9. COUNCILMEMBERS’ REPORT

A. Councilmember Rawlings’ report – Dissolve Building Permit Task Force

As Chair of the Building Permit Task Force, Councilmember Rawlings reviewed that the group first met over 18 months ago. Along with Councilmember Filla, the committee was comprised of representatives from homeowners associations [HOAs], the building/remodeling profession, the Planning Commission, and City Staff. A total of eight HOAs are now involved in the intended purpose and outcome of the committee, which was to allow HOAs the opportunity to review submitted plans of remodels prior to the issuance of a building permit. The process is working very well for the eight participating HOAs that represent over two-thirds of the Leawood population.

The committee also discussed and had great concerns with height and massing issues in residential areas. The Planning Commission is now studying these issues and will report their findings to the City Council for further action if necessary. The final meeting of the task force included discussion of stormwater issues caused by the disturbance of ground related to the remodeling of residential property. There are no current standards, restrictions, or guidelines set in place for this problem; therefore, the issue has been referred to the Stormwater Management Committee for recommendation.

As the original mission of the Building Permit Task Force has been accomplished, Councilmember Rawlings moved to dissolve the committee until further recommended action from Mayor Dunn. The motion was seconded by Councilmember Bussing.

Mayor Dunn voiced her deep appreciation to Councilmember Rawlings for his leadership in chairing the Building Permit Task Force, to Councilmember Filla for her service, and to the entire group for their participation in what was originally estimated to be only a six-month venture.

The motion was approved following a unanimous vote of 8-0.
10. **STAFF REPORT**
   A. City Administrator Scott Lambers’ report – Update on height and massing requirements in the Leawood Development Ordinance [LDO]

   Mr. Lambers stated members of the Planning Department held a Work Session with the Planning Commission, where consensus was obtained in terms of dealing with the issue of calculating height for residential remodels and reconstructions. The meeting lasted several hours and was extremely productive. The next step will be to address the issue of massing over the course of several meetings. The first meeting will take place at the home of Planning Commissioner Dennis Reynolds followed by a tour of reconstructed homes in north Leawood. A subsequent meeting will be scheduled to further discuss the massing issue.

**COMMITTEE RECOMMENDATIONS**

11. **PLANNING COMMISSION**
    [From May 22, 2007 Planning Commission Meeting]
    A. Ordinance No. 2244 approving a Special Use Permit [SUP] for a Temporary Sales Trailer for Axis Lofts at Park Place, located north of 117th Street and east of Nall Avenue [Roll Call Vote]

   A motion to pass the ordinance was made by Councilmember Rasmussen; seconded by Councilmember Gill.

   Jeff Alpert of Park Place Developers, LLC, 6201 College Boulevard, reviewed the site plan drawing for the requested onsite temporary sales trailer. The trailer will service a residential component to the development, Axis Lofts, and will be located directly northeast of the public square. Approval for the four-story wood constructed building with underground parking will be requested within the next 60 days. The SUP request is for a standard prefabricated wood-sided trailer. A signage request will be forthcoming following completion of the design process. The landscaping will entail what has already been approved for the overall Park Place Development.

   Mr. Alpert pledged to Councilmember Rasmussen that the installation of the trailer will be nice, clean, and professional.

   Mayor Dunn noted that the SUP request is limited to one year and asked if this timeframe will be sufficient. Realistically, Mr. Alpert stated up to 15 months may be necessary as the intent is to move sales activity into the main building once construction is complete. A renewal of the SUP will be requested at the end of the one-year term if necessary.

   The ordinance passed with the following unanimous roll call vote of 8-0: Yea: Councilmembers Azeltine, Rasmussen, Gill, Filla, Rawlings, Peppes, Bussing, and Gulledge. Nay: None.

A motion to approve the resolution was made by Councilmember Gill; seconded by Councilmember Filla.

Councilmember Rasmussen asked if would be possible to utilize equipment from a certain unnecessary traffic signal along State Line Road (at approximately 107th Street) to build the proposed improvements.
