer having a spectral response similar to that of the human eye, following the standard spectral luminous efficiency curve adopted by the International Commission on Illumination. A lighted court may be required to have additional screening in order to mitigate the affect of lighting on any adjoining properties.

g) No court lighting shall be permitted between the hours of 10:00 p.m. and 7:00 a.m.

h) A landscape plan shall be submitted at time of application for special use indicating plant material, size, location and spacing proposed.

i) All courts shall require a building permit prior to grading and/or installation.

11) Hospitals; special care facilities for humans; not in include group homes as defined herein.

12) Campgrounds, picnic groves and fishing lakes, including minor and incidental concession facilities for patrons only;

13) Nursery sales office, building greenhouse, or area (wholesale or retail);

14) Nursing and convalescent homes; housing for the elderly; retirement centers and communities; not to include group homes as defined herein.

15) Outdoor poster panels or billboards; off-site promotional signs;

16) Veterinary clinics, dog kennels;

17) Radio, television and microwave towers;
18) Regulations for the Siting and Construction of Wireless Communication Antennae and Support Equipment

a) Statement of Intent

The Telecommunications Act of 1996 grants authority to local jurisdictions over decisions regarding the placement, construction, and modification of telecommunication towers, antennae and other wireless service facilities. As the City of Leawood has many diverse and unique landscapes that perpetuate the identity of its residential neighborhoods, protection of these valuable resources is paramount.

Accordingly, the governing body finds that the unregulated placement and design of wireless communication equipment results in visual clutter that adversely affects community aesthetics and damages the character that Leawood is built around. This ordinance is intended to provide minimum standards that ensure the communication needs of residents and business are met, while at the same time protecting the general safety and welfare of the community.

b) Purpose

A wireless communication facility or tower may be sited, constructed, designed or maintained in the City of Leawood provided that it is in conformance with the stated standards, procedures, and other requirements of this ordinance.

More specifically, these regulations are necessary to:

1. Provide for suitable location of wireless communication antennae, towers, and supporting ground equipment as to mitigate their effect on residential neighborhoods and land uses;

2. Maintain community aesthetics by minimizing the visual effects of towers through specific design and siting criteria;
3. Maximize the use of existing towers and other structures as to minimize the need for new tower locations;
4. Encourage co-location among wireless communication providers on existing and newly constructed sites in order to reduce the overall number of towers needed;
5. Promote the use of innovative camouflage and disguise techniques for antennae support structures as to integrate their appearance with the many architectural and natural themes found throughout the City of Leawood.

c) Special Use Permit Required
1. Communication towers shall be allowed, subject to approval of a special use permit granted by the Governing Body, after notification of adjacent and abutting property owners within 1000 feet of said property, public hearing, and after recommendation on the matter by the Plan Commission. Written notification shall be conducted by certified return receipt mail for those parcels within 200 feet of said property and via regular mail as a courtesy for parcels beyond the 200 foot mark.

Consideration of the special use shall be in accordance with the following as established by this ordinance:
A) Suitable location in accordance to the zoning districts and planned areas in which wireless communication facilities are allowed;
B) Maximum tower height;
C) Minimum setbacks of the wireless communication tower and supporting equipment from the property line;
D) Minimum buffer distance between the wireless communication tower and base supporting equipment from surrounding planned and existing residential areas;
E) Design, landscape, and screening of the wireless communication facility and all related equipment;

F) Co-location among users on newly proposed towers;

G) Minimum separation distances among towers to be constructed within the City of Leawood.

2. Prior to issuance of the special use permit for the operation of a wireless communication facility, the applicant will provide a performance or cash bond in an amount equal to twenty (20) percent of total construction costs for the facility. This bond will be secured for discretionary use by the City of Leawood for maintenance and/or removal of the facility should it become necessary to do so. The bond will be secured for the term of the special use permit plus one year.

3. **Pre-existing Wireless Communication Equipment.** Pre-existing wireless communication towers, antennae, and related equipment shall be considered a legal non-conforming use and shall not be required to meet the mandates of this ordinance (with the exception of 4-3.118(k)) until the expiration of their applicable special use permit. Routine maintenance, including the replacement of new antennae of like construction shall be permitted on such existing telecommunication facilities. A telecommunications facility that has received City approval as of the effective date of this ordinance in the form of a special use exception, but has not yet been constructed or placed in operation, shall be considered an existing telecommunications facility so long as such approval is current and not expired.

4. Placement of an antenna on a non-conforming structure shall be considered an expansion of the non-conforming structure unless prior approval specifically contemplated multiple antennae. The cumulative effect of any additional antennae and transmission
equipment placed upon a non-conforming structure must comply with the radio frequency radiation emission guidelines established by the FCC.

d) Zoning Location Requirements

1. Newly proposed wireless communication antennae, towers and supporting ground equipment shall not be permitted within any planned or existing residential area to include RP-A, RP-A5, R-1, RP-1, RP-2, RP-3, and RP-4 zoning districts. Exceptions to this may be provided for the following, upon approval of a special use permit:

   A) Church sites, when camouflaged as steeples, bell towers, etc.;

   B) Park sites, when camouflaged to be compatible with the natural elements of the park;

   C) Existing non-residential structures when designed to be architecturally integral and compatible with said structure.

2. Wireless communication towers, antennae, and supporting ground equipment shall be allowed, subject to approval of a special use permit, within the following planned or existing areas and districts:

   A) CP-O, Planned Office;

   B) CP-1, Planned Neighborhood Retail;

   C) CP-2, Planned General Retail;

   D) BP, Planned Business Park;

   E) PI, Planned Industrial;

   F) SD, Special Development;

   G) REC, Planned Recreation;

   H) AG, Agricultural (when master planned for commercial, industrial, or recreational uses).
All districts delineated within this ordinance shall be defined by the current, approved Zoning and Master Development Plan maps established for the City of Leawood.

3. **Necessary Site.** In order to construct a new wireless communication tower within any permitted area, the applicant must provide an inventory of existing antennae locations within a three mile radius of the proposed site. The applicant must also demonstrate, using technological and written evidence, that these sites are inadequate to fulfill the grid needs of the carrier, or that a reasonable co-location lease agreement could not be reached with the owners of said alternative sites. For the purpose of this ordinance "reasonable" shall be defined as the total of all costs related to the construction of a new tower.

4. **Grid Information.** At the time of site selection, the applicant shall demonstrate how the facility will impact the overall network of the carrier within the City of Leawood and adjacent Cities on both sides of the state line.

e) **Tower Height**

Evidence shall be supplied at the time of site selection that the proposed tower height is necessary to meet coverage needs. Any proposed wireless communication tower, within any allowed area, shall not exceed 150 feet in height (including lightning rod). However, exception to this rule may be granted provided that the applicant show clear evidence that additional height is needed to provide necessary signal coverage. However, no exception shall be granted in excess of thirty (30) feet above the prescribed height limit, thus establishing an absolute excepted height of 180 feet (unless specifically necessary for City directed Public Safety equipment). This evidence must be supported by radio frequency engineered documentation and the opinion of a qualified, non-biased telecommunications consultant hired by the City at the expense of the applicant.
This written opinion shall include a finding of concurrence that: (1) no other existing tower or structure can satisfy the coverage needs of the applicant, (2) no other location can fulfill the coverage needs of the applicant at the maximum tower height as established by this ordinance, (3) all costs associated with co-location on an acceptable existing tower or structure are substantially greater than the related construction costs of a new tower.

f) Setback and Buffer Requirements

1. Setbacks. Wireless communication towers and support equipment shall meet the applicable building setback limits of the zoning district in which the facility is to be sited. Communication towers may occupy a leased parcel on a site meeting the minimum lot size requirements for the zoning district in which the tower is located.

2. Distance From Residential Areas. Any proposed wireless communication tower shall be sited at a distance of at least 500 feet, in all directions, from the base of the tower to the property line of any existing or planned residential neighborhood, as shown on the approved City of Leawood Zoning or Master Development Plan Maps.

g) Design Requirements

1. Site Plan and Photo Simulations Required. Any application for construction of a new wireless communication facility and tower must provide a detailed site plan of the proposed project. This properly scaled site plan will include one page (including ground contours) that portrays layout of the site, as well as proposed and existing structures within 150 feet of the tower base. Access to and from the site, as well as dimensioned proposed and existing drives, must be included on this plan. Detailed exterior elevations (from all views) of the tower, screening wall, and all proposed buildings must also be submitted. Finally, a landscape plan detailing location, size, number and species of plant materials must be included for review by Planning and Development.
2. **Color and Finish.** Any approved wireless communication tower will be constructed of a monopole design. Guy and lattice-type towers will not be allowed within the City of Leawood. Exterior finish of the monopole will provide for a non-segmented, tapered appearance. Communication towers and related support buildings and equipment will be designed, camouflaged, and colored so that their appearance blends with the surrounding natural and built environment. If an antenna is installed on a structure other than a tower, the antenna and supporting electrical and mechanical equipment must be of a neutral color that is identical to, or closely compatible with, the color of the supporting structure so as to make the antenna and related equipment as visually unobtrusive as possible.

3. All approved towers greater than 75 feet in height must be designed and engineered to accommodate at least two sets of wireless communication antennae. Antennae bridges or platforms will only be allowed on communication towers that are designed for multiple users.

4. Towers less than 75 feet in height must be designed so that their antennae are internally placed, thus creating a smooth, non-projecting appearance. No antenna bridge or platform will be allowed on any tower less than 75 feet in height.

5. **Antennae on Structures Other Than Towers.** Antennae and communication support equipment located on any existing tower or suitable structure shall be of materials and color that are consistent with the surrounding elements so as to blend architecturally with said structure. Antennae on the rooftop or above a structure shall be screened, constructed and/or colored to match the structure to which they are attached. Antennae mounted on the side of a building or structure shall be painted to match the color of the building or structure or the background against which they are most commonly seen. Microwave antennae exceeding 12 inches in diameter on a roof or building-mounted facility shall not exceed the height of the structure to which they are attached, unless fully enclosed. If an accessory equipment shelter is present, it must blend with the surrounding building(s) in architectural character and color.
6. Towers, antennae and cabinet equipment used for wireless communication purposes shall meet or exceed all minimum structural and operational standards as established by the FCC, FAA, EPA and other applicable federal regulatory agencies. If such standards and regulations are changed, then the owners of the towers and antennae governed by this ordinance shall bring such towers and antennae into compliance with such revised standards and regulations within six (6) months of the effective date of such standards and regulations unless a more stringent compliance schedule is mandated by the controlling federal agency. Failure to bring towers and antennae into compliance with such revised standards and regulations shall constitute grounds for the removal of the tower or antenna at the owner’s expense. Any such removal by the governing authority shall be in the manner provided within 4-3.1 18)k) of this ordinance.

7. An engineer’s certification that anticipated levels of electromagnetic radiation to be generated by facilities on the site, including the effective radiated power (ERP) of the antenna, shall be within the guidelines established by the FCC. The cumulative effect of all antennae and transmitting equipment on a site will also comply with the radio frequency radiation emission guidelines established by the FCC. An antenna radiation pattern shall be included for each antenna, along with directional data concerning the pointing of any directive antennae.

8. All telecommunications facilities shall be equipped with an appropriate anti-climbing device or other similar protective device to prevent unauthorized access to the telecommunications facility.

9. It is the responsibility of the carrier to promptly resolve any electromagnetic interference problems created per FCC regulations.

10. All parking areas and drives associated with any wireless communications facility shall comply with applicable provisions for such facilities in each zoning district, except that the Plan Commission or Governing Body may waive the requirements for curbing and guttering when they are not needed for drainage purposes.
h) Lighting, Landscaping, and Screening Requirements

1. **Screening Wall.** All buildings, cabinets, and other ground support equipment associated with a wireless communication site will be screened with a full perimeter wall. This wall is to be constructed of concrete block and surfaced with a material (stucco, brick, etc.) to match the architecture of surrounding structures. The minimum height of the wall will be 6 feet from ground level.

2. **Landscape Materials.** Landscaping in the form of pines and other flowering and deciduous trees is required to the outside of the perimeter screening wall. The standard buffer shall consist of a landscaped strip at least six (six) feet wide outside the perimeter screening wall. Pines are to be a minimum of 6 feet in height, while other trees are to have a minimum 2 inch caliper. The owner of the wireless communication facility shall be responsible for maintenance of all related landscape and screening materials. Existing mature tree growth and natural forms on the site shall be preserved to the maximum extent possible.

3. **Authority to Trim Trees.** An operator shall have authority to trim trees and shrubbery upon and overhanging streets and other public property so as to prevent the branches and foliage of such trees and shrubbery from coming in contact and interfering with the wires, cables and other facilities of an operator. All trimming shall be done under the supervision and direction of the City.

4. **Lighting.** Towers shall not be artificially lighted, unless required by the FAA or applicable authority. If lighting is required, the governing authority may review the available lighting alternatives and approve the design that would cause the least disturbance to the surrounding views.

i) Separation Distances

No newly proposed wireless communication tower shall be allowed to locate within 1000 feet of an existing tower. This distance shall be measured from the base of the existing tower to the base site location of the proposed tower.

j) Co-location
1. **Multiple User Towers.** All approved towers greater than 75 feet in height must be designed to accommodate at least two sets of wireless communication antennae. Prior to issuance of a building permit, the applicant and property owner must provide either of the following: (1) signed, executed lease agreements with other wireless service providers who desire to co-locate on the proposed tower, or (2) a signed statement of intent that guarantees non-discriminatory pricing for access to the tower by any competing carrier, and that the price for access will be based on the current market rate for co-location. This market rate will be established by an independent research consultant hired at the expense of the applicant. Failure to provide co-location opportunities to (or negotiate in good faith with) alternative carriers may constitute a finding of non-compliance with 4-3.1 18)c)1.F of this ordinance, and thus be grounds for revocation of the special use permit, and shall be cause for the withholding of future permits to same owners to install, build, or modify antennae or support structures within the City of Leawood.

2. **Existing Site Improvement.** Alterations or improvements to existing wireless communication sites shall be allowed, provided that these modifications are implemented to accommodate additional users and provided that tower height does not exceed the maximum established by this ordinance. Application for alteration to an existing site will require approval of new special use permit, including notification and public hearing.

