7I. Approve Massage Establishment License for Genesis Center for Advanced Skin Care, located at 5401 College Boulevard, Suite # 202, in accordance with § 5-520(12)(b) of the Code of the City of Leawood, Kansas, 2000
A motion to request staff to review provisions in the City’s Code; Article 5 - § 5-511 - Massage Therapy Outcalls as it relates to massages and outgoing calls and § 5-523 – Massage Establishment Facilities as it pertains to lighting was made by Councilmember Osman; seconded by Councilmember Azeltine.

Councilmember Osman stated the Code specifies that the room lighting be no less than forty (40) foot candles as measured three (3) feet above the floor. Community Development Director Richard Coleman indicated this is considered a high level of illumination. Mr. Osman was concerned because establishments are using dimmer switches so patrons can have a relaxing experience; however, this violates the illumination factor. Mr. Coleman confirmed staff would review these provisions and return with a report in March.

Councilmember Rawlings requested that staff also include the history of how they had determined this specific ordinance language in their report.

The motion carried following a unanimous vote of 8-0.

A motion to approve Item No. 7I was made by Councilmember Osman; seconded by Councilmember Filla. The motion carried following a unanimous vote of 8-0.

7S. Resolution No. 3756 approving a Revised Final Plan for Pine Development – Revised Landscape Plan, located north of 103rd Street and west of State Line Road (PC Case #08-12) [from the January 24, 2012 Planning Commission meeting]

Mr. Coleman confirmed staff had informed the resident directly behind this commercial location about the landscaping and fence and they seemed acceptable to it. There were two fences with one damaged by a storm. The applicant wanted to replace the damaged section of their fence with landscaping. Staff agreed to allow them to double the amount of evergreens to create a hedge in that space. The evergreens are required to be 6 feet tall at planting and must be maintained by the applicant. The residential 6-foot wooden privacy fence will remain in place.

Councilmember Rasmussen confirmed with Mr. Coleman that the ordinance provides for a 6-foot privacy fence; however, in lieu of that they can provide landscaping. The Planning Commission recommended unanimous approval. Mr. Rasmussen noted when this land was commercially zoned; it was stipulated for a fence. Mr. Coleman confirmed if a subsequent owner of the residential property decides to remove their fence the only buffer would be the evergreens. He didn’t feel this would create a precedent for this area.

A motion to approve Item No. 7S was made by Councilmember Filla; seconded by Councilmember Azeltine. The motion carried following a unanimous vote of 8-0.
