

# Community Public Service Offerings

## CPR, AED & First Aid Training

Bystander Response in an emergency can literally make the difference between life and death. One of our goals is to educate as many people in our community as possible in what to do in a medical or trauma emergency.

LFD has certified instructors on each shift that can come to your location to teach hands-only CPR in only around 20 minutes. Longer, more in-depth classes that incorporate infants and children, choking, First Aid, etc., are also available at the department and result in you earning a two-year certification card.

## Home Fire Safety

Is your family as prepared as it can be in case of a fire? Do you have the necessary tools to extinguish a small fire in your kitchen? Is it time to replace your smoke detectors? Let the fire department come to your location to talk about Home Fire Safety.

Topics can include:

- E.D.I.T.H. – Exit Drills in the Home
- Common causes of house fires.
- Flammable storage.
- Basic fire prevention tips.
- Extinguishers
- Detectors

## Child & Infant Car/Booster Seats

Car seats and booster seats designed to keep infants and children safe are required by law but can be difficult and confusing to install. The LFD has certified car seat installation technicians on each shift that can install your seats for you or check a previous installation at one of our stations.

For scheduling info:

beckyc@leawood.org — 913-266-0600

## Post-Fire

Any incident in your neighborhood can raise concern for you and your neighbors. After a significant fire in your neighborhood, the LFD can come out to discuss the following:

- The nature of the fire
- Firefighting actions at the scene
- Possible cause of the fire
- Lessons learned

## Tours, Talks, & Visits

Want to bring your group or family by a station for a tour? Need help with scout or other youth group public safety requirements? How about a truck visit to your location for a block party or event? The Leawood Fire Department can do all of this and more.