3. Antennae may be added 'as of right' to any approved multi-user tower after securing proper building permits, provided that their addition does not exceed the tower capacity approved by the original special use permit. Any proposed antenna that exceeds the originally approved capacity limit shall be considered a revised application, and shall require a special use permit to locate.

k) Abandoned Or Unsafe Towers and Antenna Support Structures

Any tower or antenna support structure which is occupied by inactive antennae for a period of 12 (twelve) months shall be considered abandoned and a nuisance, and will be removed at the owner's expense within 90 (ninety) days. Any tower or
antenna support structure which is not maintained to a suitable degree of safety and appearance (as determined by the Director of Planning, Chief Building Inspector, and any applicable code) will also be considered a nuisance and will be upgraded or removed at the owner's expense. In the future should the levels of radio frequency radiation emitted by a wireless communication facility be determined a threat to human health or safety, the facility shall be cured or immediately removed (within 90 days) at the owner's expense. This finding must be either mandated by federal legislative action, or based on regulatory guidelines established by the FCC.

i) Building Codes and Inspection

1. To insure the structural integrity of towers, the owner of a tower shall ensure that it is (constructed and) maintained in compliance with standards contained in applicable local building codes and the applicable standards for towers that are published by the Electronic Industries Association, as amended from time to time. If, upon inspection, the governing authority concludes that a tower fails to comply with such codes and standards and constitutes a danger to persons or property, then upon notice being provided to the owner of the tower, the owner shall have thirty (30) days to bring such tower into compliance with such standards. If the owner fails to bring such tower into compliance within said thirty (30) days, the governing authority may order the removal or cause the removal of such tower at the owner's expense.

2. At least every 24 months, the tower shall be inspected by an expert who is regularly involved in the maintenance, inspection and/or erection of communication towers. At a minimum, this inspection shall be conducted in accordance with the tower inspection check list provided in the Electronic Industries Association (EIA) Standard 222, 'Structural Standards for Steel Antenna Towers and Antenna Support Structures.' A copy of such inspection record shall be provided to the City. Said inspection shall be conducted at the facility owner's expense.
3. In all areas of the city where the cables, wire, and other like facilities of public utilities exist underground, or are required by the City to be placed underground, an operator shall also place its cables, wires, or other facilities underground.

4. In the case of any disturbance to a street or other public property, caused by an operator during the course of constructing or maintaining its system facilities, an operator shall, at its own expense, replace and restore all paving, sidewalk, driveway, landscaping, or surface any street or public property disturbed in as good or better condition as before the disturbance in accordance with applicable federal, state, and local laws, rules, regulations or administrative decisions. The duty to restore the street or other public property shall include the repair of any area identified by the Director of Public Works as being weakened or damaged as a result of a cut or to other invasion of the pavement of a street or other public property.

m) Exclusions

The following shall be exempt from this ordinance:

1. Any tower and antenna under seventy (70) feet in total height which is owned and operated by an amateur radio operator licensed by the FCC;

2. Any device designed for over the air reception of television broadcast signals, multi-channel, multi-point distribution service or direct broadcast satellite service.

n) Penalties

This ordinance shall be in full force and effect upon its enactment and approval, and any person found to be in violation of any of the provisions of this ordinance shall be subject to a fine of up to $500 for each day of violation.

o) Severability

If any section, subsection sentence, clause, phrase or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct and independent
provision and such holding shall not affect the validity of the remaining portions hereof.

p) Repeal of Laws in Conflict

This ordinance supersedes all ordinances or part of ordinances adopted prior hereto which are in conflict herewith, to the extent of such conflict.

Specialized Mobile Radio: A mobile radio which is utilized in conjunction with ESMR, which includes interconnect and dispatch services.

(Ground) support equipment: Any cabinet, building, power source or other equipment constructed on the ground, and used to assist antennae in the generation or receipt of electromagnetic communication signals.

Telecommunications: The transmission, between or among points as specified by the user, of information of the user's choosing, without change in the form or content of the information as sent or received.

Tower: A structure designed to support at least one or more communication antenna. This does not include structures owned and operated by amateur radio personnel licensed by the FCC.

Tower height: The vertical distance measured from the base of the antenna support structure at grade to the highest point of the structure. If the support structure is on a sloped grade, then the average between the highest and lowest grades shall be used in calculating the tower height.

Wireless communication facility: Any complex, including tower, antennae, and ground support equipment, used for the transmission or receipt of electromagnetic communication signals.

19) Television and amateur radio antennae exceeding district height limitations.
20) Reservoirs, towers, filter beds, or water treatment plants;

22) Wastewater treatment plant;
23) Motor hotels, motels, hotels, and convention centers;
24) Buildings, structures, and premises for public utility services, or public service corporations;
25) Temporary use of land or building for commercial or industrial purposes, provided that any building or structure constructed thereon which is not otherwise permitted in the District in which such land is situated shall be temporary, and any stored equipment or material shall be removed upon the date of expiration of the special use permit, which permit shall be valid for not more than 2 years but may be renewed after public hearing;

26) Assembly halls, community centers, philanthropic organizations;

27) Child care centers, family day care homes, preschools, nursery schools, Montessori schools, private kindergartens, day care homes and group day care homes; not to include group homes as defined herein.

32) Horse pasturing on lots of less than 3 acres in residential districts.

33) Temporary self contained health care suites located within an attached garage are intended to provide an "in home" physical care facility as a temporary alternative to a nursing home environment. It is not intended to provide long term care lodging for anyone that would be better served by a more permanent solution. Such permanent alternate solutions may require an alteration to the home, an addition onto the home, or off-site care by a health care institution. Such use is allowed as a special use provided the following conditions are met:

a) The suites are to be freestanding self contained units including independent heating and air conditioning units and plumbing systems.

b) Not more than 2 persons shall be housed in such suite provided said housing is necessitated by a physical impairment or health care need of
one or both persons and said health care need is being met by occupant or occupants of the existing home. Said person(s) residing in such health care suite shall be either an occupant or a relative of the occupant of the home except in cases when an overnight health care provider is required.

c) A letter from a licensed doctor of medicine or osteopathy shall be submitted, along with the application for special use, verifying the need for such health care suite by the applicant or prospective resident of said suite.

d) Health care suites shall be limited to a maximum of 2 years duration. Such use may only be continued for 1 additional year and only after review and approval by the Plan Commission and City Council. Any amount of time beyond 3 years will require a permanent solution to be specified at the time the additional year is requested. Such solution shall be made a condition of approval if granted. At the end of the special use, the unit shall be removed and the garage restored to its former condition.

e) Any exterior modification of the home necessitated by the suite, such as the temporary removal of the garage door(s) to facilitate a private entry, windows, or heating or cooling units, shall be replaced with materials of an architectural likeness to the existing home. Samples of materials proposed to be used shall be submitted with the application for approval by the Plan Commission.

f) Additional written notification shall be required to the applicant's homes association and to all property owners within 200 feet of the applicant's property.

g) Because the installation of such health care suite temporarily removes the enclosed off-street parking spaces required by ordinance, the applicant shall submit an interim plan for dealing with off-street parking for the duration of the special use.
The Director of Planning may upon application by the proponent issue an Administrative Special Use Permit for the use of a specified parcel of land for such temporary short-term uses as trade shows, street fairs, expositions, promotional ventures, entertainment, seasonal sales, balloons, search lights, and tents, provided the following conditions are met:

a) The applicant shall submit in written form a complete description of the proposed use, including estimated accumulation of automobiles and persons, hours of operation, and other characteristics and effects on the neighborhood.

b) The applicant shall submit a site plan showing the location of any proposed structure.

c) The short-term special use shall not be operated longer than 10 consecutive days.

d) No more than 6 special event permits per calendar year shall be issued administratively at any location. Any additional permits may be granted by the Governing Body.

1) Fees for administrative special use permits issued in accordance with Section 4-3.1 (33) d) shall be established by the fee schedule approved yearly by the governing body. If an applicant applies for all six allowable administrative special use permits at one time, the applicant’s fee will be reduced to 2/3 of the total ordinary cost. (For example, if the ordinary fee is $50 per permit, an applicant applying for the six allowable permits at one time will pay only $200 instead of the $300 the applicant would pay is applying for the permits on separate occasions within any given year.)

e) Upon the cessation of the short-term special use, all materials and equipment shall be promptly removed and the property restored to its normal condition.

f) Any structure used in conjunction with the special event shall be the subject of a valid building permit or tent permit.
g) The special event shall not cause undue traffic congestion or accident potential given anticipated attendance and the design of adjacent streets, intersections, and traffic controls.

h) The activity shall not cause the overcrowding of parking facilities given anticipated attendance and the possible reduction in the number of available spaces used by the event itself.

i) The special event shall not impair the usefulness, enjoyment or value of adjacent property due to the generation of excessive noise, smoke, odor, glare, litter or visual pollution.

j) If, after giving full consideration to the effect of the requested special use on the neighborhood and the community, the Director of Planning deems the special use reasonable, the special use permit for the short-term use may be approved. Conditions of operation, provision for surety bond, and other reasonable safeguards may be written into the special use permit. Such permit may be approved in any zoning district.

k) Any applicant denied an Administrative Special Use Permit shall be notified in writing of the reasons for the denial and of the opportunity to appeal the denial to the Governing Body.

35) House or structure relocation to a permanent site within the City Limits provided the following conditions can be met:

a) The house or structure shall be found to be compatible with the surrounding houses or structures and neighborhood including, but not limited to, size, design or general architecture, lot location, and lot size;

b) The structure be made habitable within 6 months of relocation;

c) the applicant shall conform to the provisions of Article 6. "Removal of Structures" of the Leawood City Code.

36) Adult uses or adult businesses, as defined in 4-9.2 of this Ordinance, which holds and unexpired and unrevoked Special Use Permit as provided in 4-9.7 of this
Ordinance. Said adult uses or adult businesses are subject to the locational limitations of 4-9.4 of this Ordinance. Notwithstanding any other provisions of this Section, no other conditions as to operation, site development, signs or time limits may be imposed except as required by 4-9.1 to 4-9.17 of this ordinance.

Section 2. Existing Section Repealed. That existing Section 4-3 of the "Amendment to Leawood Development Ordinance" is hereby repealed. (Prior law: Ordinance No. 1693)

Section 3. Take effect. That this ordinance shall take effect and be in force from and after its publication in the official City newspaper.

ORDINANCE NO. 1734

AN ORDINANCE AMENDING SECTION 4-3 OF THE 'AMENDMENT TO LEAWOOD DEVELOPMENT ORDINANCE', SPECIFICALLY PROVIDING FOR CHANGES IN THE SPECIAL USE PERMITS FOR ADMINISTRATIVE SPECIAL USE PERMITS; AND REPEALING EXISTING SECTION.

Repealed by the Governing Body of the City of Leawood:

Section 1. Amendment to Leawood Development Ordinance. That Section 4-3 of the Amendment to Leawood Development Ordinance is hereby amended to read as follows:

4-3 SPECIAL USE PROVISIONS

4-3.1 Special Uses Designated

Any of the following uses may be located in any district by Special Use Permit of the Governing Body after notification of adjacent and abutting property owners, public hearing, and after recommendation of the Plan Commission, under such conditions as to operation, site development, signs, and time limit as may be deemed necessary in order that such use will not seriously injure the appropriate use of the neighboring property, and will conform to the general intent and purpose of this Ordinance and shall comply with the height and area regulations of the district in which they may be located unless a variance is specifically granted by the Board of Zoning Appeals.

1) Amusement parks, privately-owned baseball or athletic fields, race tracks;

2) Aviation fields or airports, under such restrictions as may be imposed to control noise, promote safety, and prevent undue danger to aircraft or to surrounding property;

3) Cemeteries, mausoleums, or crematories for the disposal of the dead;

4) Public and private schools;

5) Churches, synagogues and other places of worship;

6) Clubs, including those where alcoholic beverages are consumed;

7) Drive-in theaters;

8) Golf driving ranges, commercial or illuminated;

9) Gun clubs, skeet shoots, or target ranges;

10) Tennis courts and paved play areas, commonly referred to as "Sport Courts", hereinafter referred to as courts, may be approved as a special use. In order to prevent a negative influence on the neighborhood and creation of a potential nuisance use the following conditions shall be considered minimum requirements to be met.

a) Courts will only be considered as a special use if said court is accessory to the principal use it is intended to serve. Courts on separate lots will not be considered as stand alone structures.

b) Plans shall be submitted for approval and shall be based upon compliance with the following standards: 1) The need for screening to protect the privacy of adjoining properties, including noise and lighting, if proposed, and 2) surface runoff. These standards are to be considered minimums and other factors may be considered for approval by the Plan Commission and/or Governing Body.

c) Courts shall not be constructed within a required front yard and shall be located a minimum of 10 feet from any rear or side lot line. Screen plantings of a height necessary to muffle noise and block lights may be required as a condition to the special use approval.

d) Fences for courts may be up to 12 feet in height and shall be of a green or black PVC coated chain link fabric. Said fences shall be located a minimum of 10 feet from any rear or interior side lot line.

e) Courts shall be designed so that the surface water will be carried to the street or storm drainage systems on the owner's property, or by underground pipe to the public street or storm drainage system, or if across other ownership's, easements must be obtained. A statement along with a detailed drawing from a professional engineer, P.E., shall be submitted showing and stating that these drainage requirements have been or will be met.

f) All court lighting shall be subject to approval as a special use either in conjunction with the application for a sport court or separately as an addition at a later date. Existing courts requesting lighting must apply for same as a separate special use. A lighting plan shall be submitted which indicates the lumens (footcandles) at the property line and distance to the nearest structures. Footcandles shall not exceed 1.5 measured anywhere along the adjacent property lines. Illumination levels shall be measured with a photometric photometer having a special response similar to that of the human eye, following the standard spectral luminous efficiency curve adopted by the International Commission on Illumination. A lighted court may be required to have additional screening in order to mitigate the effect of lighting on any adjoining properties.

g) No court lighting shall be permitted between the hours of 10:00 p.m. and 7:00 a.m.

h) A landscape plan shall be submitted at time of application for special use including plant material, size, location and spacing proposed.

i) All courts shall require a building permit prior to grading and/or installation.

