4. PROCLAMATIONS – None

5. PRESENTATIONS/RECOGNITIONS - None
6. SPECIAL BUSINESS –
Request for additional items to be included in the Special Benefit District Project for Parkway Plaza; R.H. Sailors & Company [CIP # 195]
Scott Lambers stated that consideration for establishing a Special Benefit District was being proposed tonight. The applicant was asking to utilize the financing for the improvements of the project that involved above-ground storm drainage that would be in a green space capacity with some amenities. Mr. Lambers explained that with the development of the 135th Street Corridor design guidelines, the Governing Body had been willing to consider requests for financing of amenities in order to provide compliance with the standards it wanted to see constructed at that location. He stated he did not feel comfortable approving tonight’s request administratively, as the improvements were not to be directly located on the 135th Street Corridor, but were within the Corridor, would be used to improve the quality of the project and would form a public purpose. If the Governing Body approved the inclusion of this project in the 135th Street Corridor, then the dollar amount to be approved would be determined. He stated he had no objection to the request being made.

Mayor Dunn clarified that this issue would concern the inclusion of $445,560.00 for the detention area, and not to confuse it with Item “13C,” that gave the total dollar amount ($6.9 million) for the project.

Councilmember Bussing confirmed with Mr. Lambers that further extrapolation of the financing request process would most likely occur, with all requests meeting the public improvement requirement as part of the improvement guideline. A private development would therefore not be eligible. A non-traditional public improvement project, such as Price Chopper’s underground storm drainage facilities, might be forthcoming. Creative new storm drainage projects could be expected in both the handling and treating (filtering) of water.

Councilmember Rasmussen made a motion to approve the request. Councilmember Taylor seconded the motion, and the motion was approved unanimously 7-0-0.

7. CONSENT AGENDA
Consent agenda items have been studied by the Governing Body and determined to be routine enough to be acted on in a single motion. If a Councilmember requests a separate discussion on an item, it can be removed from the consent agenda for further consideration.