11) Hospitals; special care facilities for humans, not included in group homes as defined herein;

12) Campgrounds, picnic groves and fishing lakes, including minor and incidental concealment facilities for patrons only;

13) Nursery sales office, building greenhouse, or area (wholesale or retail);

14) Nursing and convalescent homes, housing the elderly, retirement centers and communities, not to include group homes as defined herein;

15) Outdoor calendars or billboards; off-site promotional signs;

18) Regulations for the Siting and Construction of Wireless Communication Antennas and Support Equipment

a) Statement of Intent

The Telecommunications Act of 1996 grants authority to local jurisdictions over decisions regarding the placement, construction, and modification of telecommunication towers, antennas and other wireless service facilities. As the City of Leawood has many diverse and unique landscapes that perpetuate the identity of its residential neighborhoods, protection of these valuable resources is paramount.

Accordingly, the governing body finds that the unregulated placement and design of wireless communication equipment results in visual clutter that adversely affects community aesthetics and damages the character that Leawood is built around. This ordinance is intended to provide minimum standards that ensure the communication needs of residents and businesses are met, while at the same time protecting the general safety and welfare of the community.

b) Purpose

A wireless communication facility or tower may be sited, constructed, designed or maintained in the City of Leawood provided that it is in conformance with the stated standards, procedures, and other requirements of this ordinance.

More specifically, these regulations are necessary to:

1. Provide for suitable location of wireless communication antennas, towers, and supporting ground equipment as to mitigate their effect on residential neighborhoods and land users.

2. Maintain community aesthetics by minimizing the visual effects of towers through specific design and siting criteria;
3. Maximize the use of existing towers and other structures as to minimize the need for new tower locations;

4. Encourage co-location among wireless communication providers on existing and newly constructed sites in order to reduce the overall number of towers needed;

5. Promote the use of innovative camouflage and disguise techniques for antenna support structures to integrate their appearance with the many architectural and natural themes found throughout the City of Lawndale.

Special Use Permit Required

1. Communication towers shall be allowed, subject to approval of a special use permit granted by the Governing Body, after notification of adjacent and abutting property owners within 1000 feet of said property, public hearing, and after recommendation on the matter by the Plan Commission. Written notification shall be conducted by certified return receipt mail for those parcels within 200 feet of said property and via regular mail as a courtesy for parcels beyond the 200 foot mark.

Consideration of the special use shall be in accordance with the following as established by this ordinance:

a) Suitable location in accordance to the zoning districts and planned areas in which wireless communication facilities are allowed;

b) Maximum tower height;

c) Minimum setbacks of the wireless communication tower and supporting equipment from the property line;

d) Minimum buffer distance between the wireless communication tower base supporting equipment from surrounding planned and existing residential areas;

e) Design, landscape, and screening of the wireless communication facility and all related equipment;

f) Co-location among users on newly proposed towers;

g) Minimum separation distances among towers to be constructed within the City of Lawndale.

2. Prior to issuance of the special use permit for the operation of a wireless communication facility, the applicant will provide a performance or cash bond in an amount equal to twenty (20) percent of total construction costs for the facility. This bond will be secured for dispositive use by the City of Lawndale for maintenance and/or removal of the facility should it become necessary to do so. The bond will be secured for the term of the special use permit plus one year.

3. Pre-existing Wireless Communication Equipment. Pre-existing wireless communication towers, antennas, and related equipment shall be considered a legal non-conforming use and shall not be required to meet the mandates of this ordinance (with the exception of 4.3.1 (b)(a) until the expiration of their applicable special use permit. Routine maintenance, including the replacement of new antennas, if construction shall be permitted on such existing telecommunication facilities. A telecommunication facility that has received City approval as of the effective date of this ordinance may have a special use exception, as long as it has not been constructed or placed in operation, shall be considered an existing telecommunications facility so long as such approval is current and not expired.

4. Placement of an antenna on a non-conforming structure shall be considered an expansion of the non-conforming structure unless prior approval specifically contemplated multiple antennas. The cumulative effect of any additional antennas and transmission equipment placed upon a non-conforming structure must comply with the radio frequency radiation emission guidelines established by the FCC.

d) Zoning Location Requirements

1. Newly proposed wireless communication antennas, towers and supporting ground equipment shall not be permitted within any planned or existing residential area to include RP-4, RP-AS, R-1, RP-1, RP-2, RP-5, and RP-4 zoning districts. Exceptions to this may be provided for the following on approval of a special use permit:

a) Church sites, when camouflaged as steeples, bell towers, etc.;

b) Park sites, when camouflaged to be compatible with the natural elements of the park;

c) Existing non-residential structures when designed to be architecturally integral and compatible with said structure.

2. Wireless communication towers, antennas, and supporting ground equipment shall be allowed, subject to approval of a special use permit, within the following planned or existing areas and districts:

a) CP-O, Planned Office;

b) CP-1, Planned Neighborhood Retail;

c) CP-2, Planned General Retail;

d) BP, Planned Business Park;

e) PII, Planned Industrial;

f) SD, Special Development;

g) REC, Planned Recreation;

h) AG, Agricultural (where master plan for commercial, industrial, or recreational use);

All districts delineated within this ordinance shall be defined by the current approved Zoning and Master Development Plan maps established for the City of Lawndale.

3. Necessary Site. In order to construct a new wireless communication tower within any permitted area, the applicant must provide an inventory of existing antenna locations within a three mile radius of the proposed site. The applicant must also demonstrate, using technological and written evidence, that these sites are inadequate to fulfill the grid needs of the carrier, or that a reasonable co-location lease agreement could not be reached with the owners of said alternate sites. For the purpose of this ordinance "reasonable" shall be defined as a total of all costs related to the construction of a new tower.

4. Grid Information. At the time of site selection, the applicant shall demonstrate how the facility will impact the overall network of the carrier within the City of Lawndale and adjacent Cities on both sides of the state line.

e) Tower Height

Evidence shall be supplied at the time of site selection that the proposed tower height is necessary to meet coverage needs. Any proposed wireless communication tower, within any allowed area, shall not exceed 150 feet in height (including lightning rod). However, exception to this rule may be granted provided that the applicant can demonstrate clear evidence that additional height is needed to provide necessary signal coverage. However, no exception shall be granted in excess of thirty (30) feet above the prescribed height limit, thus establishing an absolute maximum of 180 feet (unless specifically necessary for City directed Public Safety equipment). This evidence must be supported by radio frequency engineered documentation and the opinion of a qualified, non-biased telecommunications consultant hired by the City at the expense of the applicant.

ORDINANCE NO. 1734
CONTINUED FROM PRECEDING PAGE

This written opinion shall include a finding of concurrence that: (1) no other existing tower or structure can satisfy the coverage needs of the applicant, (2) no other location can fulfill the coverage needs of the applicant at the maximum tower height as established by this ordinance, (3) all costs associated with co-location on an acceptable existing tower or structure are substantially greater than the related construction costs of a new tower.

Setback and Buffer Requirements

1. Setbacks. Wireless communication towers and support equipment shall meet the applicable building setback limits of the zoning district in which the facility is to be sited. Communication towers may occupy a leased parcel on a site meeting the minimum lot size requirements for the zoning district in which the tower is located.

2. Distance From Residential Areas. Any proposed wireless communication tower shall be sited at a distance of at least 500 feet, in all directions, from the base of the tower to the property line of any existing or planned residential neighborhood, as shown on the approved City of Leawood Zoning or Master Development Plan Maps.

Design Requirements

1. Site Plan and Photo Simulations Required. Any application for construction of a new wireless communication facility and tower must provide a detailed site plan of the proposed project. This properly scaled site plan will include one page (including ground contours) that portrays layout of the site, as well as proposed and existing structures within 150 feet of the tower base. Access to and from the site, as well as dimensioned proposed and existing drives, must be included on the plan. Detailed exterior elevations (from all views) of the tower, serving wall, and all proposed buildings must also be submitted. Finally, a landscape plan detailing location, size, number and species of plant materials must be included for review by Planning and Development.

2. Color and Finish. Any approved wireless communication tower will be constructed of a monopole design. Guy and lattice-type towers will not be allowed within the City of Leawood. Exterior finish of the monopole will provide for a non-segmented, tapered appearance. Communication towers and related support buildings and equipment will be designed, camouflaged, and colored so that their appearance blends with the surrounding natural and built environment. If an antenna is installed on a structure other than a tower, the antenna and supporting electrical and mechanical equipment must be of a neutral color that is identical to, or closely compatible with, the color of the supporting structure so as to make the antenna and related equipment as visually unobtrusive as possible.

3. All approved towers greater than 75 feet in height must be designed and engineered to accommodate at least two sets of wireless communication antennae. Antennae bridges or platforms will only be allowed on communication towers that are designed for multiple users.

4. Towers less than 75 feet in height must be designed so that their antennae are internally placed, thus creating a smooth, non-projecting appearance. No antenna bridge or platform will be allowed on any tower less than 75 feet in height.

5. Antennae on Structures Other Than Towers. Antennae and communication support equipment located on any existing tower or suitable structure shall be of materials and color that are consistent with the surrounding elements so as to blend architecturally with said structure. Antennae on the rooftop or above a structure shall be screened, constructed and/or covered to match the structure to which they are attached. Antennae mounted on the side of a building or structure shall be painted to match the color of the building or structure or the background against which they are most commonly seen. Microwave antennae exceeding 12 inches in diameter, on a roof or building-mounted facility shall not exceed the height of the structure to which they are attached, unless fully enclosed. If an accessory equipment shelter is present, it must blend with the surrounding building(s) in architectural character and color.

6. Towers, antennae and cabinet equipment used for wireless communication purposes shall meet or exceed all minimum structural and operational standards as established by the FCC, FAA, EPA and other applicable federal regulatory agencies. If such standards and regulations are changed, then the owners of the towers and antennae governed by this ordinance shall bring such towers and antennae into compliance with such revised standards and regulations within six (6) months of the effective date of such standards and regulations unless a more stringent compliance schedule is mandated by the controlling federal agency. Failure to bring towers and antennae into compliance with such revised standards and regulations shall constitute grounds for the removal of the tower or antenna at the owner's expense. Any such removal by the governing authority shall be in the manner provided within 43.31.19(3) of this ordinance.

7. An engineer's certification that anticipated levels of electromagnetic radiation to be generated by facilities on the site, including the effective radiated power (ERP) of the antenna, shall be within the guidelines established by the FCC. The cumulative effect of all antennae and transmitting equipment on a site will also comply with the radio frequency radiation emission guidelines established by the FCC. An antenna radiation pattern shall be included for each antenna, along with directional data concerning the pointing of any directive antennae.

8. All telecommunications facilities shall be equipped with an appropriate anti-climbing device or other similar protective device to prevent unauthorized access to the telecommunications facility.

9. It is the responsibility of the carrier to promptly resolve any electromagnetic interference problems created per FCC regulations.

10. All parking areas and drives associated with any wireless communications facility shall comply, with applicable provisions for such facilities in each zoning district, except that the Planning Commission or Governing Body may waive the requirements for curbing and guttering when they are not needed for drainage purposes.

9. Lighting, Landscaping, and Screening Requirements

1. Screening Wall. All buildings, cabinets, and other ground support equipment associated with a wireless communication site will be screened with a full perimeter wall. This wall is to be constructed of concrete block and surfaced with a material (stucco, brick, etc.) to match the architecture of surrounding structures. The maximum height of the wall will be 6 feet from ground level.

2. Landscape Materials. Landscaping in the form of pines and other flowering and deciduous trees is required to the outside of the perimeter screening wall. The standard buffer shall consist of a landscaped strip at least six (6) feet wide outside the perimeter screening wall. Pines are to be a minimum of 6 feet in height, while other trees are to have a minimum 2 inch caliper. The owner of the wireless communication facility shall be responsible for maintaining all related landscape and screening materials. Existing mature tree growth and natural forms on the site shall be preserved to the maximum extent possible.

3. Authority to Trim Trees. An operator shall have authority to trim trees and shrubbery upon and overhanging streets and other public property so as to prevent the branches and foliage of such trees and shrubbery from coming in contact and interfering with the wires, cables and other facilities of an operator. All trimming shall be done under the supervision and direction of the City.

4. Lighting. Towers shall not be artificially lighted, unless required by the FAA or applicable authority, if lighting is required, the governing authority may review the available lighting alternatives and approve the design that would cause the least disturbance to the surrounding views.

Separation Distances

No newly proposed wireless communication tower shall be allowed to locate within 1000 feet of an existing tower. This distance shall be measured from the base of the existing tower to the base site location of the proposed tower.

Co-location
ORNIDNCE NO. 1734
CONTINUED FROM PRECEDING PAGE

1. Multiple User Towers. All approved towers greater than 75 feet in height must be designed to accommodate at least two sets of wireless communication antennae. Prior to issuance of a building permit, the applicant and property owners shall provide either of the following: (1) signed, executed lease agreements with wireless service providers who desire to co-locate on the proposed tower, or (2) a signed statement of intent that guarantees non-discriminatory pricing for access to the tower by any competing carrier, and that the price for access will be based on the current market rate for co-location. This market rate will be established by an independent research consultant hired at the expense of the applicant. Failure to provide co-location opportunities to (or negotiate in good faith with) alternative carriers may constitute a finding of non-compliance with 4-3.11(b)(1) of this ordinance, and thus be grounds for revocation of the special use permit, and shall be cause for the withholding of future permits to same owners to install, build, or modify antennae or support structures within the City of Lemonwood.

2. Existing Site Improvement. Alterations or improvements to existing wireless communication sites shall be allowed, provided that these modifications are implemented to accommodate additional users and provided that tower height does not exceed the maximum established by this ordinance. Application for alteration to an existing site will require approval of new special use permit, including notification and public hearing.

3. Antennae may be added 'as of right' to any approved multi-user tower after securing proper building permits, provided that their addition does not exceed the tower capacity approved by the original special use permit. Any proposed antenna that exceeds the originally approved capacity limit shall be considered a revised application, and shall require a special use permit to locate.

k) Abandoned Cr Unsafe Towers and Antenna Support Structures

An antenna support structure which is occupied by inactive antennae for a period of 12 (twelve) months shall be considered abandoned and a nuisance, and will be removed at the owner's expense within 90 (ninety) days. Any tower or antenna support structure which is not maintained to a suitable degree of safety and appearance (as determined by the Director of Planning, Chief Building Inspector, and any applicable code) will also be considered a nuisance and will be upgraded or removed at the owner's expense. In the future such should the levels of radio frequency radiation emitted by a wireless communication facility be determined a threat to human health or safety, the facility shall be cured or removed within 30 (thirty) days at the owner's expense. This finding must be either mandated by federal legislative action, or based on regulatory guidelines established by the FCC.

l) Building Codes and Inspection

1. To ensure the structural integrity of towers, the owner of a tower shall ensure that it is (constructed and) maintained in compliance with standards contained in applicable local building codes and the applicable standards for towers that are published by the Electronic Industries Association, as amended from time to time. If, upon inspection, the governing authority concludes that a tower fails to comply with such codes and standards and constitutes a danger to persons or property, then upon notice being provided to the owner of the tower, the owner shall have thirty (30) days to bring such tower into compliance with such standards. If the owner fails to bring such tower into compliance within thirty (30) days, the governing authority may order the removal or cause the removal of such tower at the owner's expense.

2. At least every 24 months, the tower shall be inspected by an expert who is regularly involved in the maintenance, inspection, construction, or demolition of communication towers. At a minimum, this inspection shall be conducted in accordance with the tower inspection checklist provided in the Electronic Industries Association (EIA) Standard 222, 'Structural Standards for Steel Antenna Towers and Antenna Support Structures.' A copy of such inspection record shall be provided to the City. Said inspection shall be conducted at the facility's expense.

f) Any structure used in conjunction with the special event shall be the subject of a valid building permit or tenant permit.

g) The special event shall not cause undue traffic congestion or accident potential given anticipated attendance and the design of adjacent streets, intersections, and traffic controls.

h) The activity shall not cause the overcrowding of parking facilities given anticipated attendance and the possible reduction in the number of available spaces used by the event itself.

i) The special event shall not impair the usefulness, enjoyment or value of the adjacent property due to the generation of excessive noise, smoke, odors, glare, litter or visual pollution.

j) If, after giving full consideration to the effect of the requested special use on the neighborhood and the community, the Director of Planning deems the special use reasonable, the special use permit for the short-term use may be approved. Conditions of operation, provision for security bond, and other reasonable safeguards may be written into the special use permit. Such permits may be approved in any zoning district.

k) Any applicant denied an Administrative Special Use Permit shall be notified in writing of the reasons for the denial and of the opportunity to appeal the denial to the Governing Body.

35) House or structure relocation to a permanent site within the City Limits provided the following conditions can be met:

Said adult uses or adult businesses are subject to the limitations of 4-3.9 of this Ordinance. Notwithstanding any other provisions of this Section, no other conditions as to operation, site development, signs or time limits may be imposed except as required by 4-3.1 to 4-3.17 of this ordinance.

ORDINANCE NO. 1731 C

AN ORDINANCE OF THE CITY OF LEAWOOD REGULATING ADULT USES AND REPEALING AND REPLACING CERTAIN SECTIONS OF THE LEAWOOD MUNICIPAL CODE REGULATING ADULT USES

WHEREAS, This Ordinance is necessary in order to revise some of the provisions of the City’s Municipal Code relating to adult uses in order to respond to recent developments with regard to the regulation of adult uses and recent case law governing the regulation of adult uses. The City Council determines that a permanent ordinance regulating adult uses is necessary to establish reasonable and uniform regulations that will reduce the adverse secondary effects that adult businesses have upon the residents of the City by its adoption of this Ordinance.

WHEREAS, The public health, safety and welfare of the City requires the enactment of this Ordinance.

WHEREAS, The City Council finds that this Ordinance is necessary in order to protect the City from the potential secondary effects of adult businesses including crime, a decline in the City’s retail trade, the blighting of neighborhoods and the deterioration of property values. The City hereby finds that this ordinance is necessary in order to protect and preserve the quality of the City’s neighborhoods and the City’s commercial districts, to protect the City’s quality of life, to diminish the increased threat of the spread of sexually transmitted diseases, and to protect the peace, welfare and privacy of persons who patronize adult businesses. Experience in this City, as well as in cities and counties within and outside of Kansas including the Johnson County, Kansas; Los Angeles County, California; and the cities of Garden Grove, California; Renton, Washington; Seattle, Washington; Detroit, Michigan; Austin, Texas; Indianapolis, Indiana; and Phoenix, Arizona have demonstrated that such uses have objectionable secondary effects upon immediately adjacent residential and commercial areas. The City recognizes and relies upon the following studies which have documented the adverse secondary impacts of adult uses:

* the 1991 report to the City of Garden Grove, California by Drs. McCleary and Meeker on the relationship between crime and adult business operations;
* Phoenix, Arizona Planning Department (May 1979);

WHEREAS, Prior to the adoption of this Ordinance, the City Council reviewed the detailed studies prepared by other jurisdictions regarding the social and economic effects on persons and properties surrounding established adult use facilities. Copies of these studies are available for public review upon request. The City Council believes the following statements are true, in part based upon its understanding of the experiences of the various jurisdictions identified.

WHEREAS, Crime rates tend to be higher in residential areas surrounding adult uses than in industrial areas surrounding adult uses.

WHEREAS, Areas within walking distance of single and multiple family dwellings should be free of adult uses in order to prevent a deterioration in property values and to protect such areas from the noise, crime, and traffic generated by adult uses. One-quarter of a mile, or 1,320 feet, is considered walking distance by most planning professionals.

WHEREAS, Adult uses should be located in specific areas of the City which are a specified distance from sensitive uses such as residences, parks, religious institutions and schools, irrespective of whether physical barriers are present. This is necessary to (1) ensure that the impact on such sensitive uses by adverse secondary effects caused by adult uses are mitigated to the maximum extent possible; (2) to prevent ad hoc decisions with respect to a potential adult use site which does not meet the criteria set forth herein; and (3) to provide certainty to the residents of the City and adult use operators with respect to potential adult use sites.

WHEREAS, The image of the City of Leawood as an attractive place to reside will be adversely affected by the presence of adult uses in close proximity to residential uses, schools, religious institutions and parks.

WHEREAS, The existence of adult uses in close proximity to residential areas has been shown in other cities and counties to reduce the property values in those residential areas.

WHEREAS, A reasonable regulation of the location of adult uses protects the image of the community and its property values and protects its residents from the adverse secondary effects of adult uses, while providing
those who desire to patronize adult uses an opportunity to do so in appropriate areas in the City.

WHEREAS, There is substantial evidence that an increase in crime tends to accompany, concentrate around, and be aggravated by adult businesses, including but not limited to an increase in the crimes of narcotics distribution and use, prostitution, pandering, and violence against persons and property. The studies from other cities establish convincing evidence that adult businesses which are not regulated as to permissible locations often have a deleterious effect on nearby businesses in residential areas, causing, among other adverse secondary effects, an increase in crime and a decrease in property values. Regulations for adult use businesses should be developed to prevent deterioration and/or degradation of the vitality of the community before the problem exists, rather than waiting for problems to be created.

WHEREAS, The City Council recognizes and relies on the findings set forth in the 1986 Attorney General’s Report on Pornography in support of this Ordinance including, but not limited to its recommendations that local governments ban certain features of video booths that facilitate carnal sexual encounters. A copy of the Attorney General’s Report on Pornography is available for public review upon request.

WHEREAS, The City Council also finds that locational criteria alone do not adequately protect the health, safety, and general welfare of the citizens of the City of Leawood, and thus certain requirements with respect to the design, ownership and operation of adult businesses are in the public interest. In addition to the findings and studies conducted in other cities regarding increases in crime rates, decreases in property values and the blighting of areas in which such businesses are located, the City Council also takes legislative notice of the facts recited in the cases of Moody v. Board of County Commissioners of Shawnee County, 237 Kan. 67, 697 P.2d 1310 (1985); Mitchell v. Commission on Adult Entertainment, 10 F.3d 123 (3d Cir. 1993); BSA, Inc. v. King County, 804 F.2d 1104, 1111 (9th Cir. 1986); Kev, Inc. v. Kitsap County, 793 F.2d 1053, 1061 (9th Cir. 1986); Colacurcio v. Kent, 944 F.Supp. 1470, 1477 (W.D. Wash. 1996); Zanganeh v. Hymes, 844 F.Supp. 1087, 1091 (D. Md. 1994); T-Marc, Inc. v. Pinellas County, 804 F. Supp. 1500, 1506 (M.D. Fla. 1992); Spokane Arcade, Inc. v. City of Spokane, 75 F.3d 663 (9th Cir. 1996); and Ino Inc. Inc. v. City of Bellevue, 937 F.2d 154 (Wa. 1997) regarding how live adult entertainment results in secondary effects such as prostitution, drug dealing, and other law enforcement problems.

WHEREAS, there is a need to restrict the hours of operation of any adult use or adult business in order to minimize the impact on surrounding properties, to allow fire marshals and other health and safety officials access to inspect properties, and to restrict criminal activity including, but not limited to, crime and prostitution. The City Council hereby takes legislative notice that there is a positive correlation between noise levels and an increase in crime and the hours of operation of an adult use or adult business. The City Council takes legislative notice of studies performed by other jurisdictions and experiences reported in case law which document said impacts including Jacksonville, Florida (as discussed in Lady J Lingerie, Inc. v. City of Jacksonville, 973 F.Supp. 1428 (M.D. Fla. 1997)) and the State of Delaware (as discussed in Mitchell v. Commission on Adult Entertainment, 10 F.3d 123 (3d Cir. 1993)).

WHEREAS, the City Council hereby finds and declares that the licensing of owners, clerks and employees is needed to monitor the work force of adult businesses, to ensure that only duly authorized adults are employed at such enterprises, and to ensure that such persons do not have a history of regulatory violations or sexual misconduct. In support thereof, the City Council also takes legislative notice of the facts recited in the case of TK's Video, Inc. v. Denton County, 24 F.3d 705 (5th Cir. 1994).

WHEREAS, It is not the intent of the City Council in adopting this Ordinance to suppress any activities protected by the First Amendment, but rather to enact a content neutral Ordinance which addresses the secondary effects that adult business uses have on the City and provides for reasonable objective permit standards for all expressive uses. In developing this Ordinance, the City Council has been mindful of legal principles relating to regulation of adult businesses and all expressive uses and does not intend to suppress or infringe upon any expressive activities protected by the First Amendments of the United States and California Constitutions, but instead desires to enact reasonable time, place, and manner regulations that address the adverse secondary effects of adult businesses and which do not operate as an unconstitutional prior restraint. The City Council has considered decisions of the United States Supreme Court regarding local regulation of adult businesses, including but not

**WHEREAS,** The City Council finds the following, in part based upon its understanding of the documents and judicial decisions in the public record:

1. Evidence indicates that some dancers, models and other persons who publicly perform specified sexual activities or publicly display specified anatomical parts in adult businesses (collectively referred to as 'performers') have been found to engage in sexual activities with patrons of adult businesses on the site of the adult business;

2. Evidence has demonstrated that performers employed by adult businesses have been found to offer and provide private shows to patrons who, for a price, are permitted to observe and participate with the performers in live sex shows;

3. Evidence indicates that performers at adult businesses have been found to engage in acts of prostitution with patrons of the establishment; and

4. Evidence indicates that fully enclosed booths, individual viewing areas, and other small rooms whose interiors cannot be seen from public areas of the establishment regularly have been found to be used as a location for engaging in unlawful sexual activity.

**WHEREAS,** As a result of the above, and the increase in incidents of AIDS and Hepatitis B, which are both sexually transmitted diseases, the City has a substantial interest in adopting regulations which will reduce, to the greatest extent possible, the possibility for the occurrence of prostitution and casual sex acts at adult businesses.

**WHEREAS,** The City Council finds that preventing the direct exchange of money between performers and patrons will serve to reduce the likelihood of drug and sex transactions occurring in adult businesses.

**WHEREAS,** The City Council finds that requiring separations between entertainers and patrons also reduces the likelihood that such persons will negotiate narcotics sales and/or transact sexual favors within the adult business.

**WHEREAS,** Enclosed or concealed booths and dimly-lit areas within adult businesses greatly increase the potential for misuse of the premises, including unlawful conduct of a type which facilitates transmission of disease. Requirements that all indoor areas be open to view by management at all times, and that adequate lighting be provided are necessary in order to reduce the opportunity for, and therefore the incidence of illegal conduct within adult businesses, and to facilitate the inspection of the interior of the premises thereof by law enforcement personnel.

**WHEREAS,** The City Council has determined that the establishment of an adult use development permit process is a legitimate and reasonable means of ensuring that:

1. Operators of adult businesses comply with the reasonable regulations of this Ordinance;

2. The recognized secondary impacts of a proposed adult use business in a specific location are mitigated; and
WHEREAS, The City Council does not intend to regulate in any area preempted by Kansas law.

WHEREAS, The City Council desires to protect the rights conferred by the United States Constitution to adult use businesses in a manner that ensures the continued and orderly development of property within the City and diminishes those undesirable negative secondary effects the previously mentioned studies have shown to be associated with the development and operation of adult uses.

WHEREAS, The City Council and Planning Commission have held duly noticed public hearings, to receive input and testimony from the public concerning the subject of regulation of adult uses and this proposed ordinance.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF LEAWOOD, KANSAS:

Section 1. Section 4.9 of Article 4 of the Leawood Development Ordinance is hereby repealed in its entirety and a new Section 4.9 of said Article 4 is hereby added to the Leawood Development Ordinance to read in its entirety as follows:

4-9.1 Purpose.

The purpose of this Chapter is to provide special design guidelines/standards and development regulations which regulate the time, place and manner of the operation of adult use facilities in order to minimize the negative secondary effects associated with such facilities. The specific purposes of the adult business permit are to:

A. Establish a procedure which places strict limits on processing time and eliminates any possibility for the exercise of unfettered discretion in reviewing applications for establishing adult uses.

B. Ensure orderly and thorough city review of applications for adult uses.

C. Establish reasonable and uniform regulations that will reduce possible adverse secondary effects that adult uses may have upon the residents of the city and preserve the integrity of existing commercial areas of the city and of residential areas which are in close proximity to such commercial areas.

D. To protect the rights conferred by the United States Constitution to adult uses in a manner that ensures the continued and orderly development of property within the city and diminishes those undesirable negative secondary effects that recognized studies have shown to be associated with the development and operation of adult uses.

E. To allow a process whereby the unusual site development features or operating characteristics of uses which must comply with this Section may be conditioned through an individual review, in order to be compatible with the surrounding uses of property.

4-9.2 Definitions.

WHEREAS, K.S.A.12-687 provides that the Governing Body of any city shall have power to improve or reimprove or cause to be improved or reimproved, any main trafficway or trafficway connection designated and established under the provisions of K.S.A. 12-685 et seq., and such improvement or reimprovement may include grading, regrading, curbing, recuring, guttering, reguttering, paving, repaving, macadamizing, remacadamizing, constructing, reconstructing, opening, widening, extending, rounding corners, straightening, relocating, construction or reconstruction of any necessary bridges and approaches thereto, viaducts, overpasses, underpasses, culverts, storm drainage, trafficway illumination, traffic control devices, pedestrian ways, bicycle ways, or other improvements or any two or more of such improvements or reimprovements and the acquisition of right-of-way by purchase or condemnation when necessary for any of such purposes; and

WHEREAS, K.S.A. 12-689 provides that all costs of improvements or reimprovements authorized under the provisions of K.S.A. 12-687, including acquisition of right-of-way, engineering costs, and all other costs properly attributable to such projects, shall be paid by the City at large and may be funded by; among other alternatives, the issuance of general obligation improvement bonds; and

WHEREAS, Section 1.103-18 of the Income Tax Regulations issued by the Internal Revenue Service (the "Regulations") requires that the City make a prior declaration of its intent to reimburse itself for project expenditures made by the City prior to the date of issuance of notes or bonds, and the City desires to comply with the requirements of the Regulations with respect to this Project; and

WHEREAS, said Governing Body finds and determines that it is necessary to improve and reimprove that section of Mission Road between 83rd Street and 95th Street within the City
of Leawood, as provided by and under the authority of K.S.A. 12-687, and to provide for the payment of the costs thereof as provided by and under the authority of K.S.A. 12-689.

NOW, THEREFORE, BE IT ORDAINED, BY THE GOVERNING BODY OF THE CITY OF LEAWOOD, KANSAS:

Section 1. It is hereby deemed and declared to be necessary to improve and reimprove that section of Mission Road between 83rd Street and 95th Street within the City of Leawood, and it is hereby authorized, ordered, and directed that said main trafficway improvements be undertaken under the authority of K.S.A. 12-687.

Section 2. The total estimated cost of the above described main trafficway improvements or reimprovements, including construction, engineering fees, acquisition of right-of-way and easements, and contingencies, is $200,000 and shall be chargeable to the City at large to be paid by the issuance of general obligation improvement bonds of the City of Leawood under the authority of K.S.A. 12-689.

Section 3. That the costs incurred in connection with the Project shall be paid for from the proceeds of temporary notes to be issued from time to time as said costs are so incurred, and the Project shall be permanently financed with the proceeds of the sale of general obligation improvement bonds of the City in an amount not to exceed $200,000.

Section 4. That to the extent the City shall pay all or any portion of the costs of the Project from available funds on hand prior to the issuance of temporary notes or bonds, the City hereby declares that it reasonably expects to reimburse such expenditures out of the proceeds of such temporary notes and such general obligation bonds. This Ordinance shall be available for inspection at the office of the City Clerk at City Hall during normal business hours of the City on every business day until the date of issuance of the bonds.
Section 7. That the City's Director of Finance shall be responsible for making any "reimbursement allocations" described in the Regulations, being generally the transfer of the appropriate amount of proceeds of the notes or the bonds to reimburse the source of temporary financing used by the City to make payment of the prior costs of the Project. Each allocation shall be evidenced by an entry on the official books and records of the City maintained for the notes or the bonds, shall specifically identify the actual reimbursement of a fund or account in accordance with Section 1.103-18, the fund or account form which the expenditure was paid, and shall be effective to relieve the proceeds of the notes or the bonds from any restriction under the ordinance or other documents authorizing the issuance of such notes or the bonds, and under any applicable state statute, which would apply to the unspent proceeds of the notes or the bonds.

Section 8. This Ordinance shall take effect and be of force from and after its passage and approval and publication one time in the official City newspaper.

Proposed specific location(s) of the seismic recording(s) shall be included in the Blasting Plan.

Sec. 7705.3.5 NOTIFICATION OF ADJACENT PROPERTY OWNERS. The applicant shall provide written notification of property or utility owners located within 500 feet of a blast site. The applicant shall provide a copy of the pre-blast inspection to all property owners requesting same at applicant's expense.

Sec. 7705.3.7 FEE. Prior to providing an intent to issue a permit letter, the applicant shall pay the City a non-refundable application fee as determined by the fee resolution adopted annually by the Governing Body.

The applicant, if he or she has fulfilled all application requirements and has not given cause for denial by previous permit violations, shall be notified of the City's intent to issue the permit. The applicant shall then provide copies of such notification to all property owners located within 500 feet of a proposed blast site. The notice required by this section shall be mailed by certified mail not less than ten days prior to issuance of a blasting permit. The applicant shall retain evidence that such notification has occurred. Failure to provide such evidence to the Director shall be construed to mean that such notification has not occurred.

Sec. 7705.3.9 GRACE PERIOD FOR REQUESTING APPEAL. A grace period of ten working days from the date that the written notice of intent to blast is mailed (as provided by Section 7705.3.8) will allow owners of adjacent property an opportunity to file an appeal of the decision to issue a permit.

SEC. 7705.310 APPEALS. The owner, lessee, agent, operator, or occupant of property located within five hundred feet of a blast site, aggrieved by any decision, order or permit issued pursuant to this section may file an appeal to the City Council. The appeal shall be in written form and shall be made to the Director of Public Works including name and address of appellant and the location of blast site. Any such appeals must be filed within ten working days of the date that the written notice of intent of the City to issue a blasting permit is mailed as provided by Section 7705.3.8 of this ordinance. Any appeal, or appeal filed within the time established by this ordinance shall be heard at the next available City Council meeting. However, there shall be only one hearing for each blasting permit issued or transferred to be issued. Such appeal shall stay the execution of any decision, order or permit issued pursuant to this section until said order has been heard and reviewed, vacated, or confirmed by the City Council. The City Council shall at same hearing confirm, modify, revoke or vacate such decision, order or issuance of permit. Unless revoked or vacated, such decision, order or permit shall then be complied with. Nothing contained in this section shall be deemed to deny the right of any person, firm corporation, corporation, or voluntary association to appeal such decision to a court of competent jurisdiction.

Sec. 7705.3.11 GRACE PERIOD FOR PRIVATE INSPECTION. After the ten days appeal period or after an appeal is heard by the City Council, and the outcome of the appeal is confirmation of the issuance of the permit, there shall be a five (5) working day grace period for property owners to obtain an independent pre-blast inspection at their own expense prior to issuance of a permit.

Sec. 7705.4 ISSUANCE OF PERMIT. When all requirements specified in this ordinance have been fulfilled, including the expiration of any grace period and the completion of any appeals, the applicant will be issued a permit. After the permit is issued, the permittee shall have the explosive storage site inspected by the Fire Marshal or his designee. After the approval of such a site, the permittee must inform the Public Works Department and Fire Department of their intent to commence operations and must furnish them each day that such operations are to take place. Blasting operations may then commence.

Sec. 7706.4 DURATION OF PERMIT. Each permit granted by the City shall be valid for such a period of time as may be specified by the Director of Public Works, but not to exceed one (1) year, or until revoked, whichever shall first occur. At the cessation of operations, it shall be the responsibility of the
permit to inform the Public Works Director that the permit is no longer needed and it shall then be terminated.

Sec. 7705.4.2 REISSUING OF PERMITS. Permits may be reissued if they have expired or been terminated, subject to such provisions of inspection, reporting, notification, and amendments contained in this ordinance as the Director of Public Works and the Fire Chief deem necessary. The fee for reissuance of a permit shall be in accordance with the fee resolution adopted annually by the Governing Body.

Sec. 7705.4.3 PERMITS NONTRANSFERABLE. Permits shall not be transferable.

Sec. 7705.4.4 SEPARATE PERMITS REQUIRED FOR EACH OPERATION. Separate and distinct permits shall be required for each operation listed.

Sec. 7705.4.5 INSPECTIONS FOLLOWING ISSUANCE OF PERMIT. As a condition of the issuance of a permit the applicant shall consent that during the period of issuance of the permit the buildings, premises, installations, or equipment in or on which explosives or blasting agents are to be stored, handled or used may be inspected by the Director of Public Works or Fire Chief or their designees so as to enable the Director or his or her designee to determine that the applicant or holder of the permit is complying with the requirements of this ordinance and any conditions for issuance of the permit. If a violation of this Article is found during any such inspection, the Director or designee shall serve the owner, occupant, or operator with a notice citing the violation and ordering its correction within a specified time period. If such order is not completed with, the Director shall revoke the permit issued for such facility.

Sec. 7705.4.6 BLASTING OPERATIONS. All blasting operations shall be carried out only by skilled and experienced personnel who are currently licensed by the State of Kansas to conduct blasting operations. A daily blasting log and seismic logs, if applicable, shall be kept for all blasting operations and be made available for inspection by the Director or other authority having jurisdiction.

Sec. 7705.4.7 BLASTING RECORDS. The Director of Public Works shall maintain records pertaining to all blasting permits issued by the City for a period of five years. In addition to the records required by the ordinance, the Director shall include records regarding compliance with this ordinance by all persons and entities that have received blasting permits from the City.

Sec. 7705.4.8 PERMITS NOT ISSUED TO ENTITIES VIOLATING ORDINANCE. In addition to the penalties provided by this ordinance, it is the policy of the City that the Director of Public Works, in reviewing applications for blasting permits, shall consider the applicants' prior history of compliance with the requirements of this ordinance. The Director of Public Works may refuse to issue a blasting permit to any person or entity that has violated the ordinance within the preceding five years.

Sec. 7705.4.9 REVOCATION OF PERMITS. Permits issued in accordance with this section, whether confirmed by City Council appeal or not, may be revoked by the Director of Public Works for any violation of this ordinance. Appeal of such revocations shall be in accordance with Section 103.1.4 of the UFC as amended by the Governing Body.

Sec. 7705.4.10 COURT APPEALS. No decision, order or permit issued pursuant to this section shall be stayed by appeal to a court having appellate jurisdiction over the matter unless said court shall enter an order staying the execution of such decision, order or permit.

Sec. 7705.5 PENALTIES.

(a) Any person who shall violate any of the provisions of this Code or Standards hereby adopted or fail to comply therewith, or who shall violate or fail to comply with any order made thereunder, or who shall build in violation of any detailed statement of specifications, or plans submitted and approved thereunder, or any certificate or permit issued thereunder, and from which no appeal has been taken, or who shall fail to comply with any order as affirmed or modified by the appeals board or by a court of competent jurisdiction, within the time fixed herein, shall severally for each and every violation and noncompliance, respectively, be guilty of a misdemeanor punishable by a fine of not less than one ($1) dollar nor more than five hundred ($500) dollars or by imprisonment for not less than one (1) day nor more than thirty (30) days or by both fine and imprisonment. The imposition of one penalty for any violation shall not excuse the violation or permit it to continue, and all such persons shall be required to correct or otherwise remedy such violations or defects within a reasonable time, and when not otherwise specified, each day that prohibited conditions are maintained shall constitute a separate offense.

(b) The application of the above penalty shall not be held to prevent the enforced removal of prohibited conditions.

No use of building, structure or land that is designated as a Special Use in any zoning district shall hereafter be established, and no existing Special Use, or part thereof, shall hereafter be changed to another Special Use in such district, unless a Special Use Permit has been secured in accordance with the provisions of Section 4-3 of this ordinance. Any established use on the effective date of this ordinance that would be reclassified as a Special Use in the district in which it is located has all the rights of an approved Special Use and does not require any additional approval or review. No Special Use already established on the effective date of this ordinance shall be altered, modified, or enlarged so as to conflict with, or further conflict with, the regulations applicable to the zoning district in which such use is located.

2-4.6 Classification of Uses Not Listed

In the case where a use is not specifically listed under any of the permitted, special, temporary, or accessory uses of the individual districts, the Director of Planning and Development shall determine the appropriate district or districts where such use shall be allowed based on a comparison of other uses which most closely resemble the unlisted use. 2) "Overlay" Defined: "Overlay" means a broad zoning category to which special land use categories (subdistricts) can be attached. For purposes of this section the SD district is the overlay zoning category to which the special land use categories (subdistricts) established in (4) below are to be attached.

3) Intent: The Special Development Overlay District is intended to:

   a) Encourage a selected mix of high quality residential and non-residential development of particular land areas to expand the City's tax base and promote economic development.

   b) Provide for appropriate design guidelines and development standards and conditions to protect the public health, safety and welfare.

   c) Provide for necessary commercial facilities and employment centers conveniently located to housing particularly in the southern part of the City.

   d) Encourage and require orderly development at a quality level equal to or exceeding that found in projects developed under planned zoning.

   e) Permit certain deviations from the normal and established development techniques as provided herein when such deviation will result in a higher quality project.

   f) Encourage a mix of selected residential, office and retail large scale developments.

   g) Provide for innovative and imaginative site planning.

   h) Encourage conservation of natural resources.

   i) Encourage development of groupings of buildings or building sites that are planned as an integrated unit or clustered on property under unified control or ownership.

   j) Provide for control of vehicular access.

   k) Provide for control of architectural quality, landscaping and signage in order to soften any impact of such mixed use developments on nearby residential neighborhoods.

   l) Minimize the effects of such development on the street system and other city provided services.

4) Sub-districts: For purposes of regulating the use and development of land within the Special Development Overlay District the following sub-districts have been established:

   a) Sub-district (O): Office,

   b) Sub-district (OH): Office - High Rise

   c) Sub-district (NCR): Neighborhood Commercial Retail-Mixed Use
d) Sub-district (CR): Commercial-Retail

Application for one or more of the sub-districts as established above shall be requested at the time of rezoning to an SD district and preliminary development plan approval or a revised preliminary development plan approval. Any substantial change requested to an approved preliminary or final development plan or request for change to a different sub-district shall be considered a revised preliminary plan and shall be subject to the same notice and public hearing requirements and protest provisions as the original zoning application request.

5) Substantial Change - A substantial change for purposes of this section shall include any proposed:
   a) Increase in F.A.R. Floor Area Ratio
   b) Increase in building square footage over 5%
   c) Increase in building height
   d) Decrease in landscape open space ratio

In District SD, no building, structure, land or premises shall be used and no building or structure shall be hereafter erected, constructed, reconstructed, moved or altered except for one or more of the permitted uses, conditionally permitted uses or accessory uses set forth under the appropriate sub-district in Table 3-12A. All such uses are further subject to conformance with the other provisions of this section.

C) Permitted Uses: With respect to the applicable sub-district "Permitted Uses" are those uses listed as such in Table 3-12A.

D) Accessory Uses: Those uses specifically listed as "Accessory Uses" in Table 3-12A.

   2) (Reserved).

E) Conditional Uses: Those uses specifically listed as "Conditional Use" in Table 3-12A.

   1) Requests for a conditional use as listed under a specific sub-district shown in Table 3-12A may be made as part of an application for preliminary or final development plan approval or may be made independently at anytime after zoning and sub-district are in place provided notice and hearing requirements have been met pursuant to Section 6-3 of this ordinance. If the proposed use is not a conditional use in the applicable sub-district, or if the application or site plan is determined to be incomplete, the Planning Director shall notify the applicant within 10 working days of the date of filing. Thereafter, the applicant may resubmit the application and site plan and the Planning Director shall treat the application and site plan as a new matter. If it is again rejected...
by the Planning Director, the applicant may file an appeal of such determination to the Plan Commission within 10 days of receipt of the Planning Director's decision. Failure of the Planning Director to act within 10 working days as set forth above shall constitute a determination that the proposed use is not permitted in the applicable sub-district or that the application or site plan is incomplete. The application and site plan shall not be "deemed approved" by a failure to act within the time period specified.

2) The Plan Commission shall consider an application for a conditional use as part of its consideration of any preliminary or final development plan. If the proposed use conforms with the general standards and specific requirements of this section, the Plan Commission shall make the appropriate findings, and approve the application for conditional use permit and site plan. Any such approval shall be conditioned upon approval of same by the Governing Body. If the proposed use does not conform with one or more of the general standards or specific requirements of this section, the findings of the Plan Commission shall so state, and the Plan Commission may either disapprove the application for conditional use or approve with stipulations so as to make the conditional use conform to the requirements. If disapproved the applicant may appeal such decision to the Governing Body by filing a request for appeal to the city clerk within 10 days of the date of disapproval by the Plan Commission.

F) Findings of Fact

1) The Plan Commission shall make the following findings of fact prior to approval of any application for rezoning to a Special Development Overlay District (SD) classification, request for change from one sub-district to another, preliminary or revised preliminary development plan approval, and/or application for a conditional use:

   a) That the proposed development/conditional use is in harmony with the general purpose, goals, objectives and standards of the SD Statement of Objectives, Master Development Plan and other adopted planning policies.

2) If the Plan Commission is unable to make one or more of the findings listed in the previous subsection, the Plan Commission may either recommend denial of the site plan application and/or conditional use request or recommend the attachment of specific conditions to the application for site plan approval and/or conditional use.

Such standards shall be submitted with the preliminary site plan.

10) All trash must be stored inside of a structure that is compatible with the building design. The structure must be of materials that are comparable to the materials used in the buildings in the development. The design of the trash enclosures must be shown on the preliminary and final site plan.

11) All public sidewalks, where required or otherwise provided, shall be a minimum of 5 feet wide. Sidewalks at store fronts shall be a minimum of 10 feet wide.

12) No use shall create dust, dirt, particulate matter, smoke, noxious odor, radiation, noxious gases, heat, unscreened glare, vibration or concussion which is perceptible without special instruments at the lot lines of the premises.

13) All lights, other than publicly installed street lights, shall be located and installed to reflect the light away from abutting properties in an area zoned for or developed with residential structures.

b) 135th Street Corridor Additional Performance Standards/Criteria.

3) Additional Studies: The Plan Commission or Governing Body may, at any time in the process of approving preliminary development plans, revised preliminary development plans or conditional uses within district SD and its related subdistricts, require additional studies to be completed. Such studies may include but are not limited to the following:
a) Traffic Impact (Existing and Projected)
b) Noise
c) Lighting
d) Economic Impact

4) The Plan Commission or Governing Body may, in the process of approving preliminary or final development plans, approve deviations from the minimum standards set forth in Table 3-12B or other applicable provisions, provided that any deviation so approved shall be in keeping with accepted land planning principles and must be clearly set out in the minutes as well as on exhibits in the record, in accordance with the following limitations:

a) Deviations from minimum lot areas may be granted where buildings are clustered so long as the overall density of the development does not exceed applicable floor area ratios for the entire parcel. Any common open space resulting from the variance of such density standard shall be set aside for the use and benefit of the occupants of such development.

b) Floor area ratio (FAR) bonuses may be awarded only for developments in sub-districts (O) and (OH) as follows:

1) projects with landscaped open space ratios significantly in excess of the required minimum -- up to 10% increase in the applicable maximum FAR;

2) projects with a landscaping plan demonstrating quantities and qualities of landscaping significantly superior to that of other developments in the City -- up to 10% increase in the applicable maximum FAR;

3) projects with architecturally significant fountains, statuary and other decorative features -- up to 10% increase in the applicable maximum FAR;

4) projects with pedestrian plazas and linkages, street furniture and other features designed to encourage pedestrian circulation and usage -- up to 10% increase in the applicable maximum FAR;

5) projects containing lakes or ponds -- up to 10% increase in the applicable maximum FAR; and

6) projects incorporating and demonstrating transportation management systems i.e., ride sharing, van pooling, flextime or other measures designed to significantly decrease peak hour vehicular trip generation -- up to 10% increase in the applicable maximum FAR.

7) projects incorporating parking structures resulting in significant increases in landscaped open space -- up to 20% increase in the applicable maximum FAR.
The determination of the satisfaction of the bonus criteria, and the amount of any bonus to be awarded, shall be at the sole discretion of the Governing Body. The total FAR, including all bonuses, shall not exceed an FAR of .35 for sub-district (O) or .45 for sub-district (OH). All approved bonus increases are to be added together before being applied to the base FAR of the sub-district for calculation.

J) Open Space: (See Section M.)
K) Building Coverage: (See Table 3-12B)

L) Parking and Loading Requirements:
   1) Except as otherwise provided herein, the provisions of Section 4-4, Off-Street Parking, Storage, Loading Regulations and Parking Lot Design Standards, shall apply to all developments in district SD.
   2) Where specific parking requirements are established for land uses in Section 4-4, those standards shall apply in this district. For buildings or portions of buildings for uses which are not listed in Section 4-4, the following general parking ratios shall be applied:
      Subdistrict (O), (OH), (CR) and (NCR) -- 5 spaces for each 1,000 square feet of gross floor area.
   3) Shared Parking.
      a) In mixed use buildings or developments where several buildings containing different uses share common parking areas, the applicant may be permitted to reduce the total number of parking spaces otherwise required by utilizing shared parking. For purposes of this subsection, shared parking is defined as parking spaces that can be used to serve 2 or more individual land uses without conflict or encroachment. Shared parking may result from either variations in the peak accumulation of parked vehicles due to time differences in the activity patterns of adjacent or nearby land uses (by hour, by day or by season) or as a result of relationships among land use activities that result in people being attracted to 2 or more land uses in a given area or development using a single vehicle trip. A shared parking study may be required by the Plan commission, Governing Body or Staff in order to determine the feasibility of its application in the proposed development. When required it shall be prepared by a professional traffic engineer acceptable to the City.
      b) Shared parking studies submitted pursuant to this subsection shall, at a minimum, include the following information:
         1) project analysis -- involving the sizing and functional relationship of project land uses based upon market research, site constraints and other considerations;
         2) peak parking factor adjustments -- involving the selection of appropriate peak parking accumulation factors for each land use, and the adjustment of each factor to reflect site-specific factors such as transit use, ride sharing, flextime and captive markets;
3) Accumulation analysis -- involving the hourly, daily and seasonal estimation of parking accumulation for each component land use;

4) Shared parking estimation -- involving the hourly, daily and seasonal estimation of parking accumulation for the entire project.

c) Where a reduction in the number of required parking spaces for a project occurs as a result of a shared parking study, approval of the reduced number of parking spaces shall be conditioned upon a land use mix within the parameters of the uses described in the shared parking study. Changes in uses within the project may require compliance with the parking requirements otherwise applicable under this section or a revision of the shared parking study establishing different parking requirements.

4) Except as may be otherwise permitted by Section 3-12(l), paved parking areas shall be set back a minimum of 30 feet from any street right-of-way or perimeter property line.

M) Landscaping and Screening

1) In addition to any other requirement for landscaping and screening imposed pursuant to Section 4-6 of this ordinance, an application for final development plan shall be accompanied by a landscaping and screening plan complying with the provisions of this section.

2) Except to the extent that the requirements of this section are more stringent, the provisions of Section 4-6 shall also apply.

3) All landscaping plans shall be prepared and sealed by a Kansas or Missouri registered landscape architect and shall include the following information:

   a) North point and scale.

   b) Topographic information and final grading adequate to identify and properly specify planting for areas needing slope protection.

   c) The location and size of all structures and parking areas.

   d) The location, size and type of all above-ground and underground utilities and structures with proper notation, where appropriate, as to any safety hazards to avoid during installation of landscaping.

   e) The location, size, type and quantity of all proposed landscaping materials, along with common and botanical names of all plant species. The size, grading and condition shall be specified according to American Association of Nurserymen standards.

   f) The location, size and common name of all existing plant materials to be retained on the site.

   g) Mature sizes of plant materials shall be drawn to scale and called out on the plan by a common name or appropriate key.

   h) Location of hose connections and other watering sources.

   i) The location of all trees, 12 inch caliper or larger, measured at 4-1/2 feet above ground level, that are proposed for removal.
j) All screening required by this section.

4) Plantings within landscaped open space areas, trees and shrubs shall be provided in accordance with the following minimum requirements:

a) 1 tree shall be provided for each 30 feet of public or private street frontage within the landscaped setback abutting said street frontage. Such trees may be clustered or arranged within the setback if approved as part of the landscape plan. In addition to the street trees, 1 shrub shall be provided for each 5 feet of public or private street frontage, or portion thereof, within the landscaped setback abutting such frontage. Such shrubs may be clustered or arranged within the setback.

b) A landscaped setback/buffer area is required along all property lines on the periphery of the area covered by the plan, other than street frontages. Notwithstanding any other provisions relating to yard requirements, such landscaped setback/buffer area shall be at least 30 feet. Within such landscaped setback/buffer area, 1 tree shall be provided for every 20 lineal feet along the property line, and one shrub shall be provided for each 10 feet along the property line. Such trees and shrubs may be clustered or arranged within the setback.

c) In addition to the trees required based upon street frontage, additional trees shall be required at a ratio of 1 tree for every 3,000 square feet of landscaped open space.

d) Existing trees saved on the site during construction may be credited toward the minimum number of trees required provided that such trees are a minimum 4 inch caliper as measured 4 1/2 feet above ground for medium and large deciduous species or 3 feet in height for ornamental and evergreen species. All existing plant material saved shall be healthy and free of mechanical injury.

e) All landscape areas shall be irrigated.

5) Parking areas shall be screened and landscaped in accordance with the following minimum requirements:

a) Parking Area Screening.

1) The perimeter area of all on-site, open parking areas shall be screened from the view of adjacent properties and streets at the time of planting to a minimum height of 3 feet by the use of berms, walls or plantings.

2) Parking lot screening shall be designed so as to avoid obstructing visibility at intersections from both vehicles in the parking lot and on adjacent streets. A clear sight distance triangle of 25 feet from an intersection shall be established to ensure visibility and safety.

3) 100% of the affected street frontage or property boundary, excluding intersecting driveways, must have the required screening.
4) Structures such as decorative walls or fences may be approved if:
   a) The structure avoids a blank and monotonous appearance by such means as architectural articulation and/or the planting of vines, shrubs or trees; or
   b) The total use of berms or plantings is not physically feasible; or
   c) The structures complement the use of berms or plantings.

5) The reference elevation for the base of the required screen shall be the surface of the parking area that is to be screened.

6) The following maximum grades shall be permitted in the parking lot screen area:
   a) Sodded Grass berms shall be 3 feet horizontal for each 1 foot vertical rise; and
   b) Planting beds shall be 2 feet horizontal for each 1 foot vertical rise.

7) Where a parking lot is located adjacent to or come in direct contact with any landscaped setback/buffer area required pursuant to subsection 4 above, the landscaped setback/buffer area requirement shall apply and the above parking area screening requirements shall be waived.

b) Parking Area Landscaping:

   1) Not less than 6% of the interior of a parking area shall be landscaped. The interior of a parking area shall be calculated by multiplying the number of parking spaces by 280 square feet. Plantings required along the perimeter of the parking area for screening shall not be considered as part of the interior landscaping requirement.

   2) Landscaping and planting areas shall be reasonably dispersed throughout the parking area.

   3) The interior dimensions of any planting area or planting median shall be sufficient to protect the landscaping materials planted therein and to ensure proper growth; in no event shall any such area be less than 60 square feet in area or 8 feet in width. Each area shall be protected by Portland cement concrete vertical curbs or similar structures.

   4) The primary landscaping materials used in parking lots shall be trees which provide shade or are capable of providing shade at maturity. Shrubbery, hedges and other planting materials may be used to complement the tree landscaping, but shall not be the sole means of landscaping. Effective use of earth berms and existing topography is also encouraged as a component of the landscape plan.
5) In those instances where plant materials exist on a parking area site prior to its development, such materials may be used if approved as meeting the requirements in subsection 6 below.

6) Minimum planting requirements shall be as follows:
   a) Medium and large deciduous shade trees – 2 1/2 inch caliper as measured 6 inches above ground.
   b) Small deciduous or ornamental trees – 8 feet in height,
   c) Conifers – 6 to 8 feet in height.
   d) Upright evergreen trees – 8 feet in height,
   e) Shrubs shall be a minimum container size of 5 gallons with a minimum mature height of 4 to 6 feet in height. The size of spreader and globe tree form shall be determined by the applicant.
   f) Ground cover plants, whether in the form of crowns, plugs or containers, shall be planted in a number as appropriate by species to provide 50% surface coverage after two growing seasons.
   g) Seeding for turf and native grass shall be as appropriate to provide complete coverage within the first growing season.
   h) Sod shall be used where required or where necessary to provide coverage and soil stabilization.
   i) Landscaped open space shall consist of a minimum of 60% living materials; the remaining area may consist of non-living materials such as bark, wood chips, decorative rock or stone or other similar materials.

7) All required landscaping materials, both living and non-living, shall be in place prior to the time of issuance of a final Certificate of Occupancy, weather permitting. In periods of adverse weather conditions, a temporary Certificate of Occupancy may be issued, subject to all landscaping be installed prior to the final Certificate of Occupancy being issued.

8) All landscaping shall be maintained in accordance with the following requirements:
   a) All landscaping materials depicted on landscaping plans approved by the City shall be considered to be elements of the project in the same manner as parking, building materials and other details. The developer, its successor and/or subsequent owners and their agents shall be responsible for maintenance of landscaping on the property on a continuing basis for the life of the development. Plant materials which exhibit evidence of insect pests, disease or damage shall be appropriately treated, and
dead plants promptly removed and replaced within the next planting season after installation. All landscaping will be subject to periodic inspection by the City. Should landscaping not be installed, maintained and replaced as needed to comply with the approved plan, the owner and its agent or agents shall be considered to be in violation of the terms of the Certificate of Occupancy. The Director of Planning and Development is empowered to enforce the terms of this section.

b) (Reserved)

9) Landscaping and screening plans shall include a detailed drawing of enclosure and screening methods as provided hereinafter:

a) Trash enclosures shall be screened from public view on at least 3 sides with a 6 foot solid fence constructed of cedar, redwood, masonry or other compatible building material, and shall be appropriately landscaped.

b) Exterior ground-mounted or building-mounted equipment including, but not limited to, mechanical equipment, utilities and meter banks, shall be screened from public view with landscaping or with an architectural treatment compatible with the building structure.

c) All rooftop equipment shall be screened from the public view with an architectural treatment which is compatible with the building architecture.

d) For purposes of this subsection, the phrase screened from public view, means not visible at eye level from an adjoining property line or any street right-of-way.

N) Signage:

1) Sign criteria for each development or each phase of the development shall be submitted for review by the Staff prior to filing an application for final development plan approval. The sign criteria shall address all aspects of signage within the development, or phase of the development, including numbers, types, sizes, shapes and colors of signs to be permitted in the development. The Staff shall make its recommendation concerning the sign criteria to the Plan Commission at the time of consideration of the final development plan. Once the sign criteria has been approved as part of the final development plan, the requirements of the sign criteria shall be enforced by the City in the same manner that it enforces any other sign regulation contained in this ordinance.

2) As a guide for preparing sign criteria for SD developments, the developer should generally refer to sign requirements for the most analogous zoning district in determining the number, types and sizes of signs to be permitted in any sub-district. For purposes of this subsection, the "most analogous zoning district" for each SD sub-district shall be as follows:
a) Sub-district (O), (OH) -- District CP-O.

b) Sub-districts (NCR) -- District CP-1.

c) Sub-districts (CR) -- District CP-2.

3) Except as altered above, the provisions of Section 4-5 of this ordinance shall apply to all SD developments.

O) Procedures for Rezoning to SD and Approval of Development Plans

1) Except to the extent modified by Section 3-12, rezoning to the SD district shall follow the same procedure of other zoning reclassifications as set forth in Article 6 of this ordinance.

2) Preliminary, revised preliminary and final development plans shall be considered and acted upon as set forth in Section 6-3 of this ordinance.

3) Applications for conditional uses, and site plans in support thereof, may be considered as part of the Plan Commission's consideration of any preliminary, revised preliminary or final development plan. Where publication notice and notice to surrounding property owners pursuant to Section 6-3 of this ordinance is required for consideration of any such plan, the publication notice and notice to surrounding property owners shall include a statement that specified conditionally permitted use(s) are being requested. Applications for conditional uses to be considered separately shall also require a public hearing, pursuant to Section 6-3 of this ordinance. Any conditional use approved for a lot or tract covered by a plan shall be so designated on the plan.

P) Planned Zoning Procedures: Except to the extent modified by this Section, the provisions of Section 6-2 pertaining to planned zoning districts shall be applicable to district SD.

Section 8. "Amendment to the Leawood Development Ordinance" Amended. That Section 4-4 of the "Amendment to the Leawood Development Ordinance" is hereby amended to read as follows:

4-4 OFF-STREET PARKING, STORAGE, LOADING REGULATIONS AND PARKING LOT DESIGN STANDARDS

4-4.1 General Purpose
The provisions of this section shall apply to uses within all zoning districts of the City of Leawood. No such use shall be commenced, expanded, or enlarged in any manner unless the off-street parking and loading provisions are complied with as required in this section.

4-4.2 Site Development Plan Required
A site development plan shall be submitted and approved by the Plan Commission prior to the construction or creation of any parking lot or the expansion of any existing parking lot in accordance with the provisions of Section 6-2 of this ordinance.

4-4.3 Computation of Off-Street Parking and Loading Requirements
The following provisions shall govern the computation of required off-street parking and loading spaces:

1) Where computation of required off-street parking spaces results in a fractional number, the required spaces for the use shall be the next higher whole number.

2) Where more than one use is established on a single lot, the off-street parking and loading requirements for the lot shall be the sum of the separate requirements for each use established on the lot.

3) No building or structure shall be erected or structurally altered, nor shall any land be used, for any purpose, without provision for off-street parking and loading as required by this section.

4) Where a lawful use exists at the time of adoption of this ordinance that is deficient in the provision of required off-street parking, any new use hereafter established in its place shall conform to the parking requirements of this ordinance.
4-4.4 Location of Required Parking and Loading Spaces

All off-street parking and loading spaces required by this ordinance shall be located on the same lot as the use for which such spaces are required, with the following additional regulations and exceptions:

1) Required off-street parking and/or loading spaces shall not be located upon any public right-of-way unless specifically authorized and approved by the Plan Commission and Governing Body.

2) Where, within an office, commercial, or industrial district, an increase in the number of off-street parking spaces is required by an alteration, enlargement, or change of a use, the required off-street parking spaces may be located no farther than 300 feet from the use(s) they serve. Whenever off-street parking is required and cannot be provided within the principal building or upon the same lot as the principal building and is located on another parcel or property as permitted in this section, such parcel or property shall be owned by the owner of the principal building or, in the alternative, shall be restricted by a recorded agreement to off-street parking purposes during the lifetime of the use within the principal building. If and when such use would expire, the required off-street parking for a new use within the principal building would be evaluated on its own merit.

3) Off-street loading spaces shall be located only on the side or rear of buildings, but not in required yard areas. Location of loading spaces shall be approved in accordance with the provisions of Section 6-2 of this ordinance.

4-4.5 Off-Street Loading Space Requirements

1) The required number of off-street loading spaces for truck and/or other bulk pickup or deliveries shall be determined through the plan review process.

2) Such loading and unloading space(s) shall be an area of adequate size for the type of building use as approved by the Plan Commission and must be able to accommodate vehicles entirely off street rights-of-way. Area for ample turnaround space and maneuvering must be allotted so that all vehicle/truck activity shall be accommodated entirely on-site and without interference with traffic movements either on or off-site. Vehicles shall not be allowed to back onto or off of street rights-of-way.

3) The location of off-street loading space(s) for a building must be in accordance with Section 4-4.4 above.

4) Such loading space(s) shall be permanently surfaced of either asphaltic concrete or Portland cement concrete and have direct access from a permanently surfaced drive of the same. Where turnaround for truck/vehicle traffic is required, such turnaround space must also be permanently surfaced of the same.

5) No building or structure shall be erected or structurally altered significantly, nor shall any land be used for any purpose without, provision for off-street loading as required by this section.
6) When off-street loading is required, such loading space(s) shall be provided at the time of erection, alteration, establishment, or addition of any building, structure, or use of the land. The timing of such loading requirements may be extended by the Director of Planning and Development for a period not to exceed 6 months due to weather conditions provided that adequate surety for such improvements has been made.

7) Loading space(s) shall be screened in accordance with Section 4-6 of this ordinance.

8) Required off-street loading space(s) shall not be used for storage and shall be open for its function at all times.

9) The provision of off-street loading space(s) shall be a continuing obligation of the owner of the real estate on which any use is located. It shall be unlawful for an owner of any building or land use activity affected by the off-street loading requirements of this section to discontinue, reduce, or dispense with (or cause same) the required off-street loading space(s) as established by this section. Should an existing building change use, the size of the loading and unloading space(s) shall be reevaluated as to adequacy in regard to the new use and thereafter altered as necessary.

10) Further, any off-street loading space(s) not required by this section, but which is voluntarily provided, shall observe all requirements of this section in the development of such loading space(s).

4) The Plan Commission or Governing Body may, in the process of approving preliminary or final development plans, approve deviations from the minimum standards set forth in Table 3-12B or other applicable provisions, provided that any deviation so approved shall be consistent with accepted planning principles and must be designed in such a way as to minimize, to the extent reasonably practical, the adverse impact on the environment and the safety and welfare of the community.

5) Floor area ratio FAR bonuses may be awarded only for developments in sub-districts (C) and (D) as follows:

a) Deviations from minimum lot area may be granted where buildings are clustered so long as the overall density of the development does not exceed applicable floor area ratios for the entire parcel. Any common open space resulting from the variance of such density standards shall be set aside for the use and benefit of the occupants of such development.

b) Floor area ratio FAR bonuses may be awarded only for developments in sub-districts (C) and (D) as follows:

1) Projects with landscaped open space ratios significantly in excess of the required minimum - up to 10% increase in the applicable maximum FAR ratio.

2) Projects with a landscaping plan demonstrating quantities and qualities of landscaping significantly superior to that of other developments in the City - up to 10% increase in the applicable maximum FAR ratio.

3) Projects with architecturally significant fountain, statue and other decorative features - up to 10% increase in the applicable maximum FAR ratio.

projects incorporating and demonstrating transportation management systems, i.e., ride sharing, van pooling, carpooling or other measures designed to significantly decrease peak-hour vehicular trip generation – up to 10% increase in the applicable maximum FAR.

7. Projects incorporating parking structures resulting in significant increases in landscaped open space – up to 20% increase in the applicable maximum FAR.

The determination of the satisfaction of the bonus criteria, and the amount of any bonus to be awarded, shall be at the sole discretion of the Governing Body. The total FAR, including all bonuses, shall not exceed an FAR of .35 for sub-district (O) or 4.5 for sub-district (CH). All approved bonus increases are to be added together before being applied to the base FAR of the sub-district for calculation.

L) Parking and Loading Requirements:

1) Except as otherwise provided herein, the provisions of Section 4-4, Off-Street Parking, Signing, Loading Regulations and Parking Lot Design Standards, shall apply to all developments in district SD.

2) Where specific parking requirements are established for land uses in Section 4-4, those standards shall apply in this district. For buildings or portions of buildings for uses which are not listed in Section 4-4, the following general parking ratios shall be applied:

Subdistrict (O), (CH), (CR) and (NCR) – 8 spaces for each 1,000 square feet of gross floor area.

3) Shared Parking.

a) In mixed use buildings or developments where several buildings containing different uses share common parking areas, the applicant may be permitted to reduce the total number of parking spaces otherwise required by utilizing shared parking. For purposes of this subsection, shared parking is defined as parking spaces that can be used to serve 2 or more individual land uses without conflict or encroachment. Shared parking may result from either variations in the peak accumulation of parked vehicles due to time differences in the activity patterns of adjacent or nearby land uses (by hour, day or by season) or as a result of relationships among land use activities that result in people being attracted to 2 or more land uses in a given area or development using a single vehicle trip. A shared parking study may be required by the Plan Commission, Governing Body or Staff in order to determine the feasibility of its application in the proposed development. When required it shall be prepared by a professional traffic engineer acceptable to the City.

b) Shared parking studies submitted pursuant to this subsection shall, at a minimum, include the following information:

1) A joint analysis – involving the aging and functional relationship of project land uses based upon market research, site constraints and other considerations;

2) Peak parking factor adjustments – involving the selection of appropriate peak parking accumulation factors for each land use, and the adjustment of each factor to reflect site-specific factors such as transit use, ride sharing, flatiron and captive markets;

3) Accumulation analysis – involving the hourly, daily and seasonal estimation of parking accumulation for each component land use;

4) Shared parking estimation – involving the hourly, daily and seasonal estimation of parking accumulation for the entire project.

Where a reduction in the number of required parking spaces for a project occurs as a result of a shared parking study, approval of the reduced number of parking spaces shall be conditioned upon a land use mix within the parameters of the uses described in the shared parking study. Changes in uses within the project may require compliance with the parking requirements otherwise applicable under this section or a revision of the shared parking study establishing different parking requirements.

4) Except as may be otherwise permitted by Section 3-12(0), paved parking areas shall be set back a minimum of 30 feet from any street right-of-way or perimeter property line.

M) Landscaping and Screening

1) In addition to any other requirement for landscaping and screening imposed pursuant to Section 4-6 of this ordinance, an application for final development plan shall be accompanied by a landscaping and screening plan complying with the provisions of this section.

Such trees may be clustered or arranged within the setback if approved as part of the landscape plan. In addition to the street trees, 1 shrub shall be provided for each 5 feet of street frontage or portion thereof, within the landscaped setback/buffered frontage. Such shrubs may be clustered or arranged within the setback.

b) A landscaped setback/buffer area is required along all property lines on the perimeter of the area covered by the plan, other than street frontages. Nonetheless, all other provisions relating to yard requirements, such landscaped setback/buffer area shall be at least 30 feet. Within such landscaped setback/buffer area, 1 tree shall be provided for every 20 linear feet along the property line, and one shrub shall be provided for each 10 feet along the property line. Such trees and shrubs may be clustered or arranged within the setback.

Where a parking lot is located adjacent to or come in direct contact with any landscaped, setback/buffer area required pursuant to subsection 4 above, the landscaped setback/buffer area requirement shall apply and the above parking area screening requirements shall be waived.

b) Parking Area Landscaping:

1) Not less than 6% of the interior of a parking area shall be landscaped. The interior of a parking area shall be calculated by multiplying the number of parking spaces by 280 square feet. Plantings required along the perimeter of the parking area for screening shall not be considered as part of the interior landscaping requirement.

2) Landscaping and planting areas shall be reasonably disposed throughout the parking area.

3) The interior dimensions of any parking area or planting median shall be sufficient to protect the landscaping materials planted therein and to ensure privacy; in no event shall any such area be less than 60 square feet in area or 6 feet in width. Each area shall be protected by Portland cement concrete vertical curbs or similar structures.

4) The primary landscaping materials used in parking lots shall be trees which provide shade or are capable of providing shade at maturity. Shrubs, hedges and other planting materials may be used to complement the tree landscaping, but shall not be the sole means of landscaping. Effective use of earth berm and existing topography is also encouraged as a component of the landscape plan.
5) In those instances where plant materials exist on a parking area site prior to its development, such materials may be used if approved as meeting the requirements in subsection 6 below.

4.4.4.1 General Purpose
The provisions of this section shall apply to uses within all zoning districts of the City of Lewood. No such use shall be commenced, expanded, or enlarged in any manner unless the off-street parking and loading provisions are complied with as required in this section.

4.4.4.2 Site Development Plan Required
A site development plan shall be submitted and approved by the Plan Commission prior to the construction or expansion of any parking lot or the expansion of any existing parking lot in accordance with the provisions of Section 4-6 of this ordinance.

4.4.4.3 Computation of Off-Street Parking and Loading Requirements
The following provisions shall govern the computation of required off-street parking and loading spaces:
1) Where computation of required off-street parking spaces results in a fractional number, the required spaces for the use shall be the next higher whole number.
2) Where more than one use is established on a single lot, the off-street parking and loading requirements for the lot shall be the sum of the separate requirements for each use established on the lot.
3) No building or structure shall be erected or structurally altered, nor shall any land be used, for any purpose, without provision for off-street parking and loading as required by the section.
4) Where a lawful use exists at the time of adoption of this ordinance that is deficient in the provision of required off-street parking, any new use hereafter established in its place shall conform to the parking requirements of this ordinance.
4.4.4 Location of Required Parking and Loading Spaces

All off-street parking and loading spaces required by this ordinance shall be located on the same lot as the use for which such spaces are required, with the following additional regulations and exceptions:

1) Required off-street parking and/or loading spaces shall not be located upon any public right-of-way unless specifically authorized and approved by the Plan Commission and Governing Body.

2) Where, within an office, commercial, or industrial district, an increase in the number of off-street parking spaces is required by an alteration, enlargement, or change of use, the required off-street parking spaces may be located no further than 300 feet from the use(s) they serve. Whenever off-street parking is required and cannot be provided within the principal building or upon the lot on which the principal building is located or on another parcel of property or expressly permitted in this section, such parcel or property shall be owned by the owner of the principal building or, in the alternative, shall be restricted by a recorded agreement to off-street parking purposes during the lifetime of the use within the principal building.

3) Required off-street parking for a new use within the principal building shall be evaluated on its own merits.

7) Loading space(s) shall be screened in accordance with Section 4.6 of this ordinance.

8) Required off-street loading space(s) shall not be used for storage and shall be open for its function at all times.

It shall be unlawful for the owner of any building or land use activity affected by the off-street loading requirements of this section to discontinue, reduce, or dispense with (or cause to cease) the required off-street loading space(s) as established by this section. Should an existing building change use, the size of the loading and unloading space(s) shall be reevaluated as to adequacy in regard to the new use and thereafter altered as necessary.

10) Further, any off-street loading space(s) not required by this section, but which is voluntarily provided, shall observe all requirements of this section in the development of such loading space(s).

4.4.6 Special Provisions for Off-Street Parking and Storage of Vehicles in Residential District

A) Statement of Intent. The provisions of this Section shall govern the off-street parking or storage of vehicles as an accessory use to any permitted residential use, and no such accessory off-street parking or storage of vehicles shall be permitted except in conformance with these provisions.

B) Definitions. The following definitions shall govern the interpretation of this Section.

2) "Bus." A self-propelled motor vehicle, designed for or used for the transportation of passengers, exceeding any of the following: 25 feet in overall length, or 8 feet in height, or gross weight of 3,000 pounds per axle.

C) Standards Governing the Parking and Storage of Trucks, Buses, and Recreational Vehicles in Residential Districts (to Include Residential Uses in an Agricultural District).

1) Parking of Trucks, Buses, and Trailers. No person shall park any of the named vehicles in Section 4.4.6 (B) on any street of the City, or upon any lot, improved or unimproved, in a residential area of the City except for the purpose of making a delivery or pickup, and except for parking of recreational vehicles as provided herein.

2) Parking and Storage of Recreational Vehicles. Parking and storage of recreational vehicles as defined in Section 4.4.6 (B) of this ordinance shall be allowed in single family residential districts upon residential lots provided that:

(a) Parking and storage of recreational vehicles shall be limited to asphalt or concrete pads.

(b) Storage shall be limited to pads adjacent and connected to the driveway or in the case of rear yard parking or storage such pad shall be permanently connected to the driveway with an asphalt or concrete drive.

(c) Storage on the residential driveway shall be prohibited except for certain types where a separate driveway is provided off of the street on the other street frontage specifically for the purpose of storage which does not interfere with the residential parking of passenger vehicles.

3) Parking and Storage of Recreational Vehicles in Other Districts. Parking and storage of recreational vehicles in other districts shall be prohibited except when approved by the Plan Commission and Governing Body as part of a site development plan approval process. Such request shall be made on application furnished by the Department of Planning and Development.

3) The provision of off-street parking shall be a continuing obligation of the owner of the real estate on which any use is located. It shall be unlawful for any owner of any building or land use activity affected by the off-street parking requirements of this section to discontinue, reduce, or dispense with (or cause same) the required off-street parking as established by this section.

Unless special permission is granted by the Director of Planning and Development due to weather conditions that are not reflective for paving materials.

2) Entrance and exits shall be by means of paved driveways not exceeding 35 feet in width except as otherwise approved on the development plan by the Plan Commission. Head-in parking from any public right-of-way shall not be permitted.

3) Parking lot lighting shall be so arranged as to direct light away from any adjacent premises in a residential district and shall be of a design that the source of illumination shall not be visible from off the premises.
4. All parking lots and drives leading thereto shall have curbs and drainage facilities approved by the City Engineer.
5. No signs shall be permitted except those necessary for the orderly parking thereon. Not more than 1 sign with maximum area of 6 square feet shall be permitted at each entrance to identify such parking area and present any regulations governing same. Signs identifying reserved parking shall first be approved by the Plan Commission as part of an overall plan concept and shall include complimentary materials to the buildings it serves. For additional information see Section 4-8 G Sign Regulations.
6. The Plan Commission may require that a parking area be screened on any side where it may adversely affect adjacent property.

4.4.10 Parking Lot Design Standards
A) Parking Space Dimensions
1. Each parking space shall contain a rectangular area at least 19 feet long and 9 feet wide. Lines delineating parking spaces may be drawn at various angles in relation to curbs or alleys, so long as the parking spaces so created contain within them the rectangular area required by this section.
2. Wherever parking areas consist of spaces set aside for parallel parking, the dimensions of such parking spaces shall not be less than 22 feet by 9 feet.

<td>32 feet</td>
</tr>
</tbody>
</table>
2) Driveways shall be not less than 12 feet in width for one-way traffic and 20 feet in width for two-way traffic.

C) General Design Requirements.

1) Vehicle accommodation areas shall be designed so that, without resorting to extraordinary movements, vehicles may exit such areas without backing onto a public street.

2) Vehicle accommodation areas of all developments shall be designed so that sanitation, emergency, and other public service vehicles can serve such developments without the necessity of backing unreasonable distances or making other dangerous or hazardous turning movements.

3) Every vehicle accommodation area shall be designed so that vehicles cannot extend beyond the perimeter of such area onto adjacent properties or public rights-of-way. Such areas shall also be designed so that vehicles do not extend over sidewalks or tend to bump against or damage any wall, vegetation, or other obstruction.

4) Circulation areas shall be designed so that vehicles can proceed safely without posting a danger to pedestrians or other vehicles and without interfering with parking areas.

D) Joint Use of Required Parking Spaces.

1) One parking area may contain required spaces for several different uses, but except as otherwise provided in this section, the required space assigned to one use may not be credited to any other use.

2) To the extent that developments that wish to make joint use of the same parking spaces operate at different times, the same spaces may be credited to both uses. For example, if a parking lot is used in connection with an office building on Monday through Friday but is generally 90% vacant on weekends, another development that operates only on weekends could be credited with 90% of the spaces on that lot. Or, if a church parking lot is generally occupied only to 50% of capacity on days other than Sunday, another development could make use of 50% of the church lot's spaces on those other days.

E) Special Provisions For Lots With Existing Buildings.

1) Notwithstanding any other provisions of this section, whenever (1) there exists a lot with one or more structures on it constructed before the effective date of this section, and (2) a change in use that does not involve any enlargement of a structure is proposed for such lot, and (3) the parking requirements of Section 4-4.8 of this ordinance that would be applicable as a result of the proposed change cannot be satisfied on such lot because there is not sufficient area available on the lot that can practically be used for parking, then the developer need only comply with the requirements of Section 4-4.8 of this ordinance to the extent that parking space is practically available on the lot where the development is located.

Section 9, Existing Sections Repealed. That existing Sections 2-4, 2-6, 3-5, 3-6, and 3-12 of the "Leawood Development Ordinance" and Sections 3-3, 3-4, and 4-4 of the "Amendment to the Leawood Development Ordinance" are hereby repealed. (Prior law: Sections 3-3 and 3-4, Ordinance No. 1415; Section 3-12, Ordinance No. 1635.)

The amount of the Notes together with other temporary notes heretofore issued to finance the Project which remain outstanding does not exceed the total estimated costs of said Project.
Section Two. Terms of the Notes. Said issue of Notes shall consist of bearer notes numbered 1 through 4 inclusive, each in the denomination of $100,000. Each of said Notes shall be dated November 5, 1997, shall mature by their stated terms and become due and payable on July 30, 1998. The Notes shall bear interest from their dated date, payable at maturity or upon redemption prior thereto as herein provided, at a rate of interest of 4.00% per annum (computed on the basis of actual days elapsed and a 360-day year composed of twelve 30-day months). The Notes shall be subject to redemption at the option of the City upon notice as hereinafter provided and shall be redeemed and cancelled contemporaneously with the issuance of general obligation improvement bonds of the City issued in lieu thereof to provide permanent financing of the Project.

Both principal of and interest on said Notes shall be payable in lawful money of the United States of America by check or draft at the office of the City Treasurer of the City upon presentation and surrender of said Notes.

The City reserves the right to redeem and pay said Notes, in whole or in part (and if in part in denominations of $100,000 selected by the City in its sole discretion), at any date prior to the stated maturity of said Notes by notice thereof given in writing by first class mail to the original purchaser of the Notes and to any known holder of the Notes or by the publication of such notice at least one time in a newspaper published or of general circulation in the metropolitan Kansas City area, and payment of said Notes, such publication of such notice or mailing of written notification of redemption to the original purchaser and the known holder to be at least ten days prior to the redemption date fixed in such notice. Notice of such redemption having been given as aforesaid, interest shall cease to accrue on said Notes from and after the redemption date.

Section Three. Security for the Notes. The full faith, credit and resources of the City of Leawood, Kansas, shall be and the same are hereby irrevocably pledged for the prompt payment of the principal of and interest on the Notes.

The Governing Body of the City shall make provisions for the payment of said Notes by the issuance of renewal notes or general obligation bonds of the City to provide permanent financing of the Project upon the completion thereof. If said bonds shall not be so issued and the Notes shall not be so paid, the Governing Body shall levy and collect a tax upon all taxable tangible property within the territorial limits of the City in an amount sufficient to pay the principal of and interest on said Notes as the same become due and payable.

Section Four. Form of Notes. Each of said Notes shall be in customary form.
Section Five. Execution and Delivery. The Mayor and City Clerk of the City are hereby authorized and directed to prepare and execute the Notes herein authorized in the form and substance hereinbefore described and as provided by law and to procure the proper registration in the office of the City Clerk and in the office of the Treasurer of the State of Kansas, and when so executed and registered, said Notes shall be countersigned by the City Clerk and delivered to United Missouri Bank, the original purchaser thereof, upon payment of the purchase price therefor which shall not be less than 99.69% of the principal amount thereof plus accrued interest to the date of delivery thereof to the original purchaser thereof.

Section Six. Disposition of Proceeds. The proceeds of the sale of the Notes shall be deposited with the City Treasurer to be used to redeem and retire the Prior Notes.

The City covenants and agrees that (1) it will comply with each and every provision of Section 103 and Sections 141 through 150 of the Internal Revenue Code of 1986, as amended (the "Code"), that is or may become applicable to the Notes, necessary to maintain the exclusion from gross income for federal income tax purposes of the interest on the Notes, including but not limited to any provisions requiring the rebate of earnings on amounts held in funds or accounts created with respect to the Notes and (2) it will not use or permit the use of any of the proceeds of the Notes or other funds of the City nor take or permit any other action, or fail to take any action, if any such action or failure to act would adversely affect the exclusion from gross income for federal income tax purposes of the interest on the Notes; provided, however, the foregoing provision in (1) above shall be and become null and void if and to the extent that the City shall receive an opinion from nationally recognized bond counsel which concludes that compliance with the foregoing covenant and the provisions of the Code as provided in this section shall not be required to maintain and continue the tax-exempt status of the interest income on the Notes.

Section Eight. Designation of Notes as Qualified Tax-Exempt Obligations. The Governing Body hereby finds, determines, represents and warrants, as follows:

1. The City is a duly created and validly existing municipal corporation of the State of Kansas in existence since 1948;

2. Since January 1, 1997, the City, any related issuer on behalf of the City

Section Ten. Effective Date. That this Ordinance shall take effect and be in force after its publication as provided by law.

The Notes shall bear interest from their dated date, payable at maturity or upon redemption prior thereto as herein provided, at a rate of interest of 4.00% per annum (computed on the basis of actual days elapsed and a 360-day year composed of twelve 30-day months). interest on said Notes as the same become due and payable.
